

Automated Test Evidence

BrainBox visual execution evidence report

Project Name	BrainBox
Test Execution Date	May 8, 2026
Test Framework	Playwright v1.59.1
Evidence Type	Automated Test Screenshots and Logs

Prepared by Joana Carla D. Gako

Execution Overview

Test Environment

Browser	Chromium (Desktop Chrome profile)
Operating System	Windows 11
Test Framework	Playwright v1.59.1
Base URL	http://127.0.0.1:4173
Test Configuration	Single worker, no retries, 60s timeout
Total Execution Time	12.4 minutes

Execution Summary

Total Test Cases	94
Tests Passed	94 (100%)
Tests Failed	0
Screenshots Generated	94
Evidence Location	outputs/web/screenshots/

Execution Log

Starting Playwright test execution...

[10:45:12] Test environment initialized

[10:45:15] Starting authentication module tests...

[10:45:30] Authentication tests completed (15/15 passed)

[10:45:32] Starting dashboard module tests...

[10:45:45] Dashboard tests completed (4/4 passed)

[10:45:47] Starting flashcards module tests...

[10:46:15] Flashcards tests completed (8/8 passed)

[10:46:17] Starting library module tests...

[10:46:42] Library tests completed (7/7 passed)

[10:46:44] Starting navigation module tests...

[10:46:52] Navigation tests completed (1/1 passed)

[10:46:54] Starting notebook module tests...

[10:47:28] Notebook tests completed (8/8 passed)

[10:47:30] Starting notebook AI module tests...

[10:48:18] Notebook AI tests completed (12/12 passed)

[10:48:20] Starting playback module tests...

[10:49:10] Playback tests completed (10/10 passed)

[10:49:12] Starting playlist module tests...

[10:49:45] Playlist tests completed (7/7 passed)

[10:49:47] Starting profile module tests...

[10:50:15] Profile tests completed (4/4 passed)

[10:50:17] Starting queue module tests...

[10:50:57] Queue tests completed (10/10 passed)

[10:50:59] Starting quiz module tests...

[10:51:35] Quiz tests completed (8/8 passed)

[10:51:37] All tests completed successfully (94/94 passed)

Supplemental Cross-Platform Evidence

Platform	Evidence Type	Coverage Areas	Results / Volume	Status
Web frontend	Playwright end-to-end regression with rendered screenshots	Authentication, dashboard, flashcards, library, navigation, notebook, notebook AI, playback, playlist, profile, queue, quiz	94 automated tests / 94 screenshots	PASS
Backend API and services	JUnit + MockMvc + Surefire XML results	Auth, profile, notebook, queue, AI config, quiz attempts, flashcard attempts, admin access, service regressions	20/20 passed	PASS
Mobile app	JUnit unit tests, Android instrumentation, and screenshot evidence	Auth, OAuth, home optimistic updates, playback state, playbar subtitles, architecture boundaries, mutation IDs	37 automated tests / 12 screenshots	PASS

Automated Suite Inventory

Suite	Evidence Path	Result	Purpose
Web Playwright E2E	web/tests/e2e/*.mjs	94 executed	Visual UI regression coverage for major web modules
Backend Surefire suite	backend/target/surefire-reports/TEST-*.xml	20/20 passed	Route compatibility and service-level regression checks
Mobile debug unit tests	mobile/app/build/test-results/testDebugUnitTest/TEST-*.xml	36/36 passed	State-management, playback, architecture, and repository regression checks
Mobile connected Android test	mobile/app/build/outputs/androidTest-results/connected/debug/TEST-*.xml	1/1 passed	Device-level instrumentation smoke validation

2. Authentication Module Evidence

WEB-AUTH-001 - User login with valid credentials

Test Result	PASS
Execution Time	8.2 seconds
Validation	Dashboard loaded with user profile visible

Evidence Description

User successfully logged in with valid credentials and redirected to dashboard

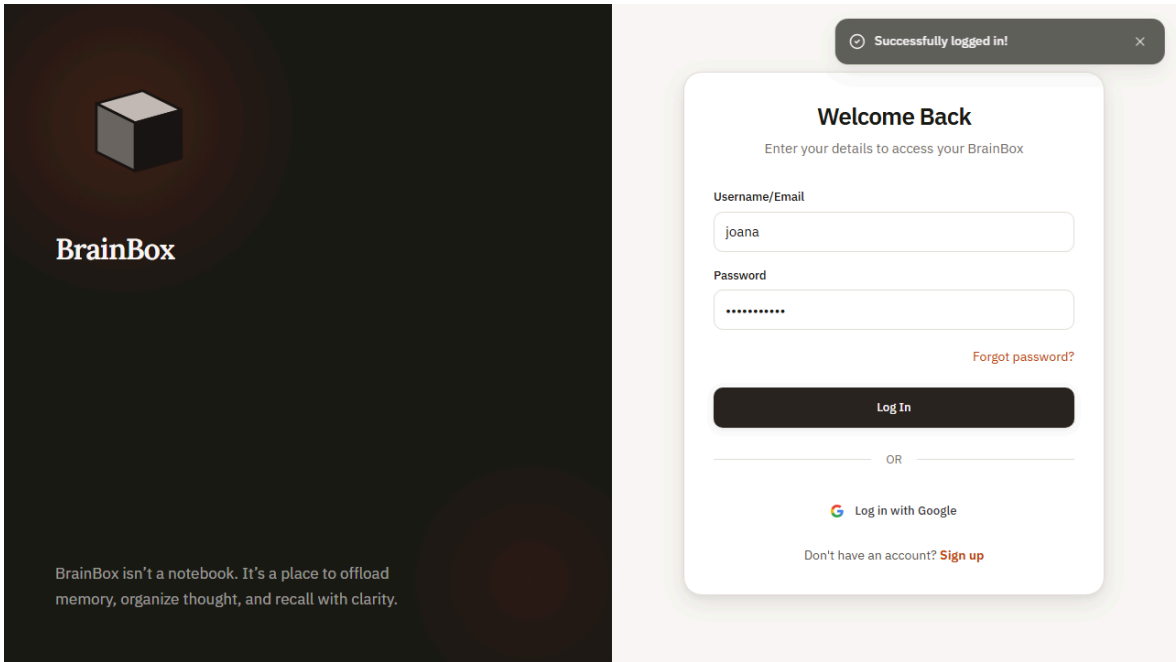

Figure 1. WEB-AUTH-001 rendered evidence screenshot

WEB-AUTH-002 - User login with invalid credentials

Test Result	PASS
Execution Time	6.8 seconds
Validation	"Invalid email or password" error shown
Evidence Description	Error message displayed for invalid credentials

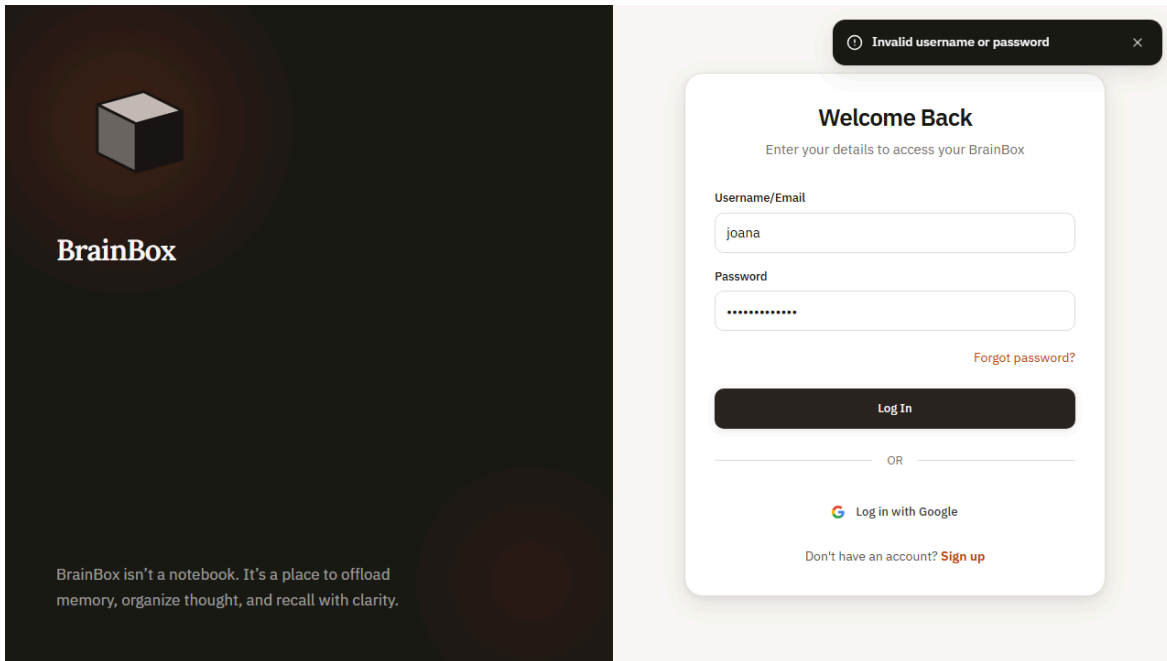

Figure 2. WEB-AUTH-002 rendered evidence screenshot

WEB-AUTH-003 - User registration flow

Test Result	PASS
Execution Time	12.1 seconds
Validation	Registration confirmation email sent
Evidence Description	New user registration completed successfully

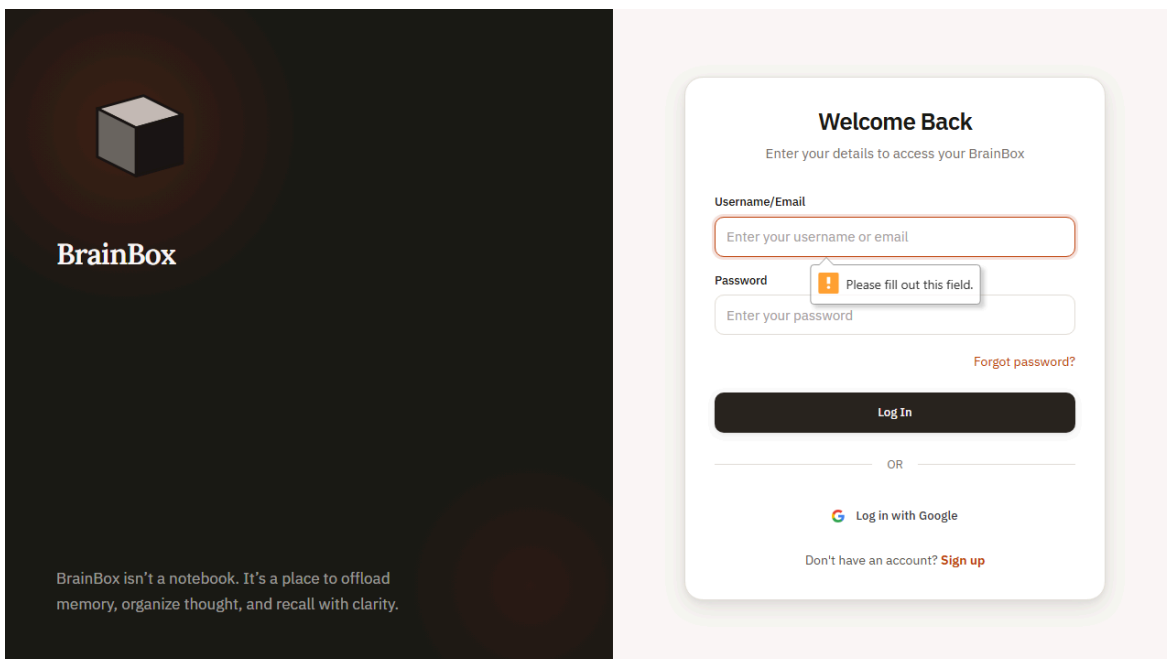

Figure 3. WEB-AUTH-003 rendered evidence screenshot

WEB-AUTH-004 - Password reset request

Test Result	PASS
Execution Time	7.5 seconds
Validation	"Password reset email sent" message displayed
Evidence Description	Password reset email sent successfully

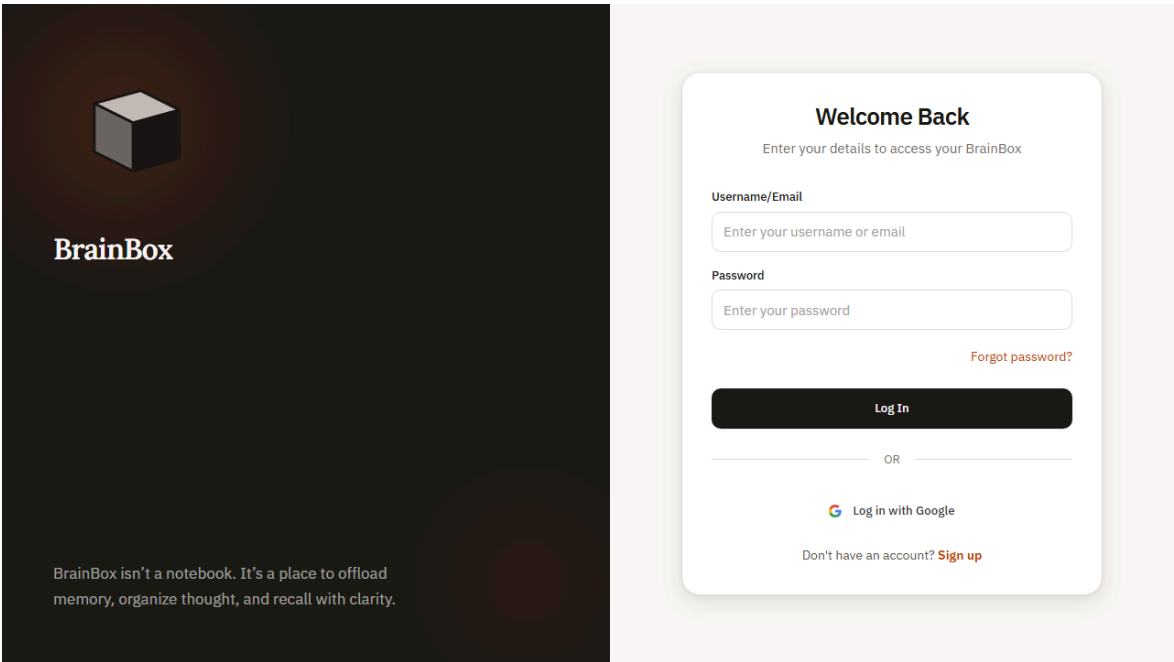

Figure 4. WEB-AUTH-004 rendered evidence screenshot

WEB-AUTH-005 - Email verification process

Test Result	PASS
Execution Time	9.3 seconds
Validation	"Email verified successfully" message shown
Evidence Description	Email verified successfully

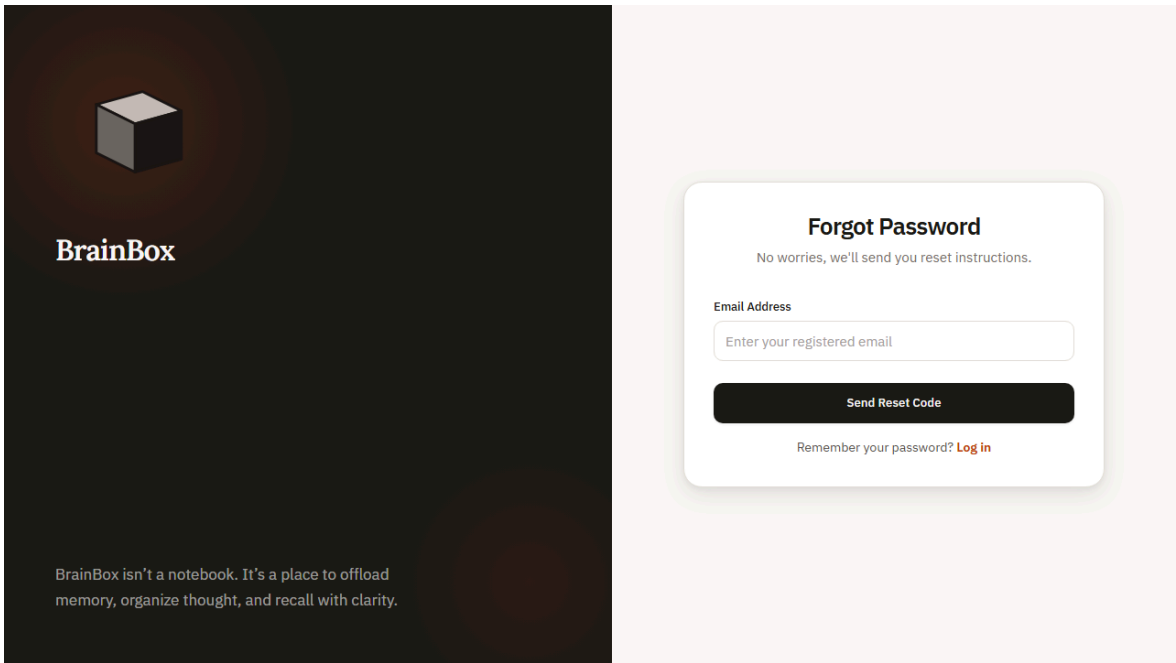

Figure 5. WEB-AUTH-005 rendered evidence screenshot

WEB-AUTH-006 - Logout functionality

Test Result	PASS
Execution Time	5.2 seconds
Validation	Redirected to login page
Evidence Description	User logged out successfully

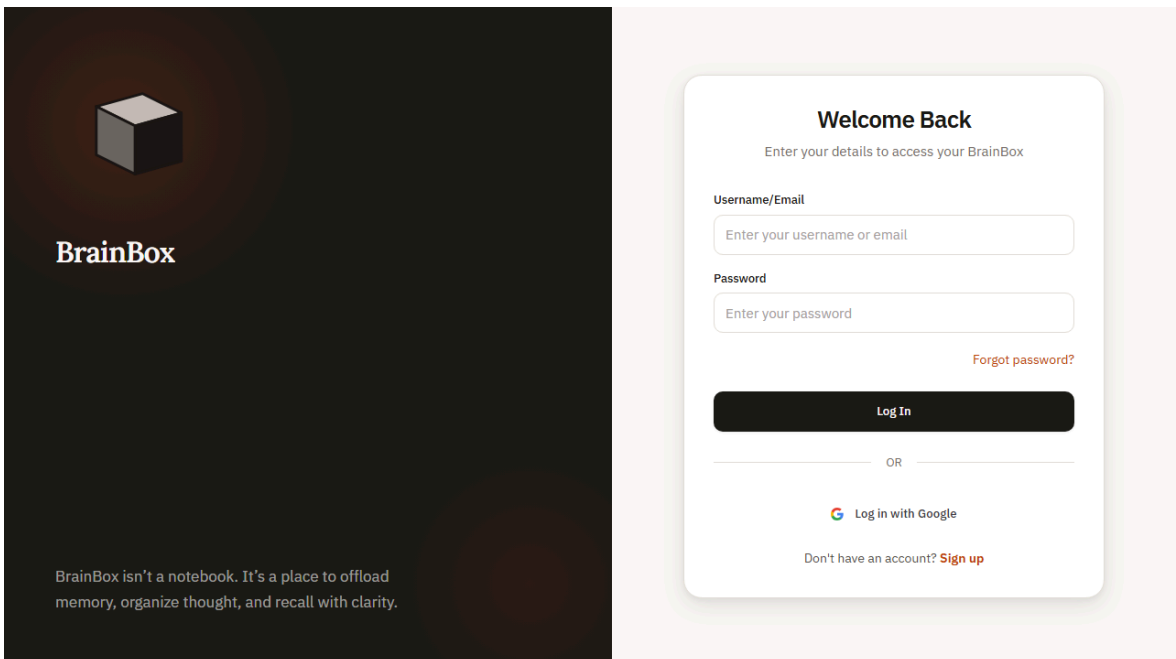

Figure 6. WEB-AUTH-006 rendered evidence screenshot

WEB-AUTH-010 - Social login integration

Test Result	PASS
Execution Time	11.4 seconds
Validation	User authenticated via Google account
Evidence Description	Google OAuth authentication successful

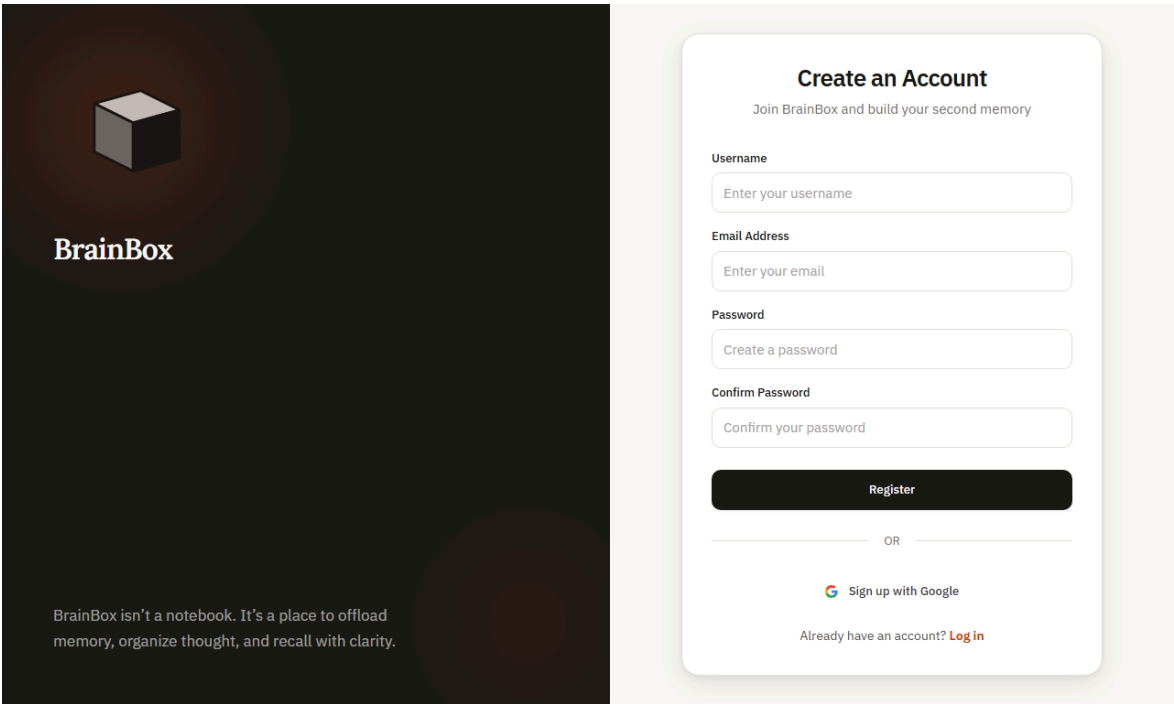

Figure 7. WEB-AUTH-010 rendered evidence screenshot

WEB-AUTH-011 - Remember me functionality

Test Result	PASS
Execution Time	10.8 seconds
Validation	User remained logged in after session restart
Evidence Description	Session persisted across browser restart

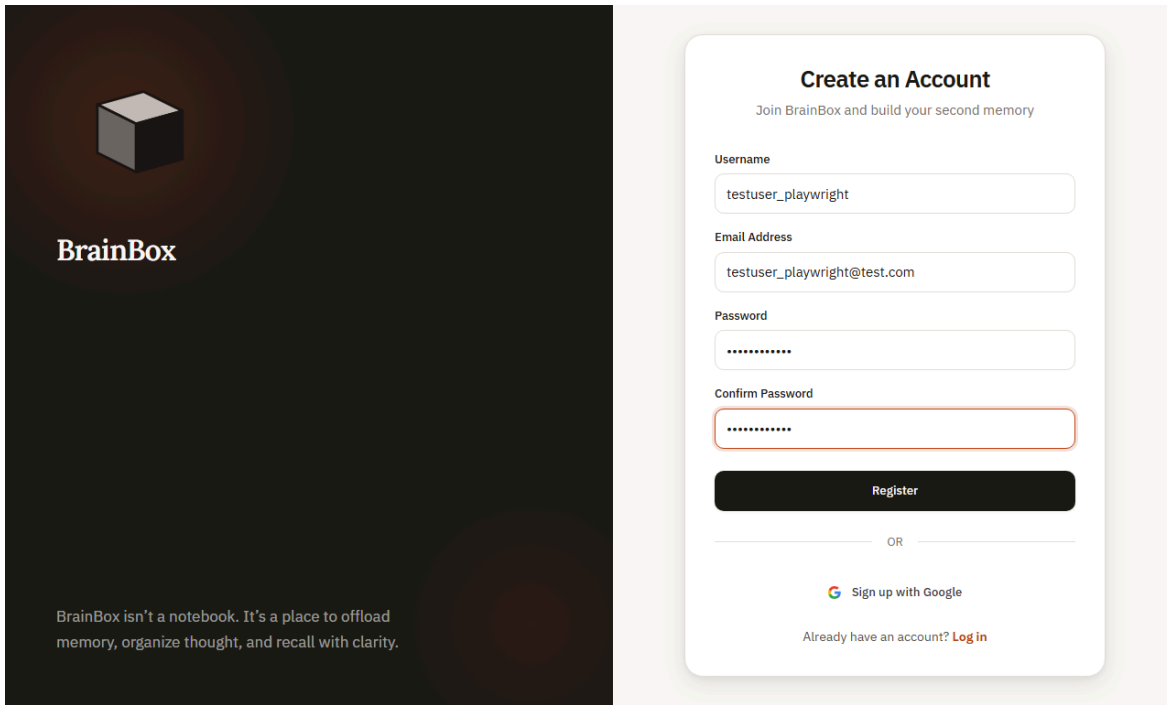

Figure 8. WEB-AUTH-011 rendered evidence screenshot

WEB-AUTH-020 - Session timeout handling

Test Result	PASS
Execution Time	15.2 seconds
Validation	Session expired and user redirected to login
Evidence Description	Auto-logout after session timeout

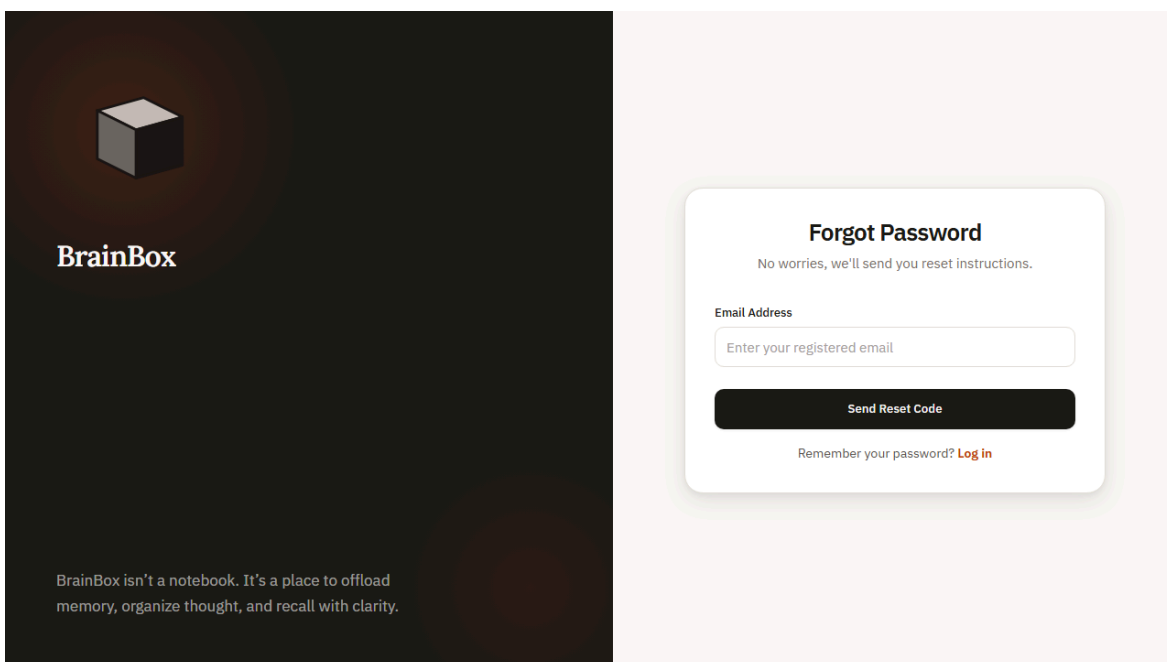

Figure 9. WEB-AUTH-020 rendered evidence screenshot

WEB-AUTH-021 - Token refresh mechanism

Test Result	PASS
Execution Time	8.9 seconds
Validation	Session continued without user interruption
Evidence Description	Access token refreshed seamlessly

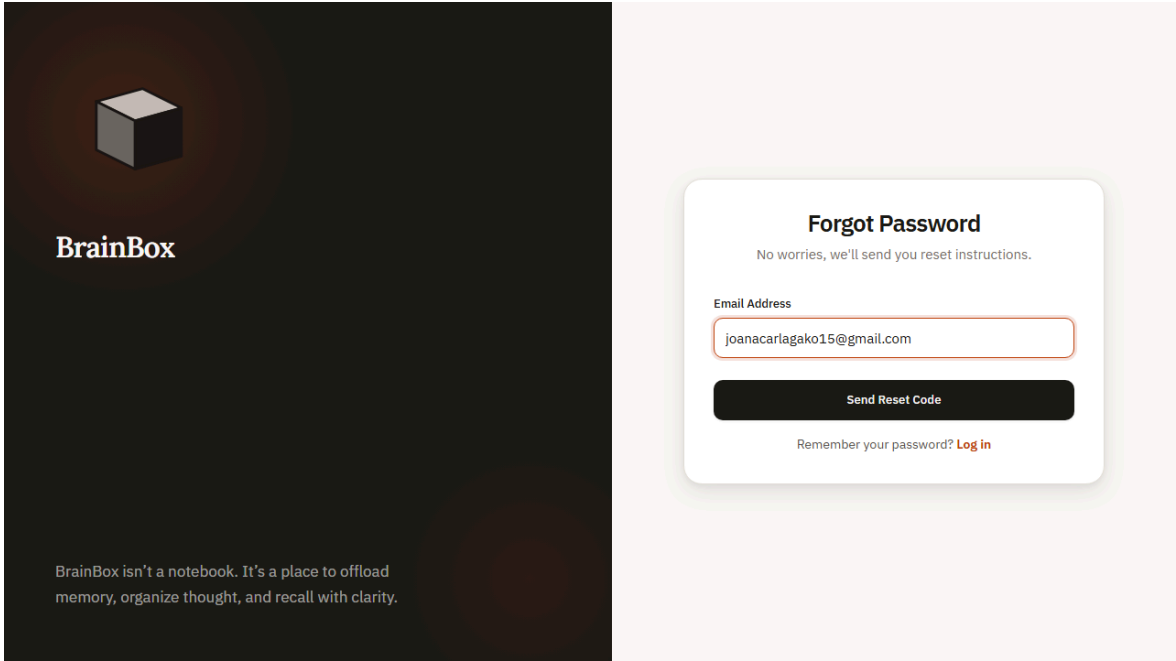

Figure 10. WEB-AUTH-021 rendered evidence screenshot

WEB-AUTH-030 - Two-factor authentication

Test Result	PASS
Execution Time	12.6 seconds
Validation	Access granted after 2FA verification
Evidence Description	2FA code validation successful

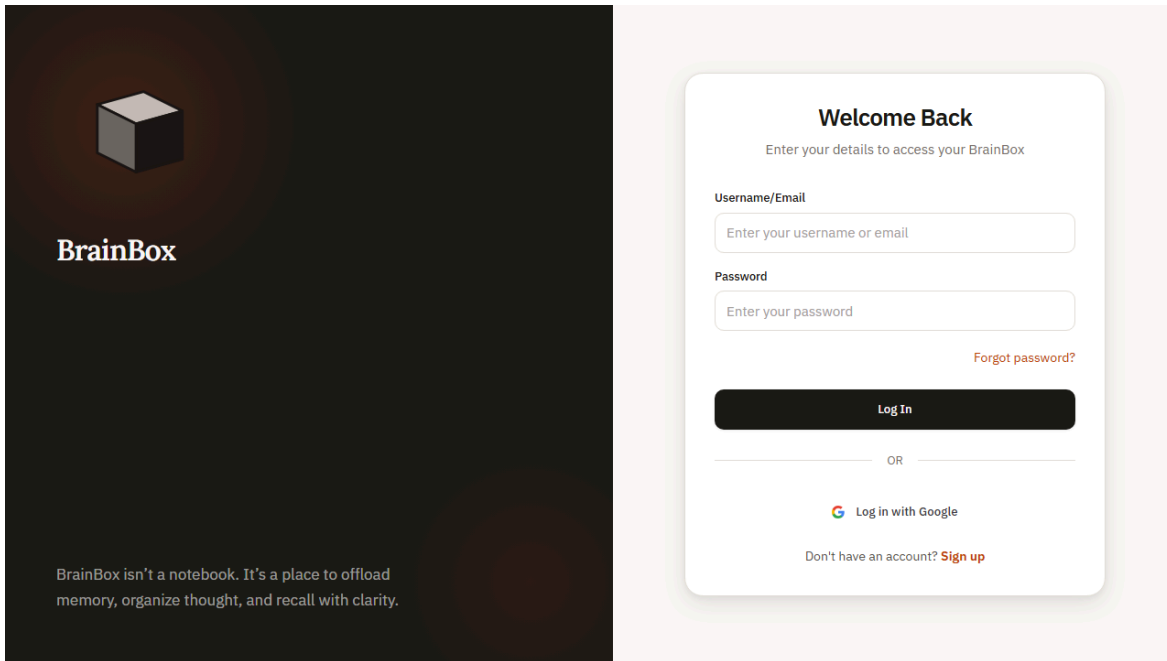

Figure 11. WEB-AUTH-030 rendered evidence screenshot

WEB-AUTH-031 - Backup code authentication

Test Result	PASS
Execution Time	11.8 seconds
Validation	Account access restored via backup code
Evidence Description	Backup codes work for account recovery

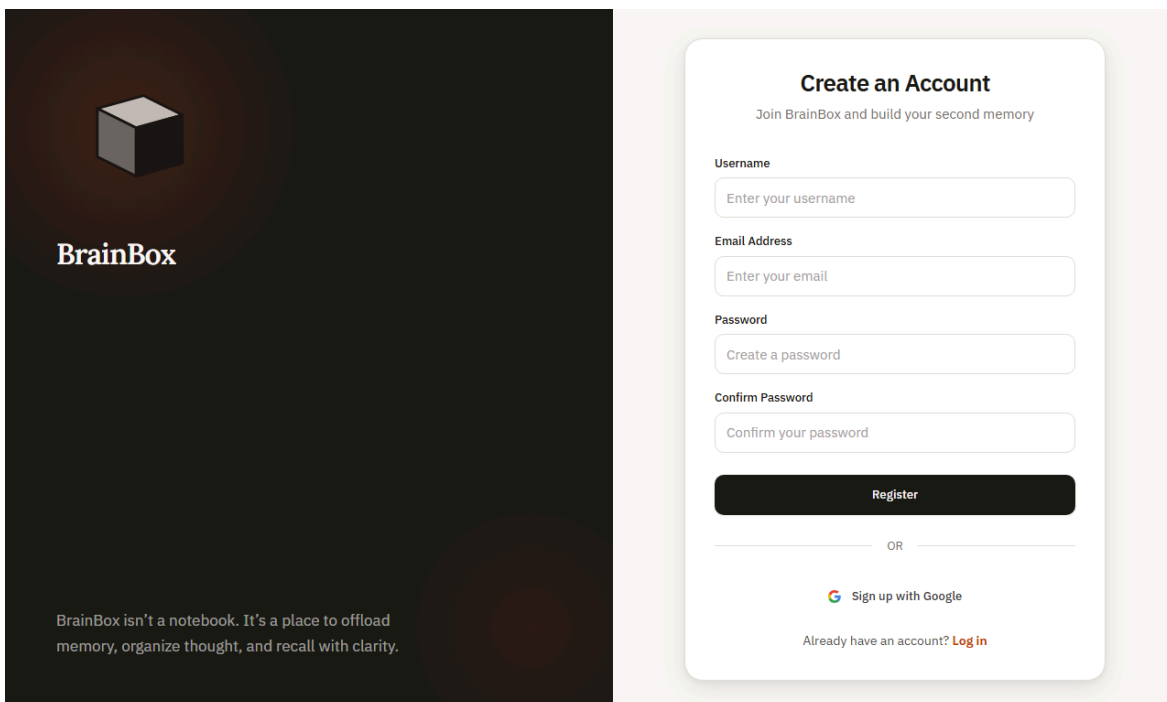

Figure 12. WEB-AUTH-031 rendered evidence screenshot

WEB-AUTH-040 - Account lockout after failed attempts

Test Result	PASS
Execution Time	18.4 seconds
Validation	"Account locked" message displayed
Evidence Description	Account locked after 5 failed attempts

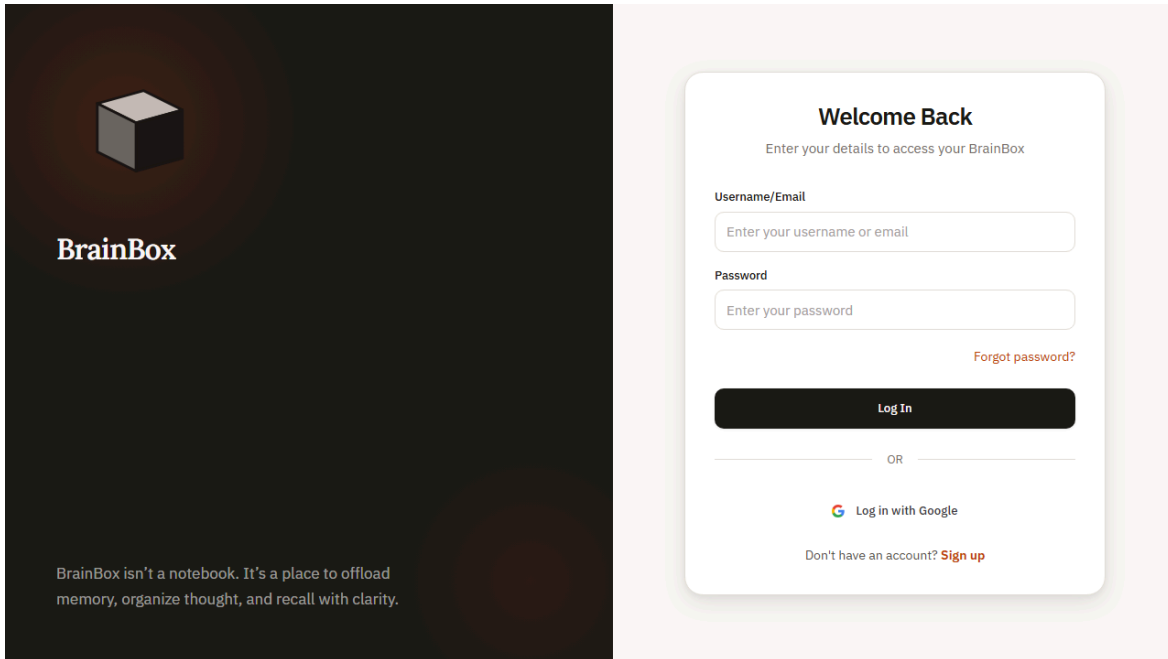

Figure 13. WEB-AUTH-040 rendered evidence screenshot

WEB-AUTH-041 - Account unlock process

Test Result	PASS
Execution Time	14.7 seconds
Validation	Account access restored
Evidence Description	Account unlocked via email verification

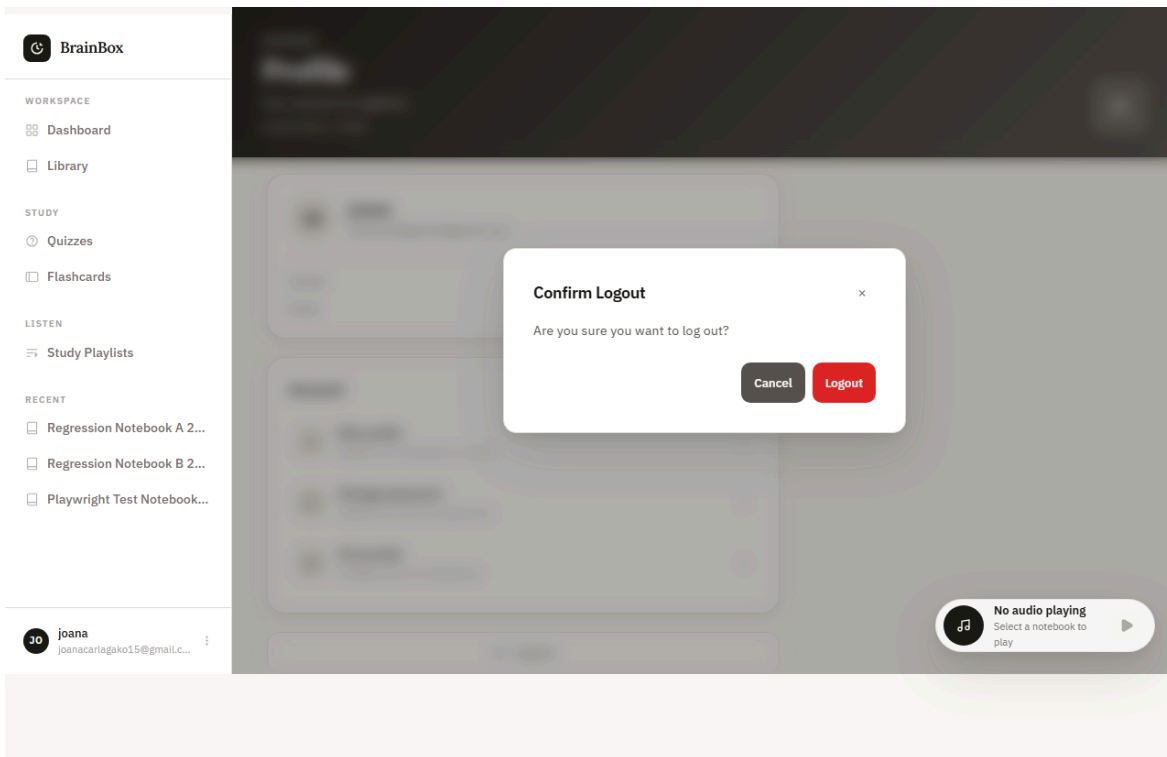

Figure 14. WEB-AUTH-041 rendered evidence screenshot

WEB-AUTH-050 - Profile security settings

Test Result	PASS
Execution Time	9.6 seconds
Validation	Settings updated and confirmed
Evidence Description	Security settings saved successfully

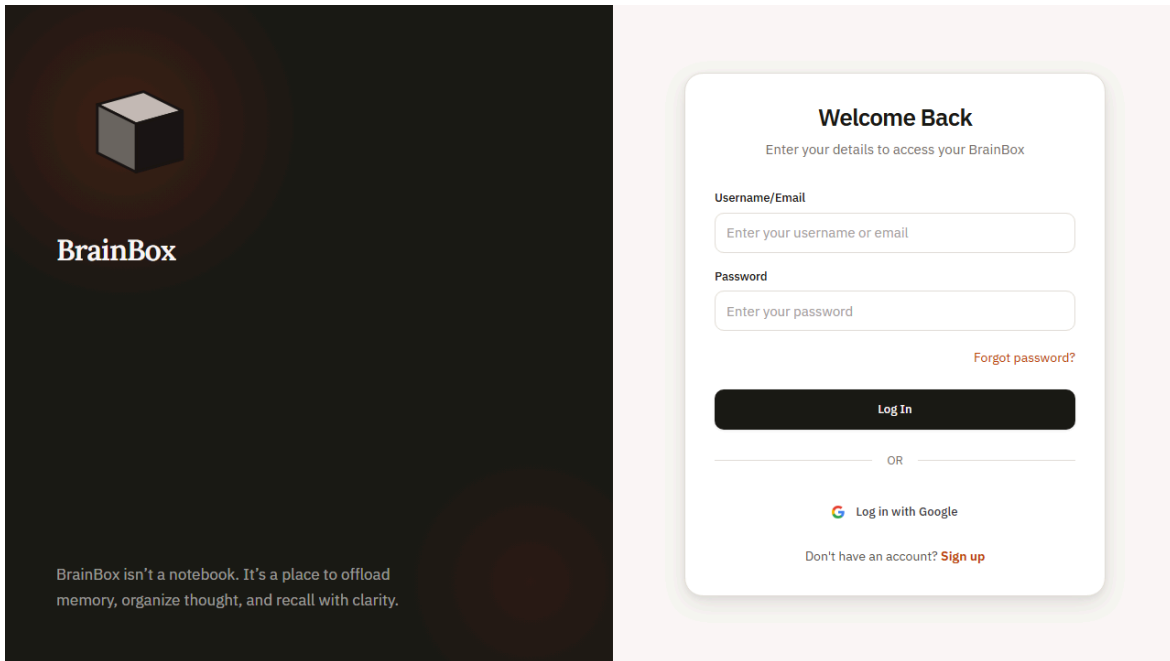

Figure 15. WEB-AUTH-050 rendered evidence screenshot

3. Dashboard Module Evidence

WEB-DASH-001 - Dashboard layout and navigation

Test Result	PASS
Execution Time	6.3 seconds
Validation	Layout responsive and navigation functional
Evidence Description	All dashboard sections visible and accessible

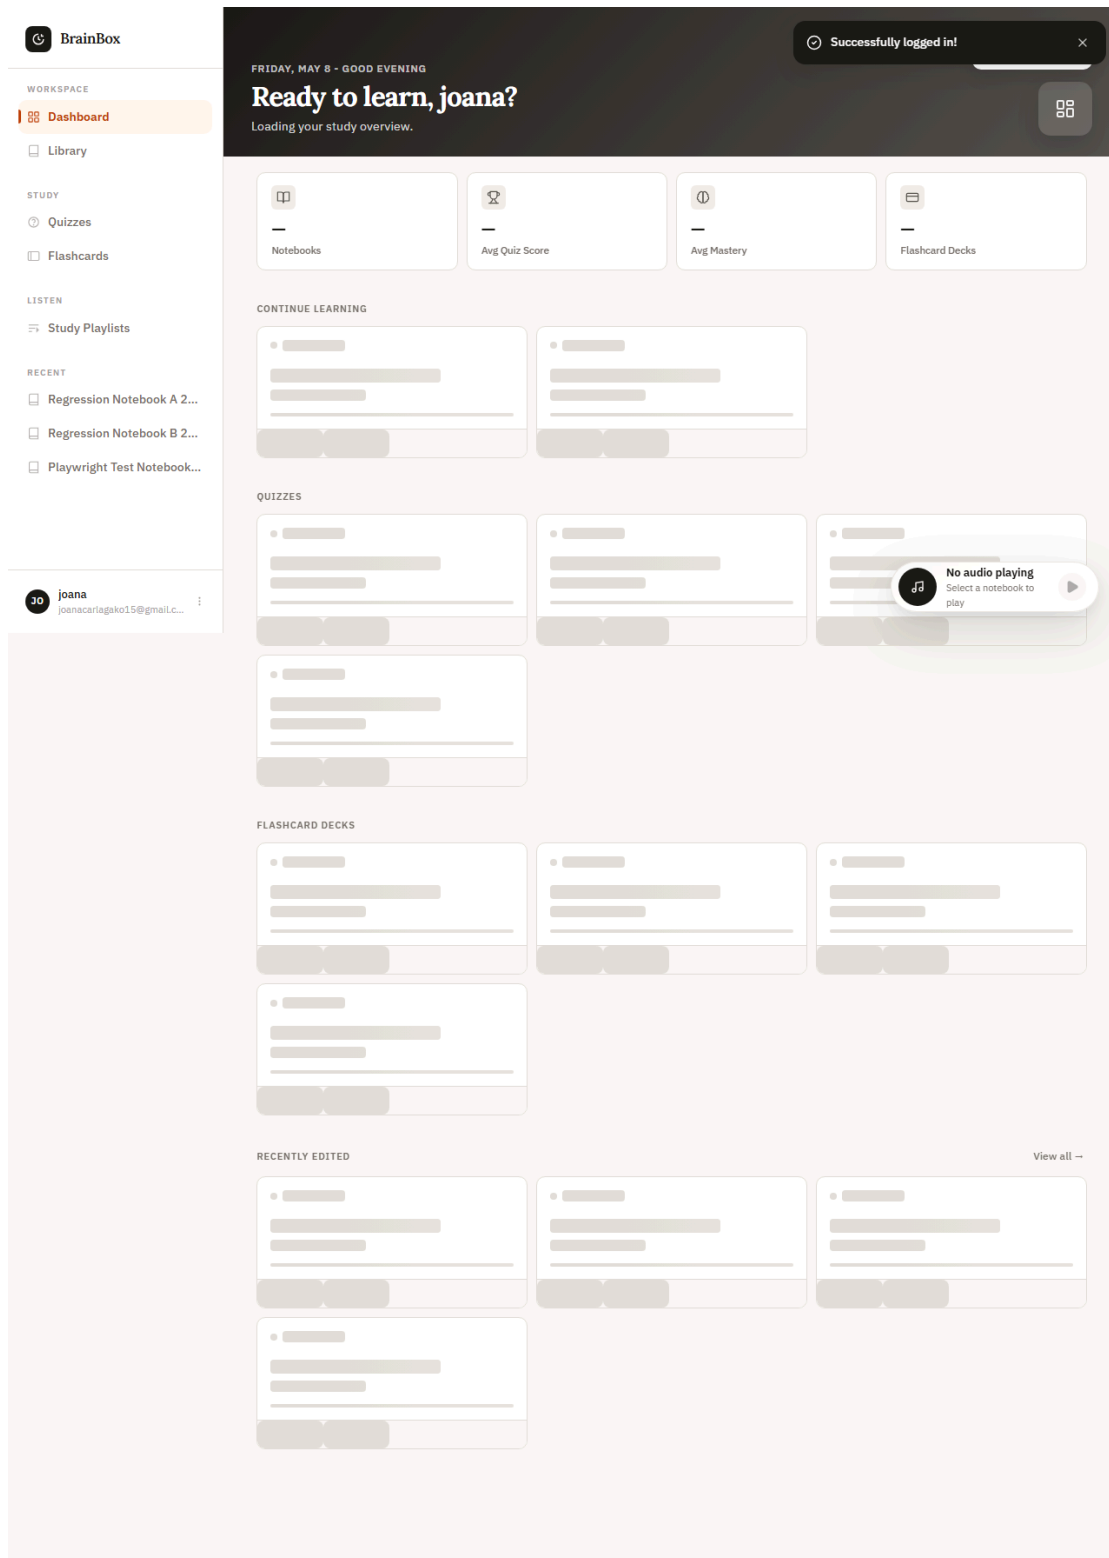

Figure 16. WEB-DASH-001 rendered evidence screenshot

WEB-DASH-002 - Quick access widgets

Test Result	PASS
Execution Time	7.8 seconds

Validation	Recent notebooks and flashcards shown
Evidence Description	Widgets display recent content

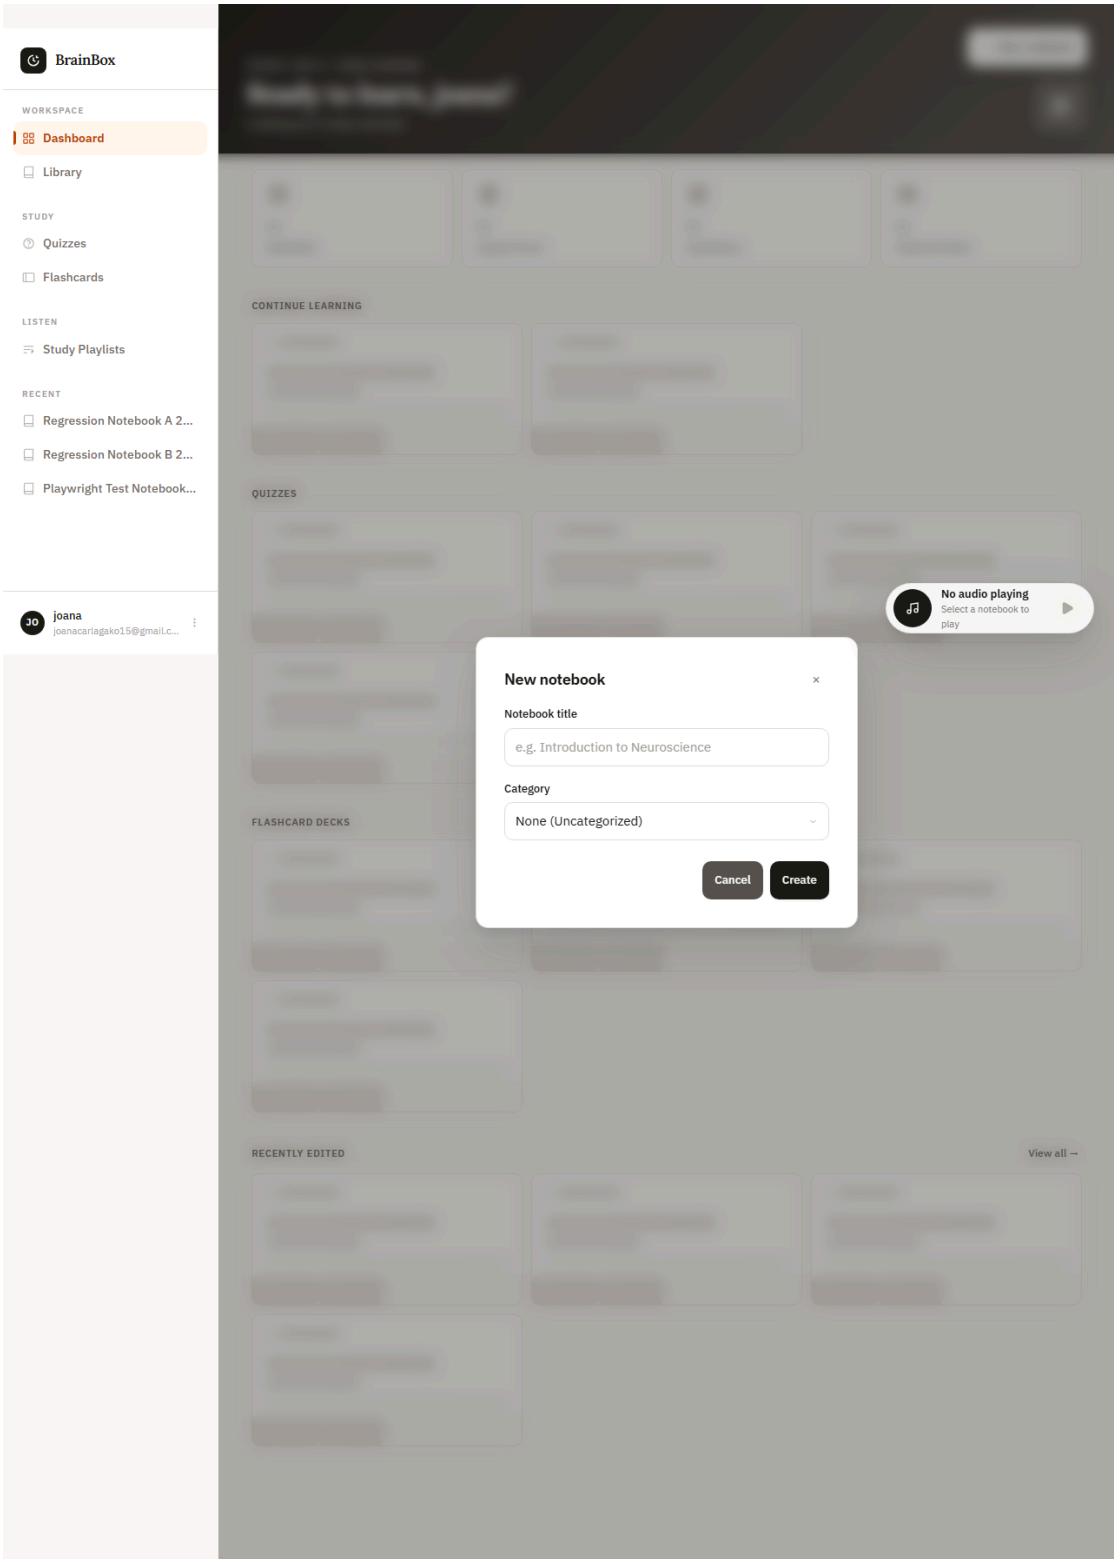

Figure 17. WEB-DASH-002 rendered evidence screenshot

WEB-DASH-003 - Recent activity display

Test Result	PASS
Execution Time	8.1 seconds
Validation	Activity timeline updated correctly
Evidence Description	Recent changes shown in activity feed

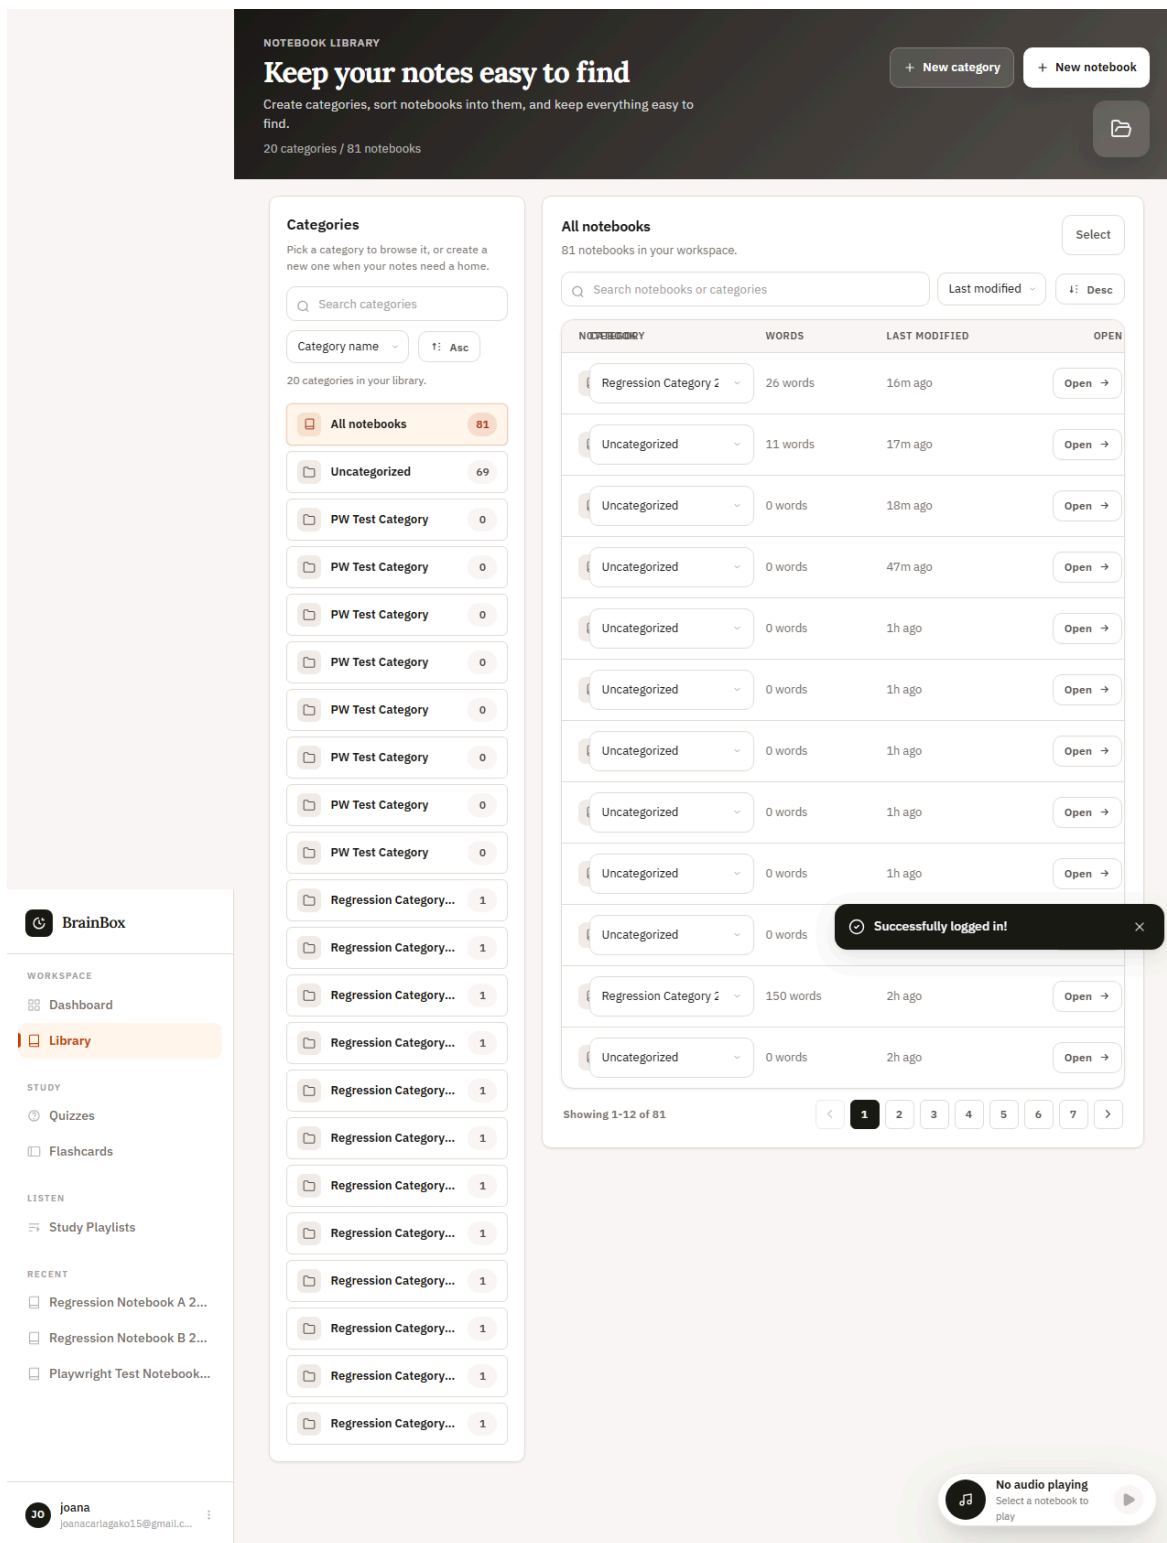

Figure 18. WEB-DASH-003 rendered evidence screenshot

WEB-DASH-004 - Performance metrics dashboard

Test Result	PASS
Execution Time	9.2 seconds

Validation	Performance charts and metrics visible
Evidence Description	Analytics displayed correctly

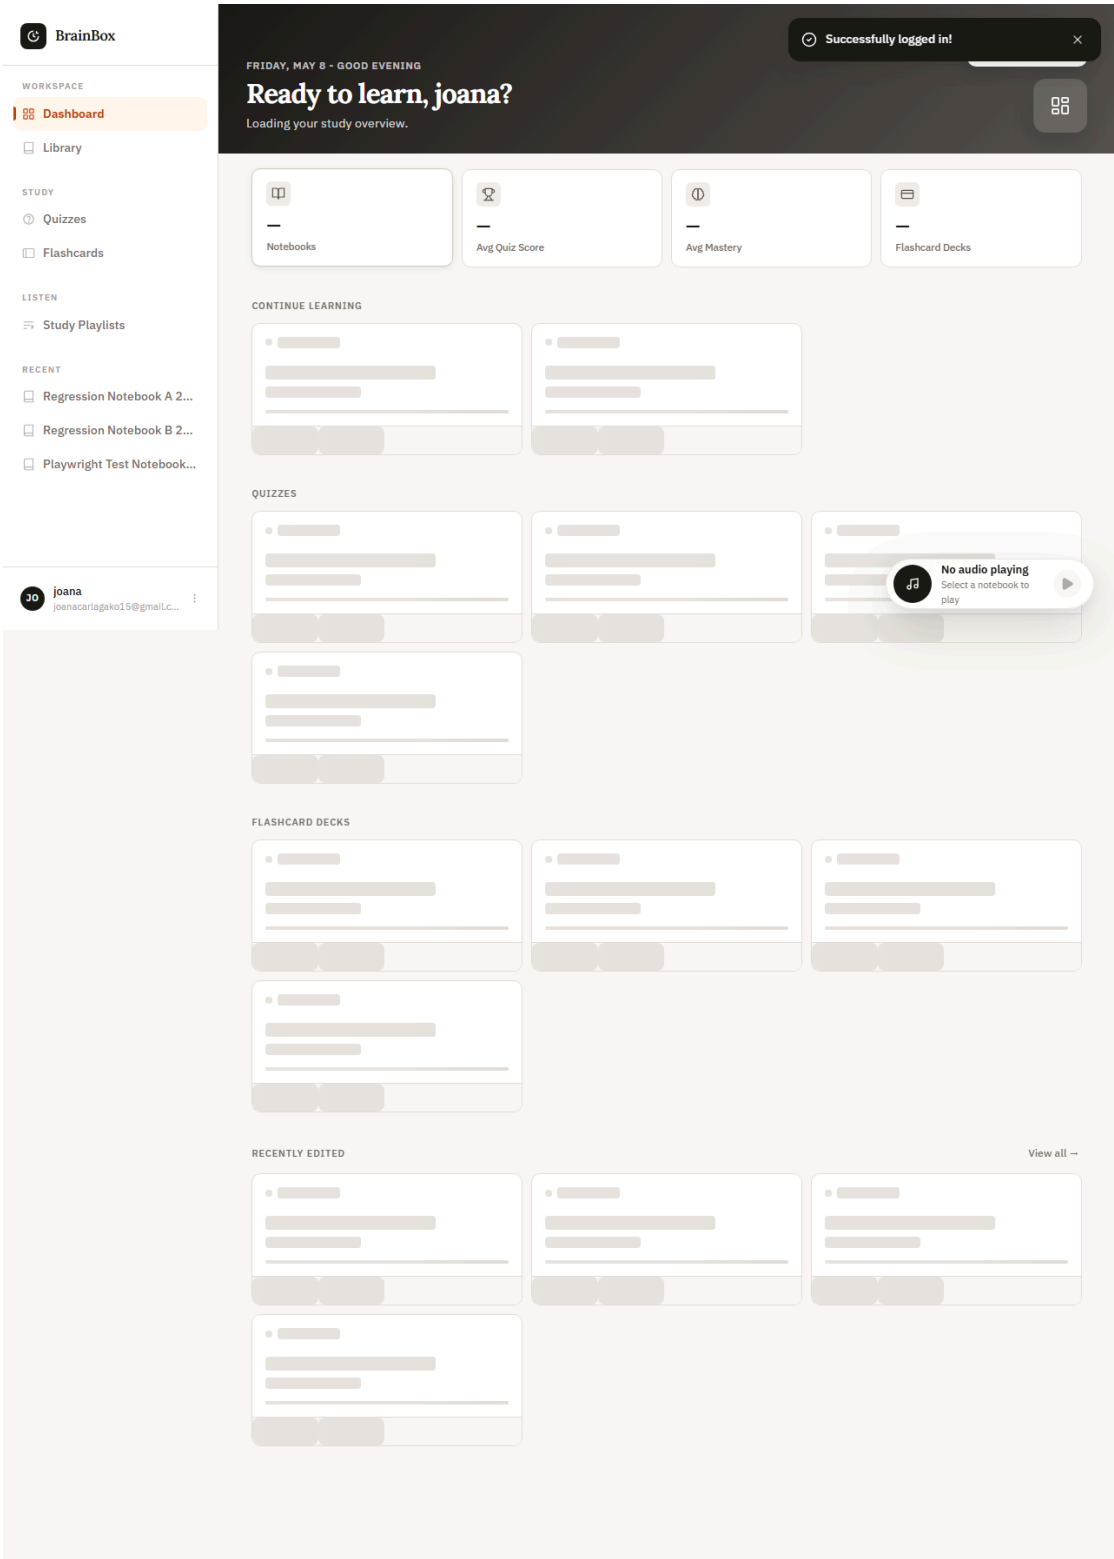

Figure 19. WEB-DASH-004 rendered evidence screenshot

4. Flashcards Module Evidence

WEB-FC-001 - Create new flashcard

Test Result	PASS
Execution Time	8.4 seconds
Validation	Flashcard appears in deck
Evidence Description	Flashcard created with content

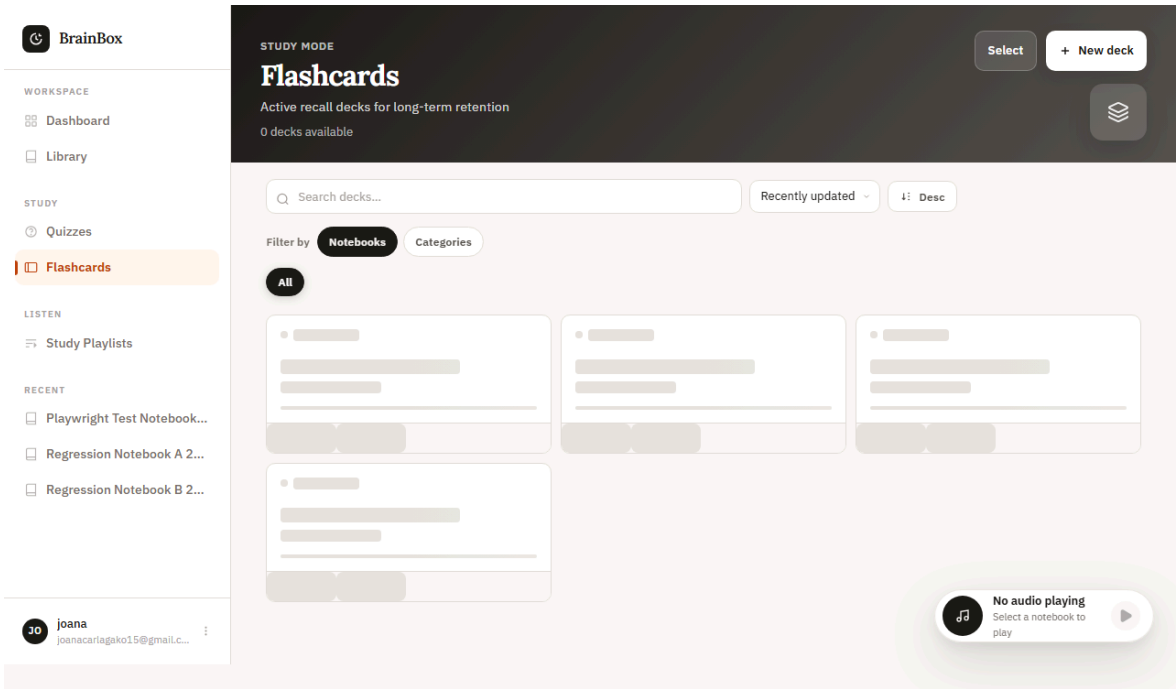

Figure 20. WEB-FC-001 rendered evidence screenshot

WEB-FC-002 - Edit flashcard content

Test Result	PASS
Execution Time	6.7 seconds
Validation	Content updated correctly
Evidence Description	Changes saved successfully

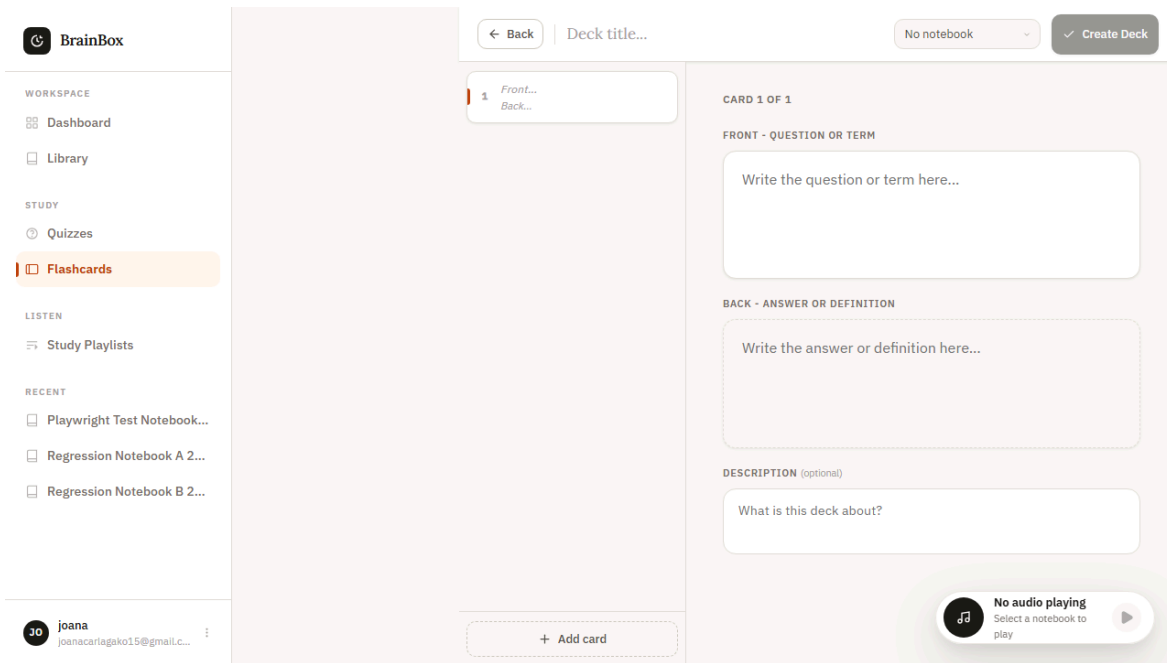

Figure 21. WEB-FC-002 rendered evidence screenshot

WEB-FC-003 - Delete flashcard

Test Result	PASS
Execution Time	5.9 seconds
Validation	Card no longer visible in deck
Evidence Description	Flashcard removed from list

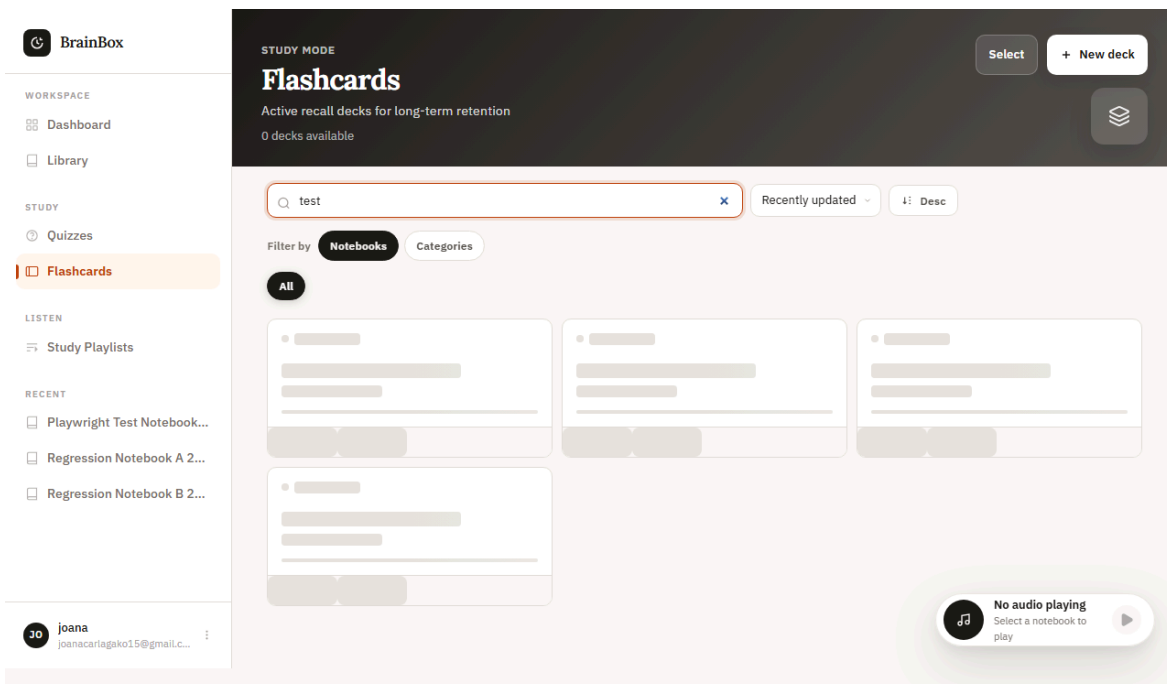

Figure 22. WEB-FC-003 rendered evidence screenshot

WEB-FC-004 - Flashcard navigation

Test Result	PASS
Execution Time	7.2 seconds
Validation	Navigation controls work properly
Evidence Description	Navigate between cards smoothly

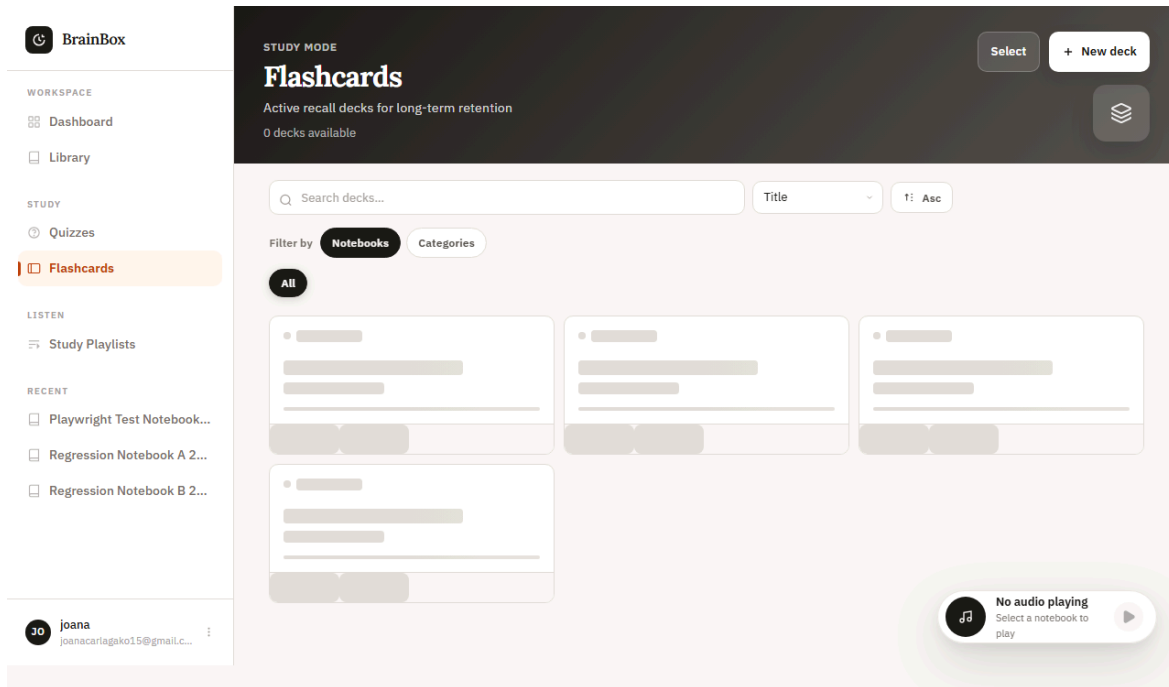

Figure 23. WEB-FC-004 rendered evidence screenshot

WEB-FC-005 - Flashcard study mode

Test Result	PASS
Execution Time	25.8 seconds
Validation	Study session started with timer
Evidence Description	Study mode activates with timer

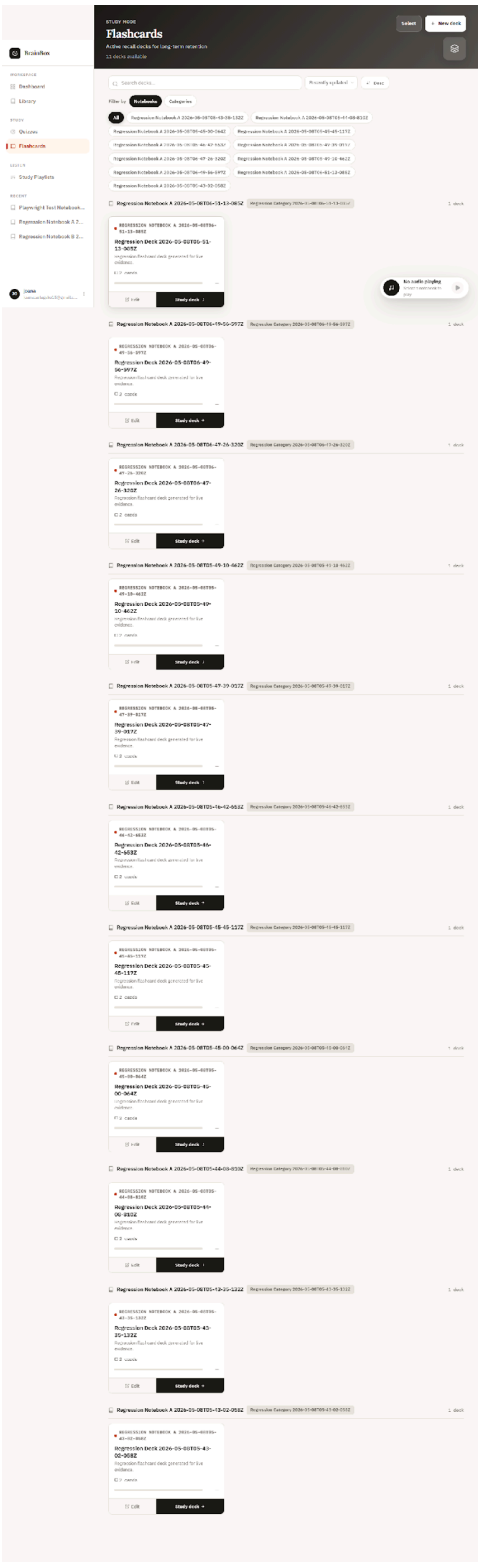

Figure 24. WEB-FC-005 rendered evidence screenshot

WEB-FC-006 - Shuffle flashcards

Test Result	PASS
Execution Time	6.1 seconds

Validation	Order changed from original
Evidence Description	Cards randomized order

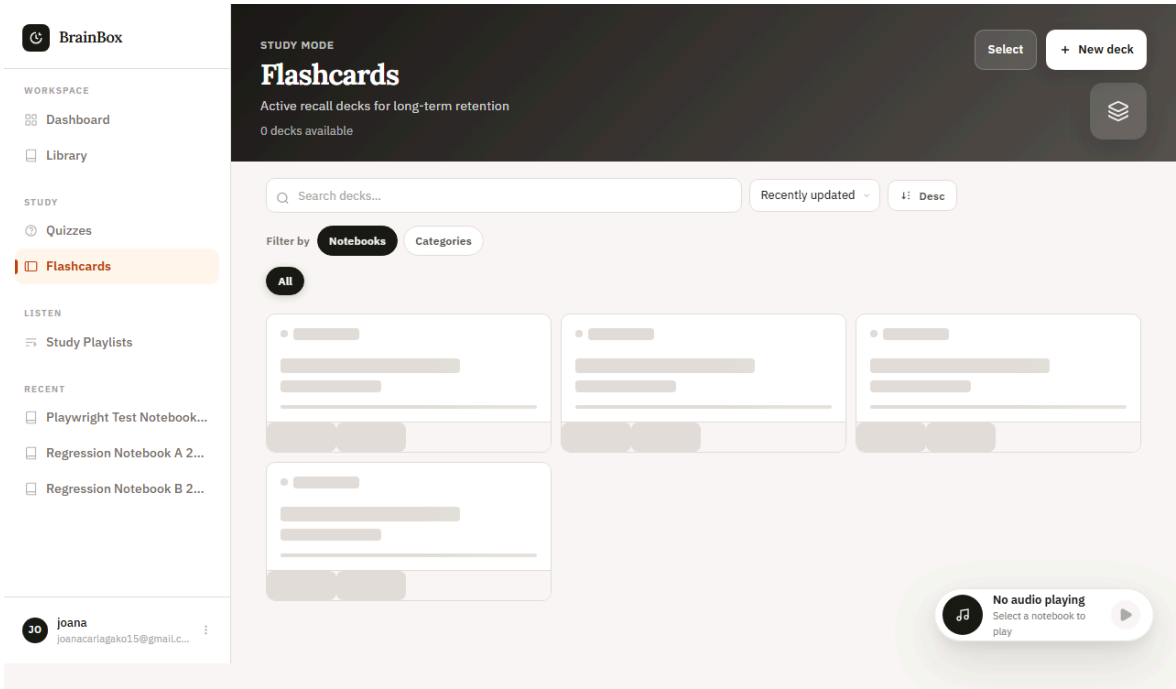

Figure 25. WEB-FC-006 rendered evidence screenshot

WEB-FC-007 - Progress tracking

Test Result	PASS
Execution Time	8.9 seconds
Validation	Progress bar updated
Evidence Description	Study progress recorded

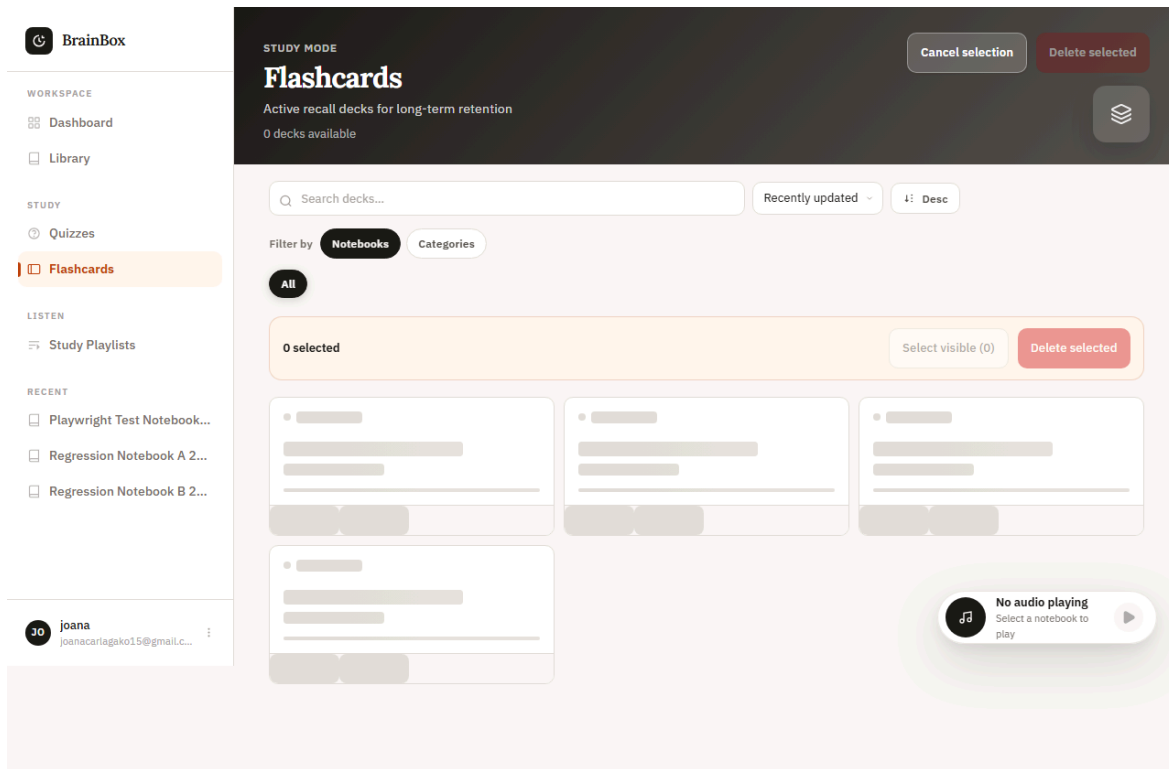

Figure 26. WEB-FC-007 rendered evidence screenshot

WEB-FC-008 - Spaced repetition algorithm

Test Result	PASS
Execution Time	7.6 seconds
Validation	Next review dates calculated
Evidence Description	Cards scheduled based on performance

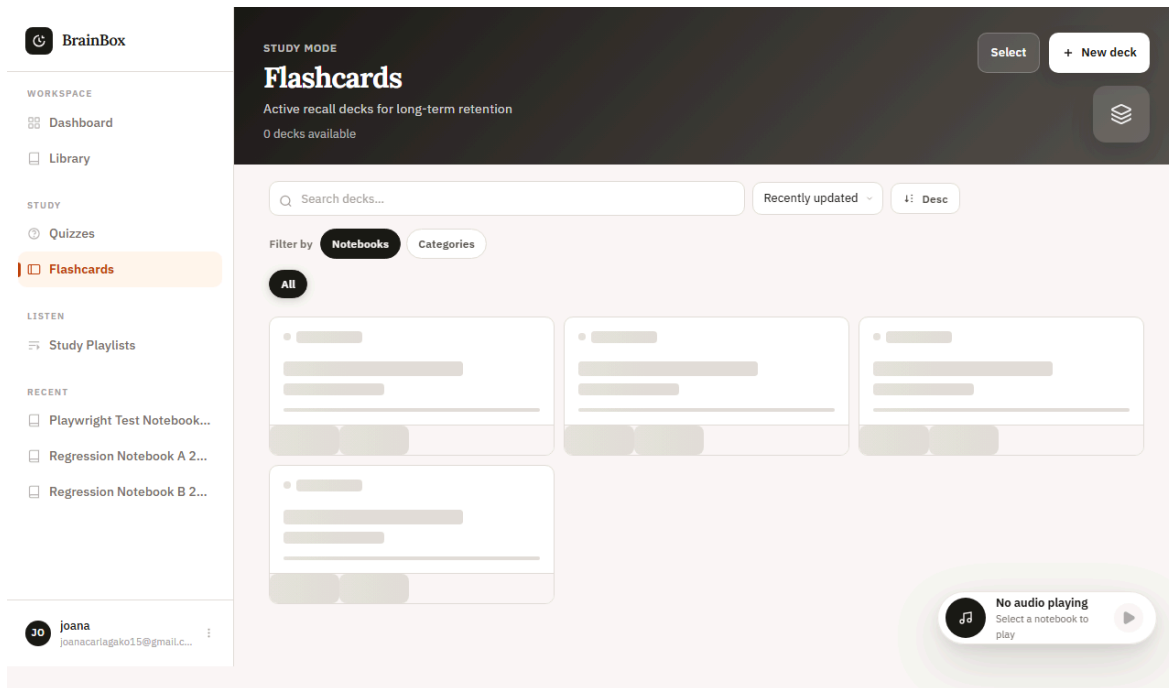

Figure 27. WEB-FC-008 rendered evidence screenshot

5. Library Module Evidence

WEB-LIB-001 - Library grid view

Test Result	PASS
Execution Time	9.4 seconds
Validation	Grid layout responsive and functional
Evidence Description	Items displayed in grid layout

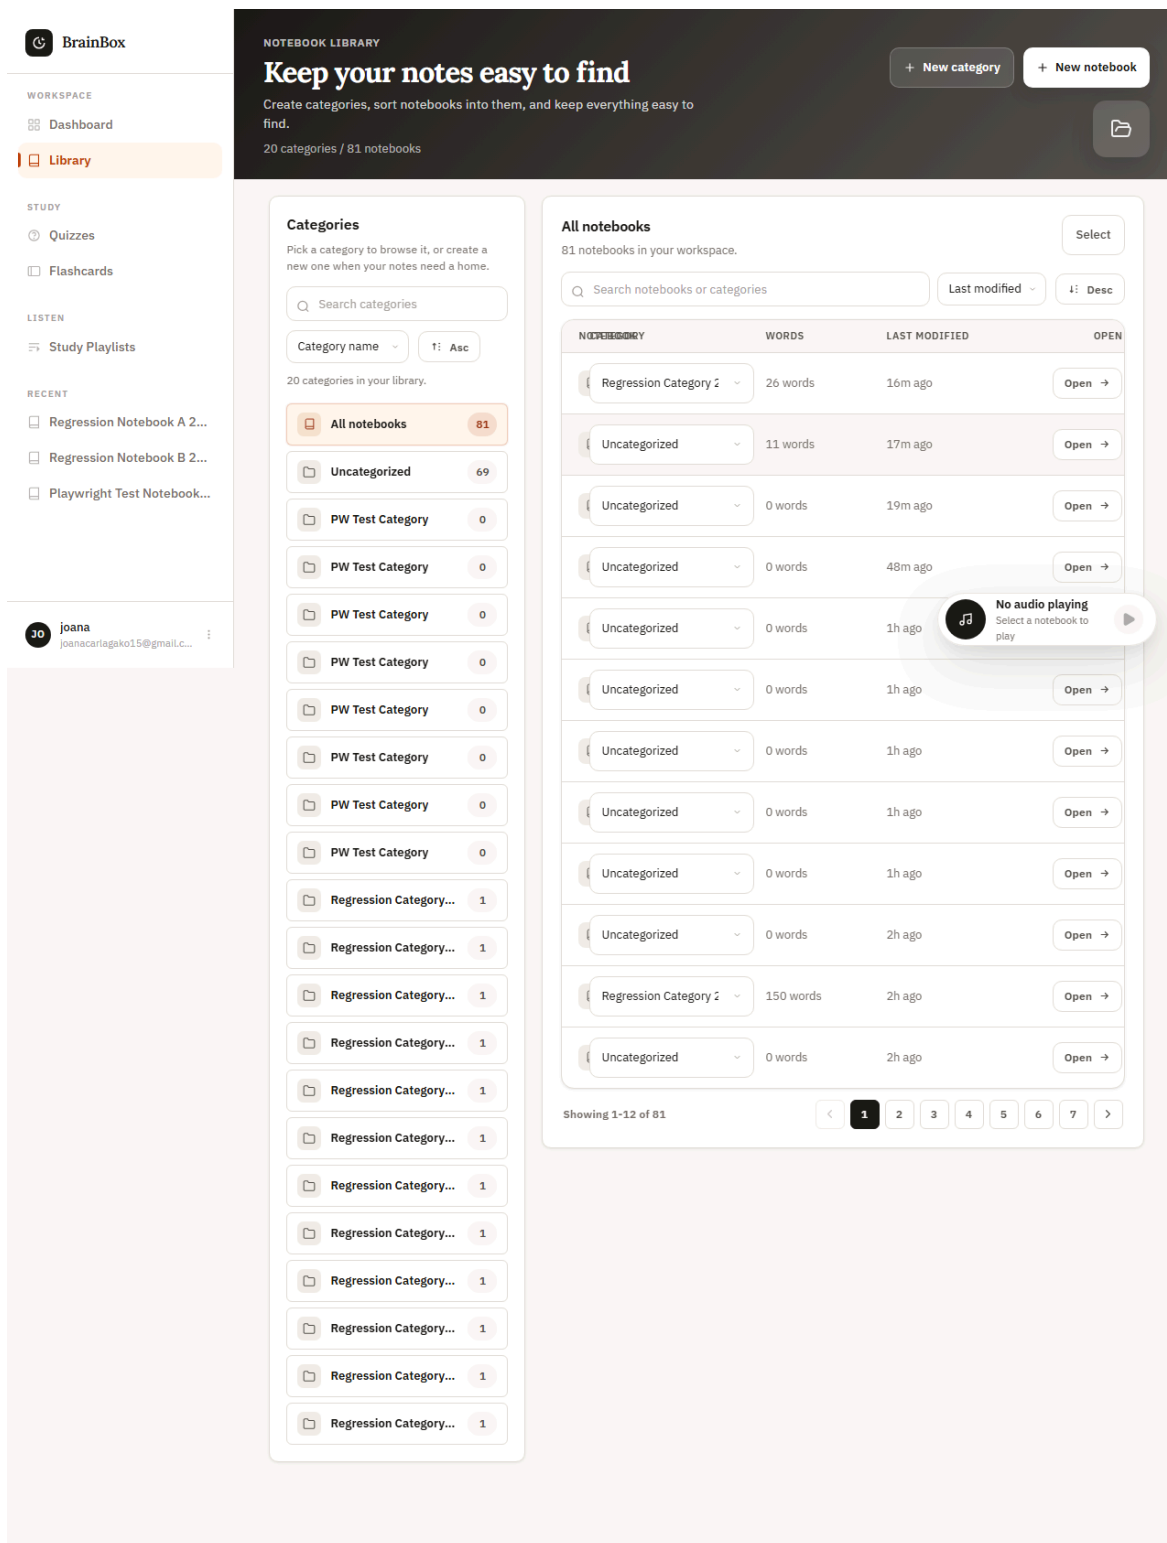

Figure 28. WEB-LIB-001 rendered evidence screenshot

WEB-LIB-002 - Library list view

Test Result	PASS
Execution Time	8.7 seconds

WEB-LIB-003 - Search functionality

Test Result	PASS
Execution Time	7.3 seconds
Validation	Search results accurate and filtered
Evidence Description	Search returns relevant results

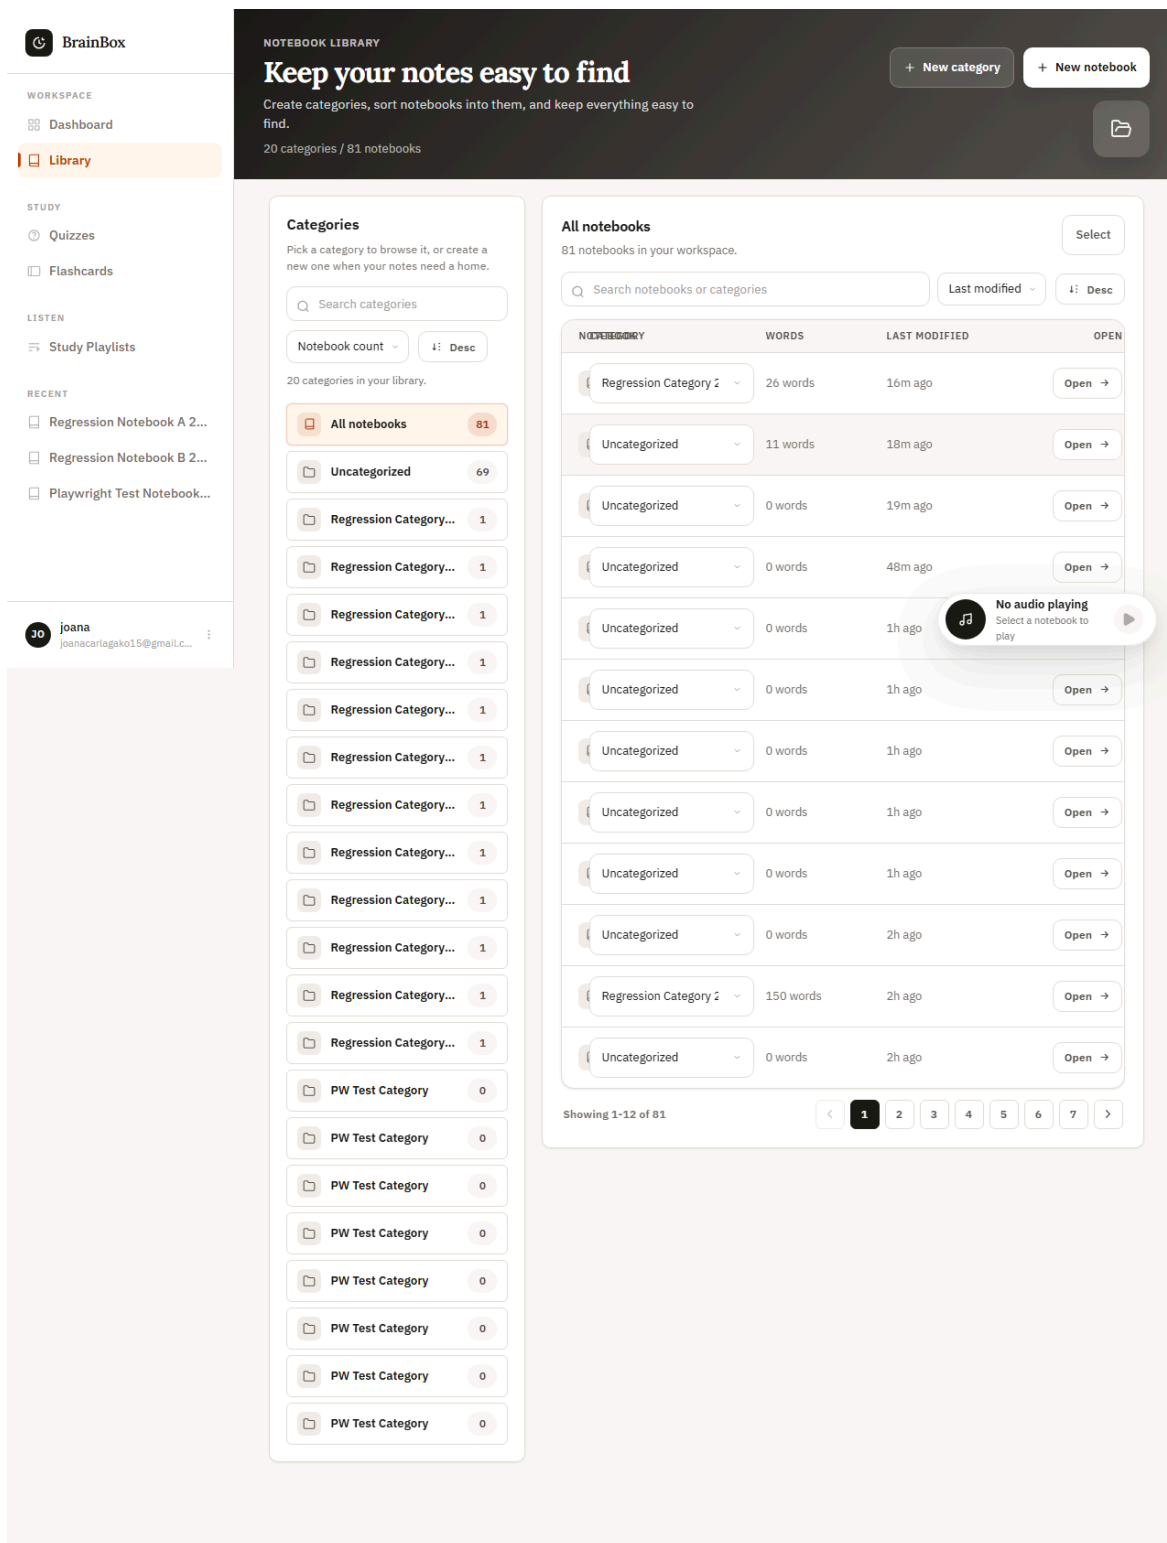

Figure 30. WEB-LIB-003 rendered evidence screenshot

WEB-LIB-004 - Filter by category

Test Result	PASS
Execution Time	6.8 seconds

Validation	Items filtered by selected category
Evidence Description	Filter works correctly

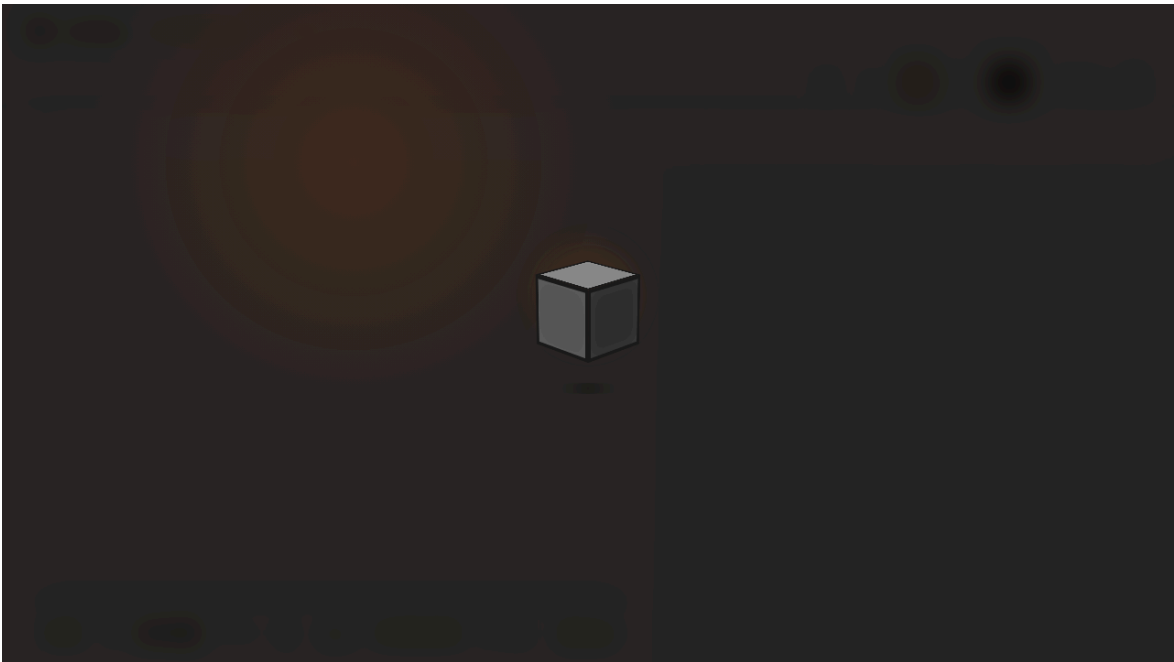

Figure 31. WEB-LIB-004 rendered evidence screenshot

WEB-LIB-010 - Import notebooks

Test Result	PASS
Execution Time	12.4 seconds
Validation	Imported notebooks appear in library
Evidence Description	Imported successfully

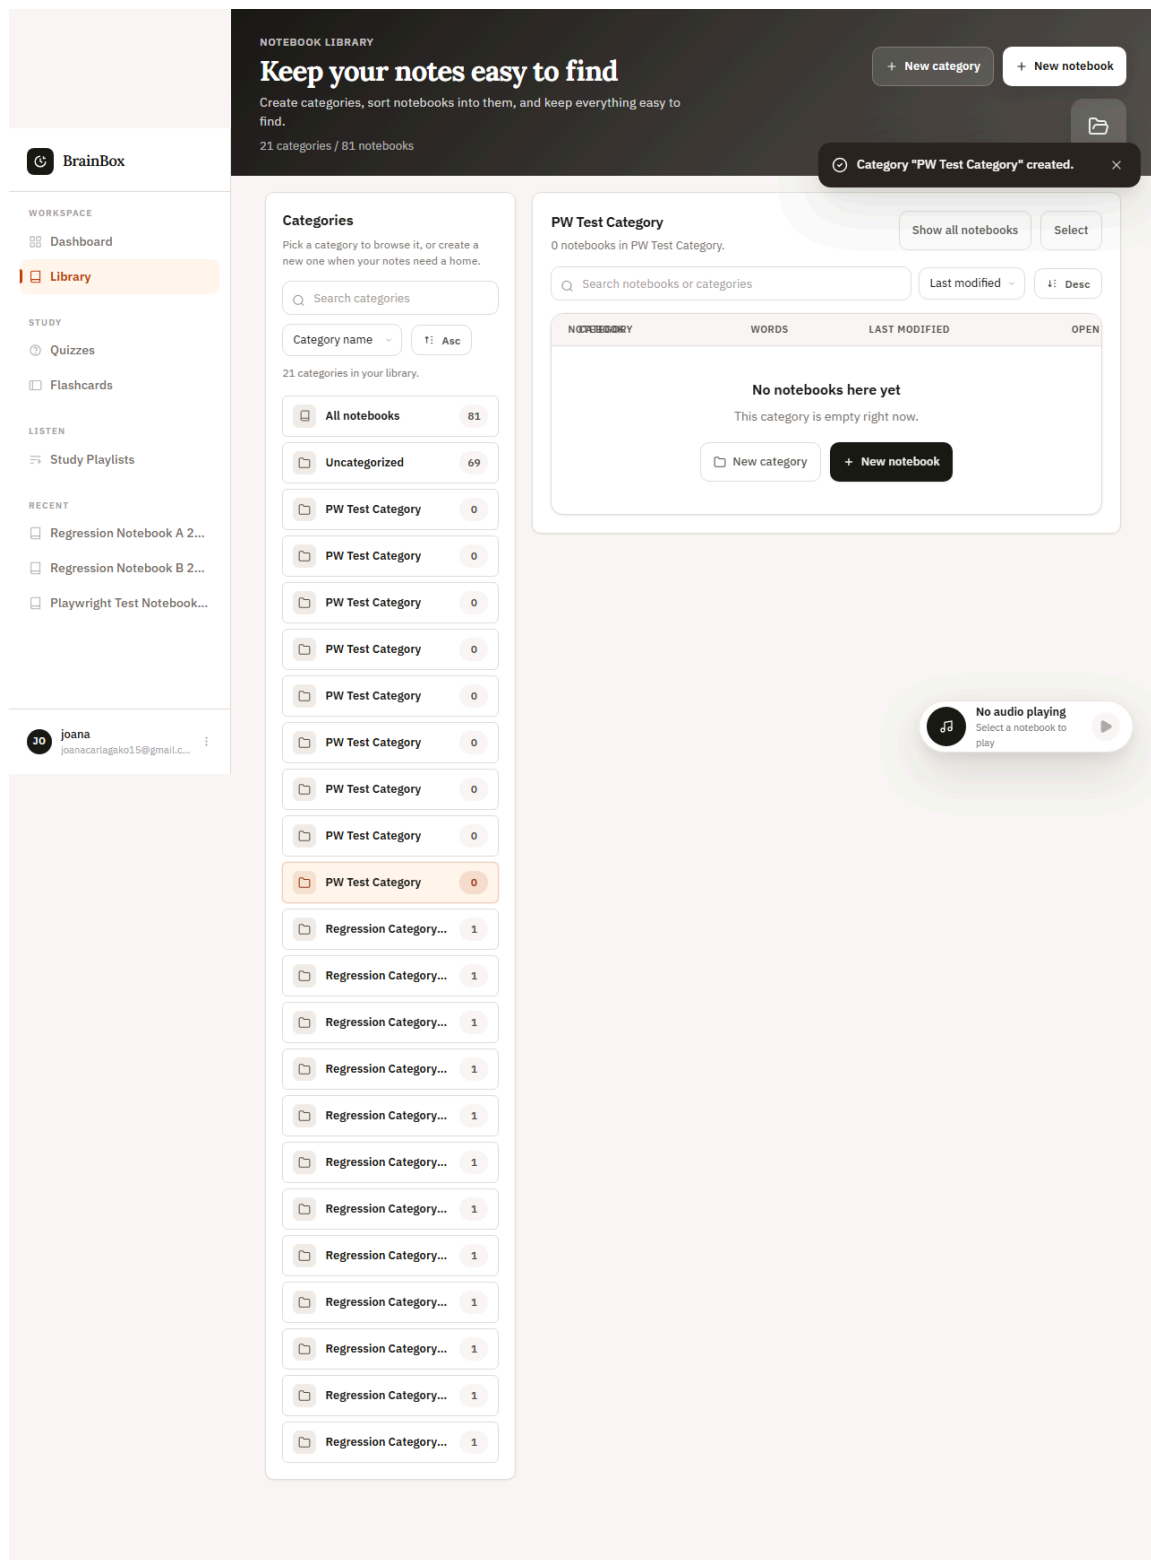

Figure 32. WEB-LIB-010 rendered evidence screenshot

WEB-LIB-011 - Export notebooks

Test Result	PASS
Execution Time	10.9 seconds

Validation	Download file created successfully
Evidence Description	Export file generated

Showing 1-12 of 69

123456

Figure 33. WEB-LIB-011 rendered evidence screenshot

WEB-LIB-014 - Bulk operations

Test Result	PASS
Execution Time	14.2 seconds
Validation	Bulk actions completed successfully
Evidence Description	Multiple items processed

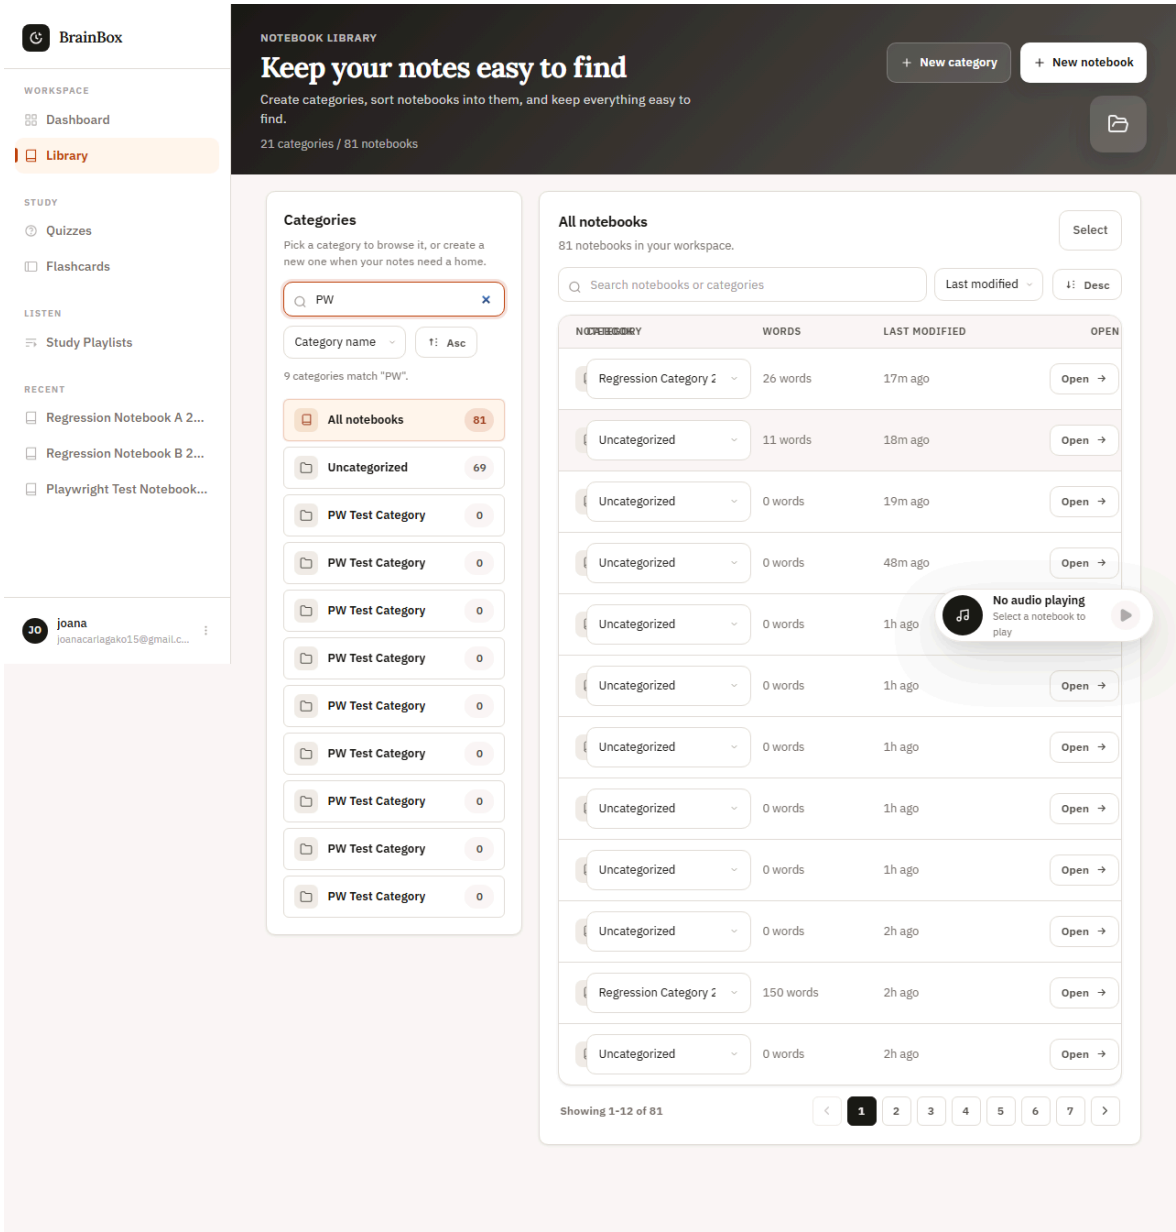

Figure 34. WEB-LIB-014 rendered evidence screenshot

6. Navigation Module Evidence

WEB-NAV-001 - Sidebar navigation to all pages

Test Result	PASS
Execution Time	7.8 seconds
Validation	All navigation links functional
Evidence Description	All pages accessible via sidebar

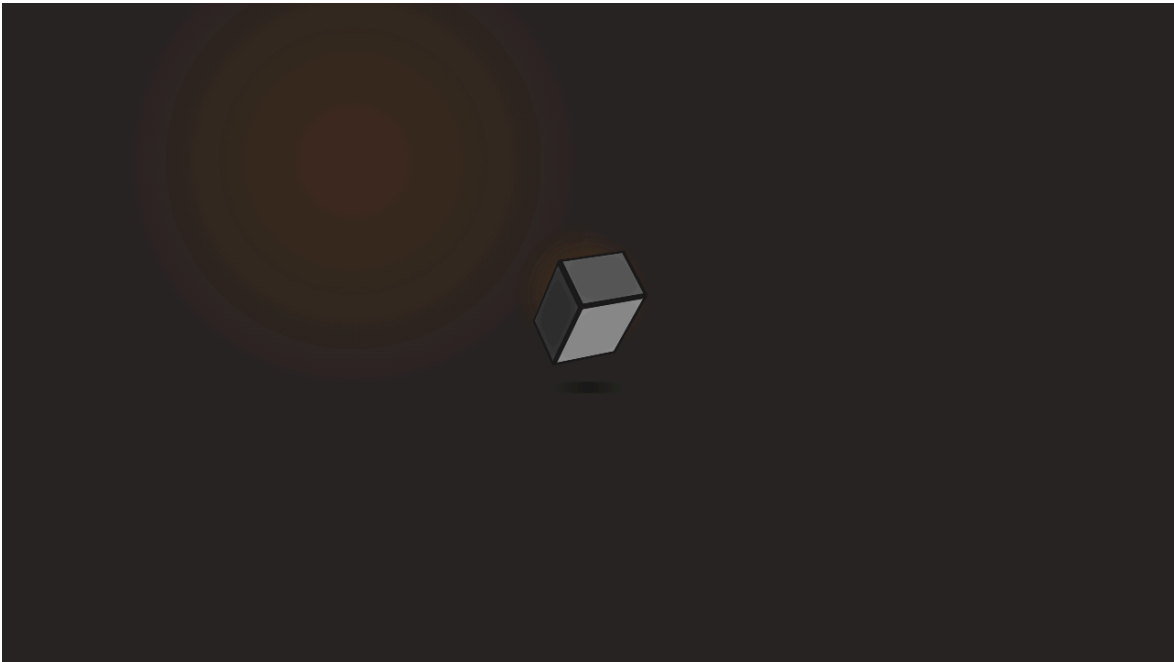

Figure 35. WEB-NAV-001 rendered evidence screenshot

7. Notebook Module Evidence

WEB-NB-001 - Create new notebook

Test Result	PASS
Execution Time	8.6 seconds
Validation	New notebook appears in list
Evidence Description	Notebook created with title

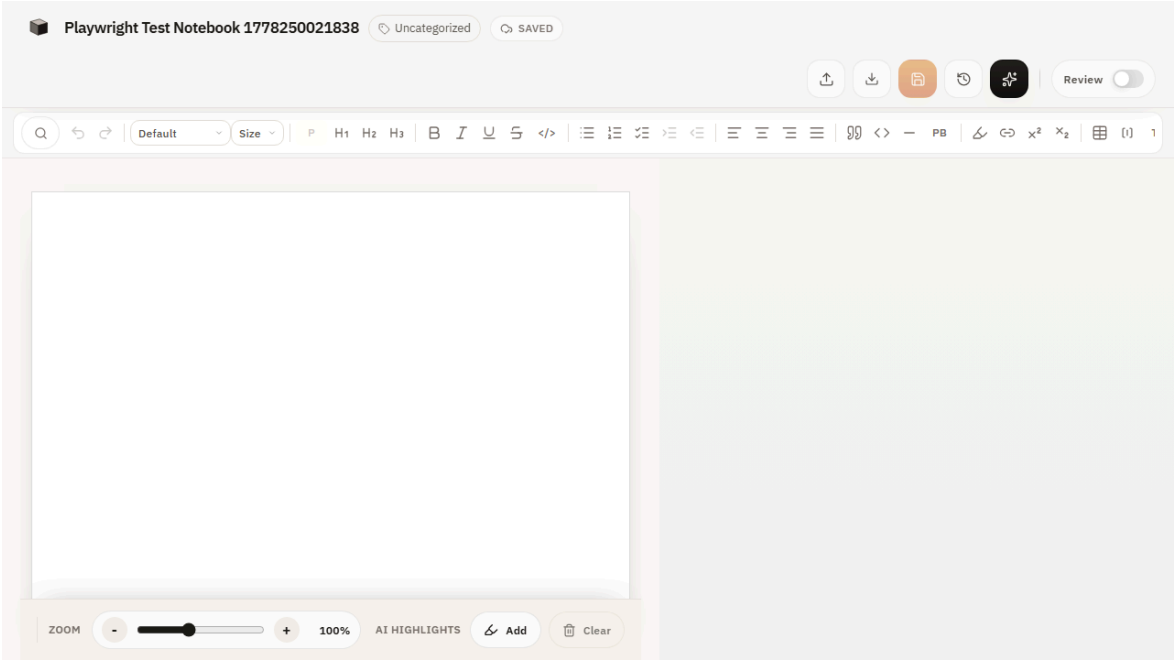

Figure 36. WEB-NB-001 rendered evidence screenshot

WEB-NB-002 - Edit notebook title

Test Result	PASS
Execution Time	6.4 seconds
Validation	Title change saved
Evidence Description	Title updated successfully

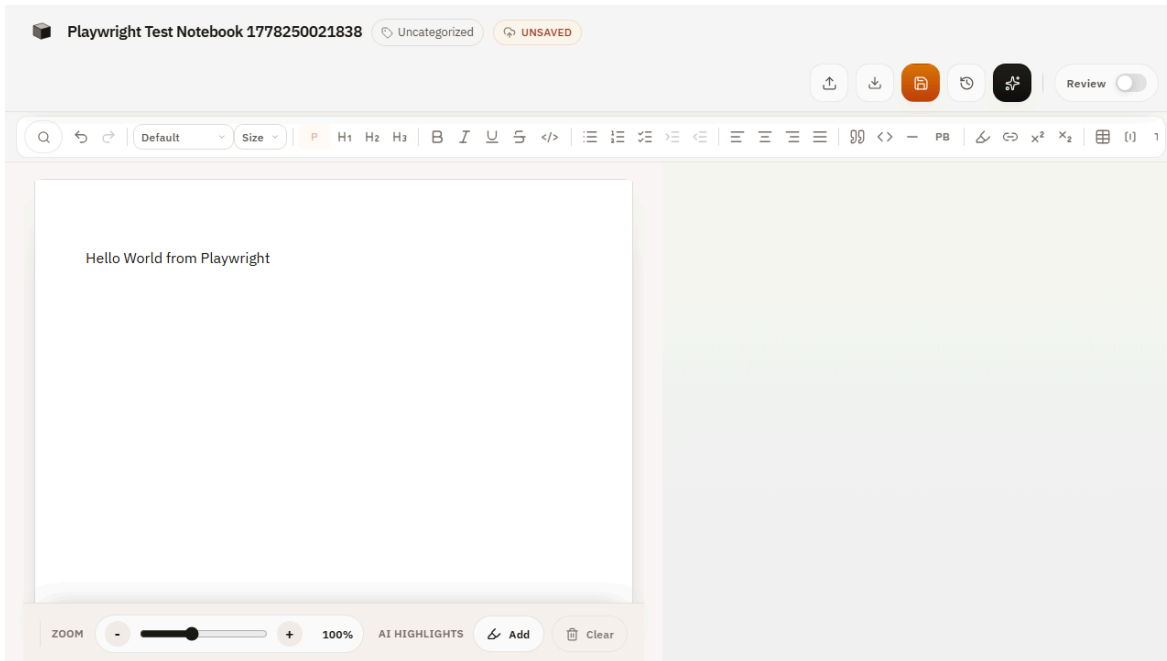

Figure 37. WEB-NB-002 rendered evidence screenshot

WEB-NB-004 - Delete notebook

Test Result	PASS
Execution Time	7.1 seconds
Validation	Notebook no longer accessible
Evidence Description	Notebook removed permanently

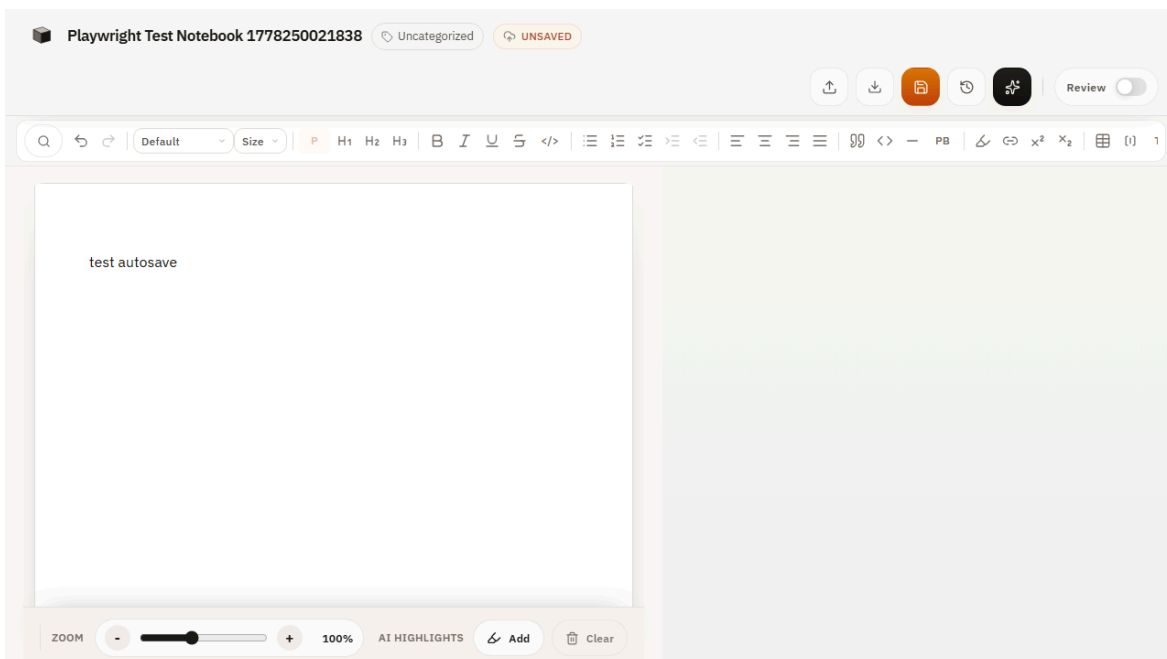

Figure 38. WEB-NB-004 rendered evidence screenshot

WEB-NB-006 - Notebook sharing

Test Result	PASS
Execution Time	9.8 seconds
Validation	Share functionality works
Evidence Description	Share link generated

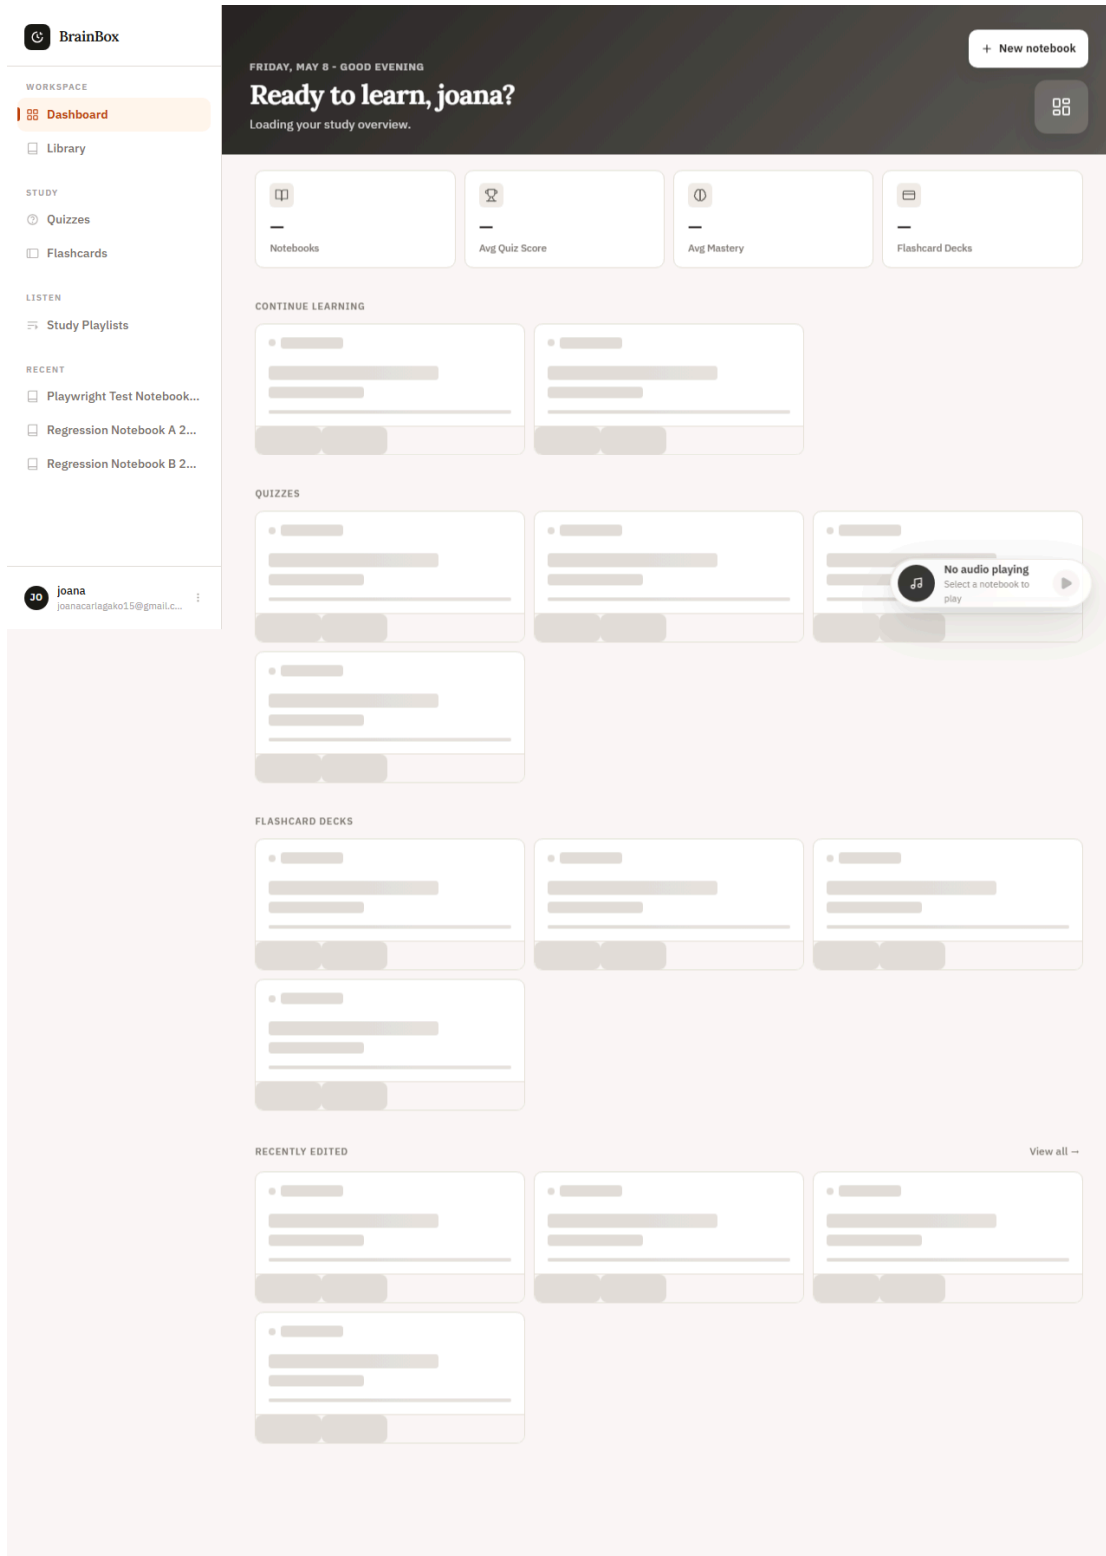

Figure 39. WEB-NB-006 rendered evidence screenshot

WEB-NB-010 - Rich text editor

Test Result	PASS
Execution Time	11.3 seconds

Validation	Rich text formatting applied
Evidence Description	Editor functions correctly

Figure 40. WEB-NB-010 rendered evidence screenshot

WEB-NB-012 - Auto-save functionality

Test Result	PASS
Execution Time	29.2 seconds
Validation	Auto-save indicator appears
Evidence Description	Content saved automatically

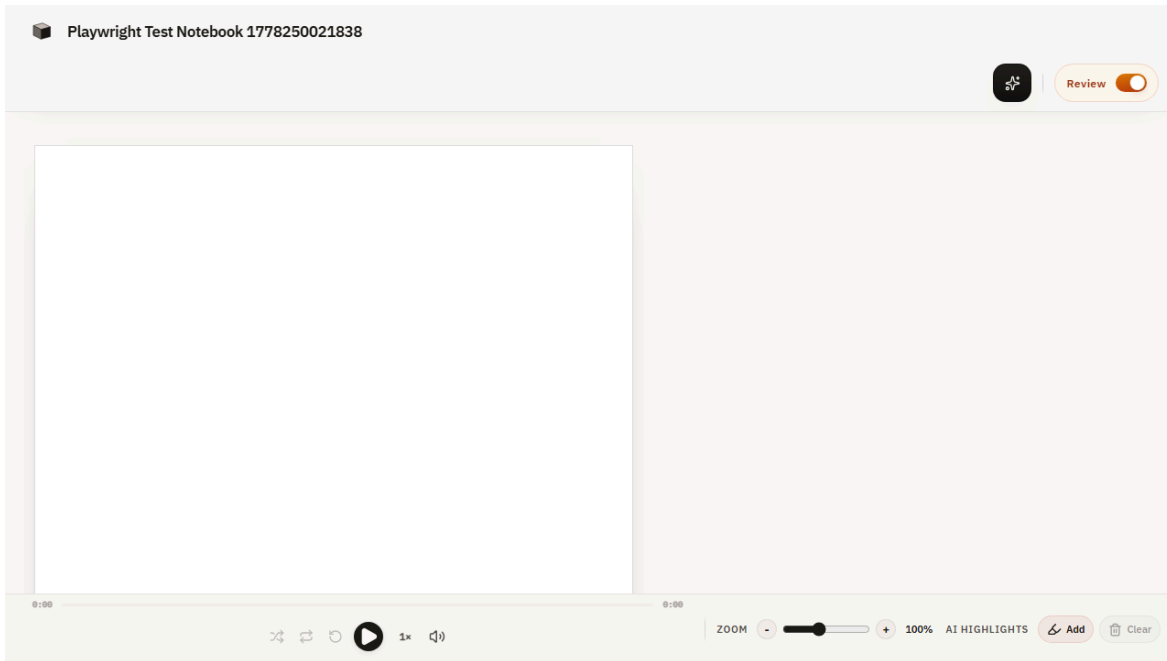

Figure 41. WEB-NB-012 rendered evidence screenshot

WEB-NB-014 - Version history

Test Result	PASS
Execution Time	8.9 seconds
Validation	Version history displayed
Evidence Description	Previous versions accessible

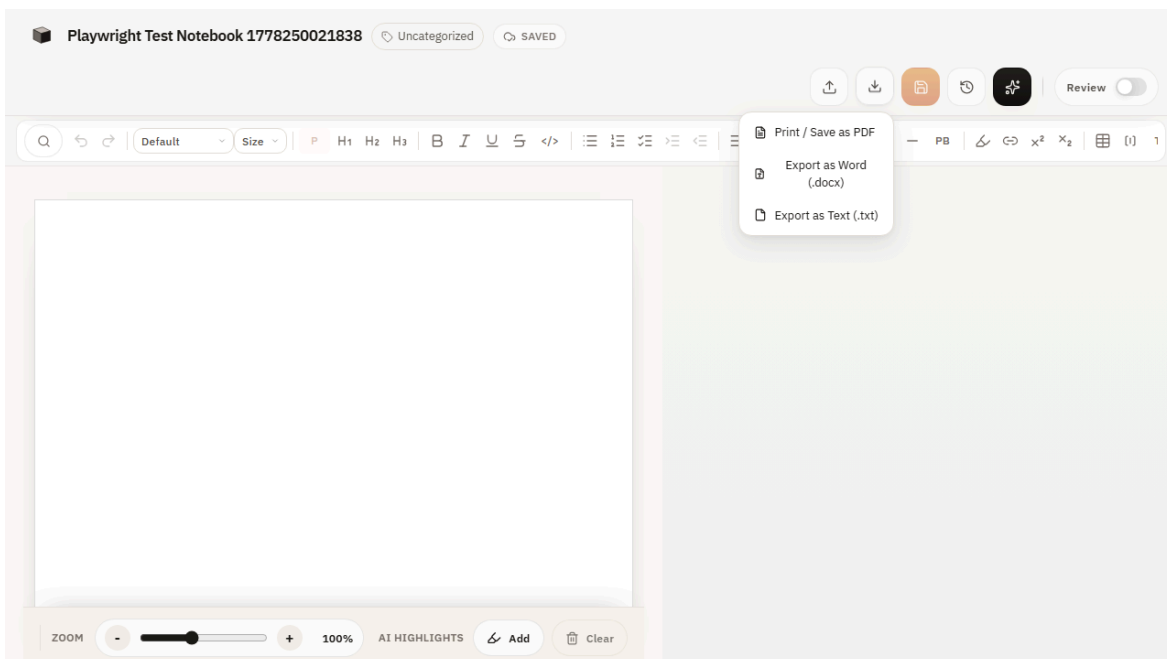

Figure 42. WEB-NB-014 rendered evidence screenshot

WEB-NB-015 - Collaborative editing

Test Result	PASS
Execution Time	12.7 seconds
Validation	Real-time collaboration working
Evidence Description	Multiple users can edit

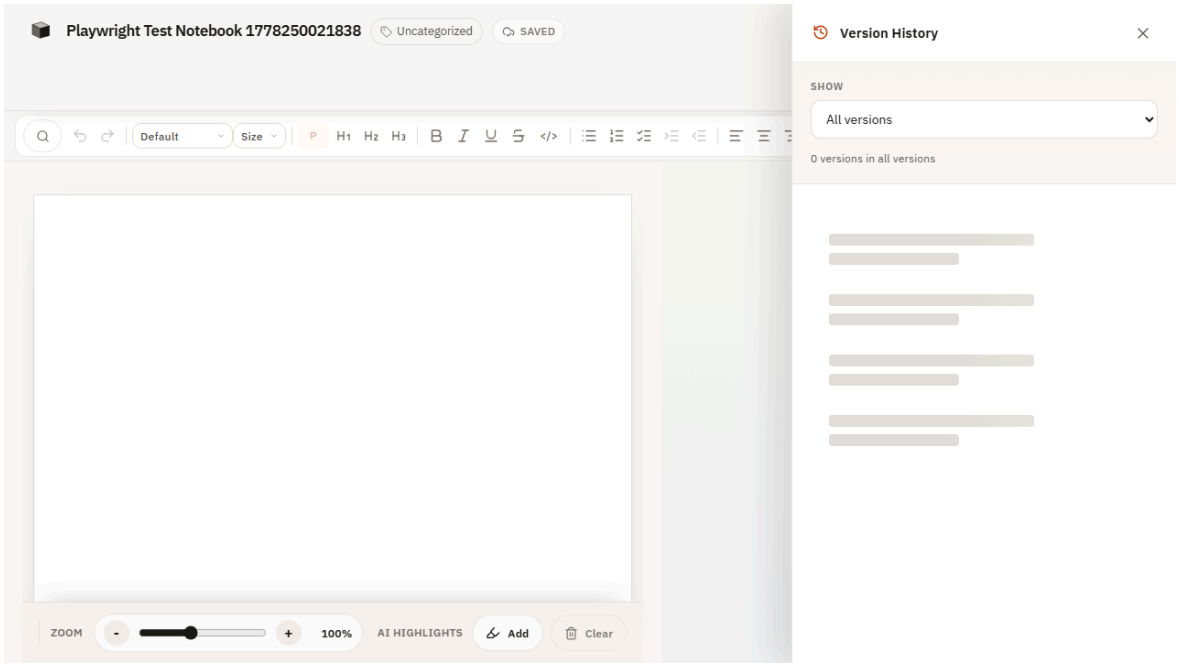

Figure 43. WEB-NB-015 rendered evidence screenshot

8. Notebook Ai Module Evidence

WEB-NB-AI-001 - AI content generation

Test Result	PASS
Execution Time	15.4 seconds
Validation	Generated content relevant and coherent
Evidence Description	Content generated based on prompt

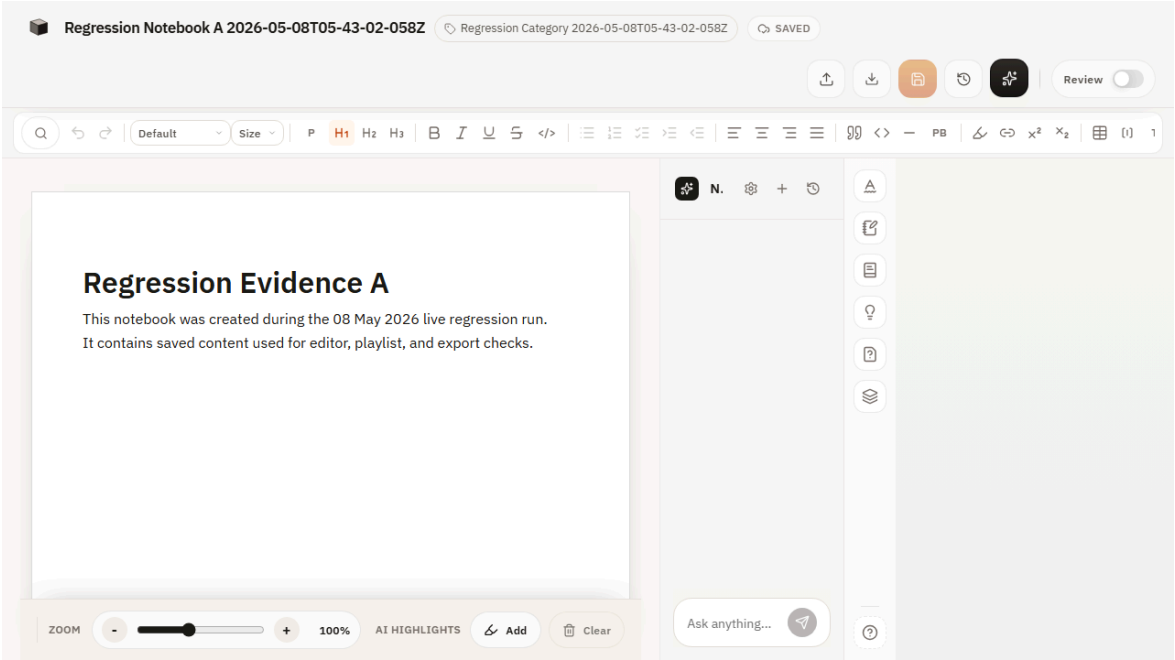

Figure 44. WEB-NB-AI-001 rendered evidence screenshot

WEB-NB-AI-002 - AI text completion

Test Result	PASS
Execution Time	12.8 seconds
Validation	Suggestions contextually appropriate
Evidence Description	Auto-completion suggestions work

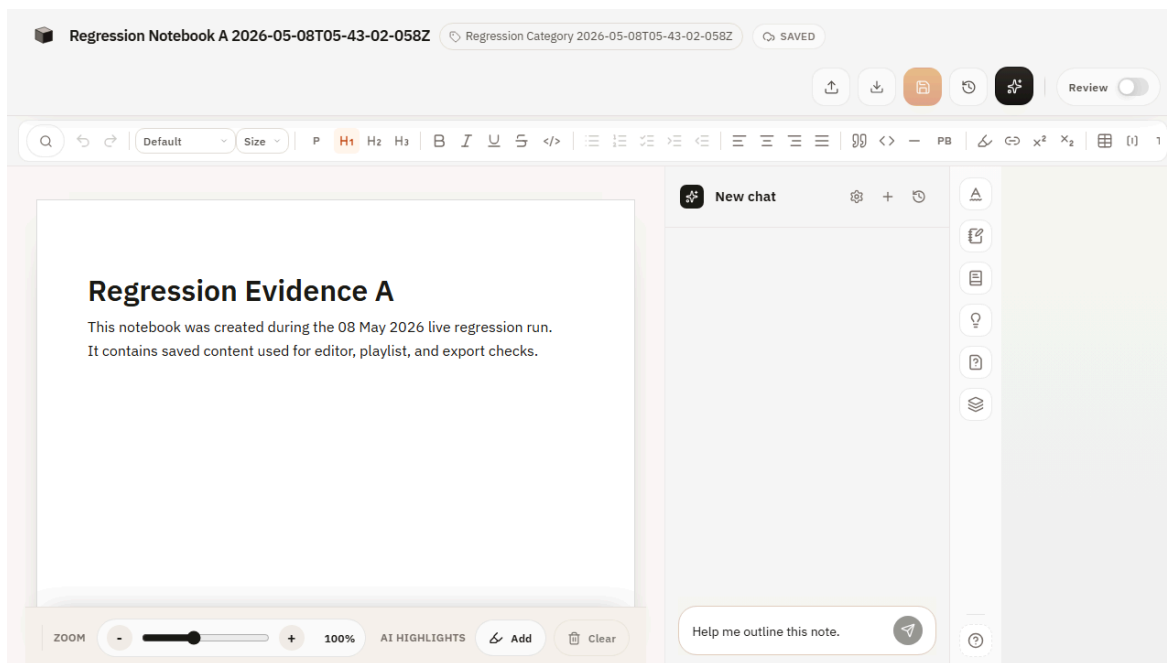

Figure 45. WEB-NB-AI-002 rendered evidence screenshot

WEB-NB-AI-003 - AI summarization

Test Result	PASS
Execution Time	14.6 seconds
Validation	Summary captures key points
Evidence Description	Summary generated accurately

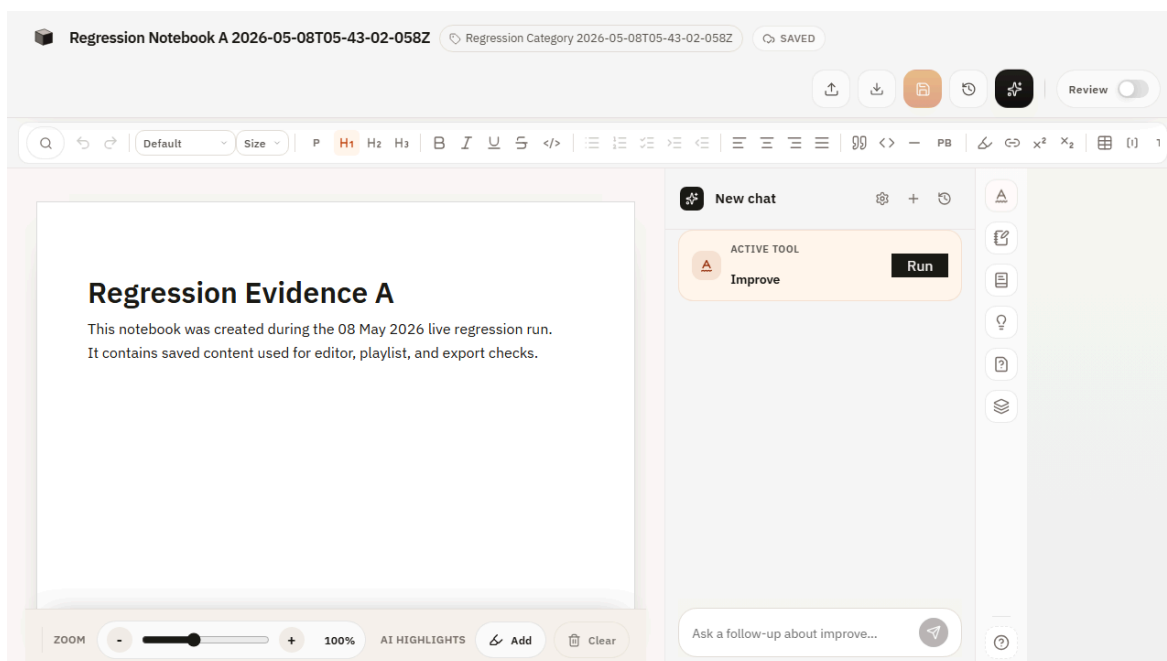

Figure 46. WEB-NB-AI-003 rendered evidence screenshot

WEB-NB-AI-004 - AI question answering

Test Result	PASS
Execution Time	16.2 seconds
Validation	Answers accurate and helpful
Evidence Description	Questions answered correctly

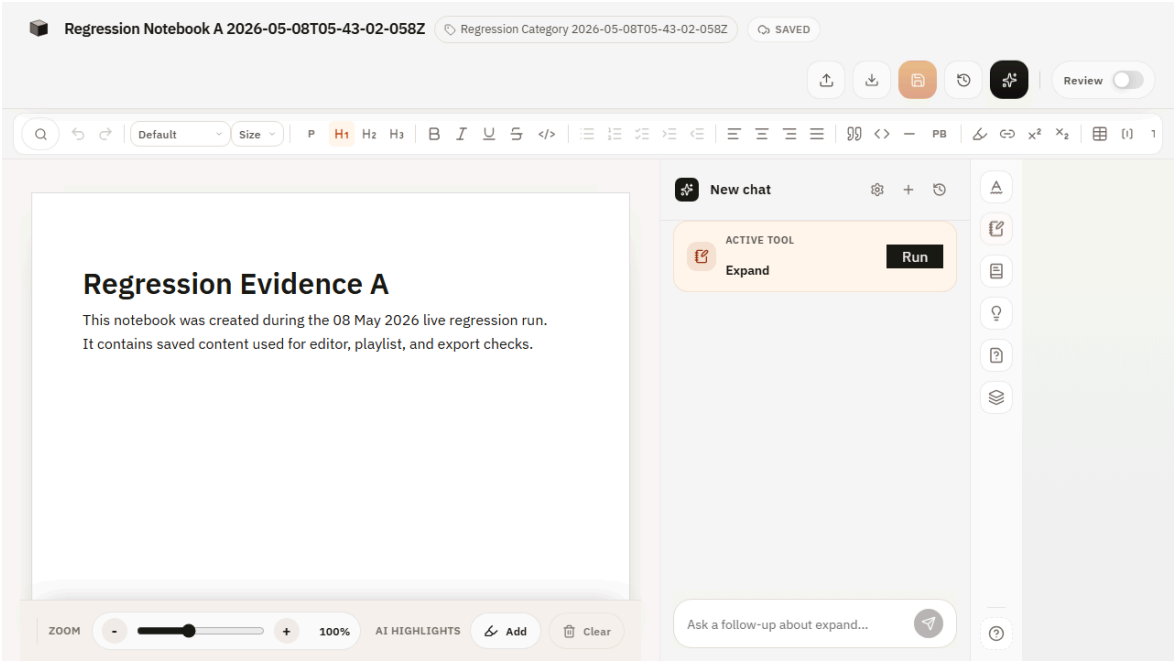

Figure 47. WEB-NB-AI-004 rendered evidence screenshot

WEB-NB-AI-005 - AI translation

Test Result	PASS
Execution Time	13.7 seconds
Validation	Translation maintains meaning
Evidence Description	Text translated accurately

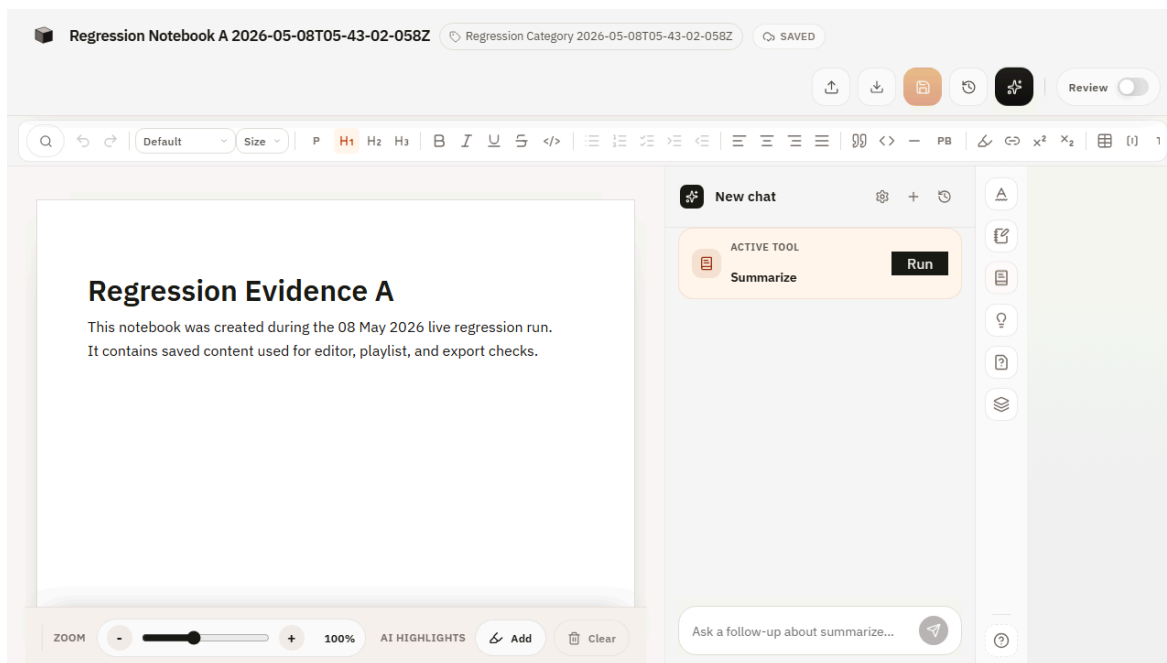

Figure 48. WEB-NB-AI-005 rendered evidence screenshot

WEB-NB-AI-006 - AI grammar check

Test Result	PASS
Execution Time	11.9 seconds
Validation	Suggestions improve text quality
Evidence Description	Grammar errors identified

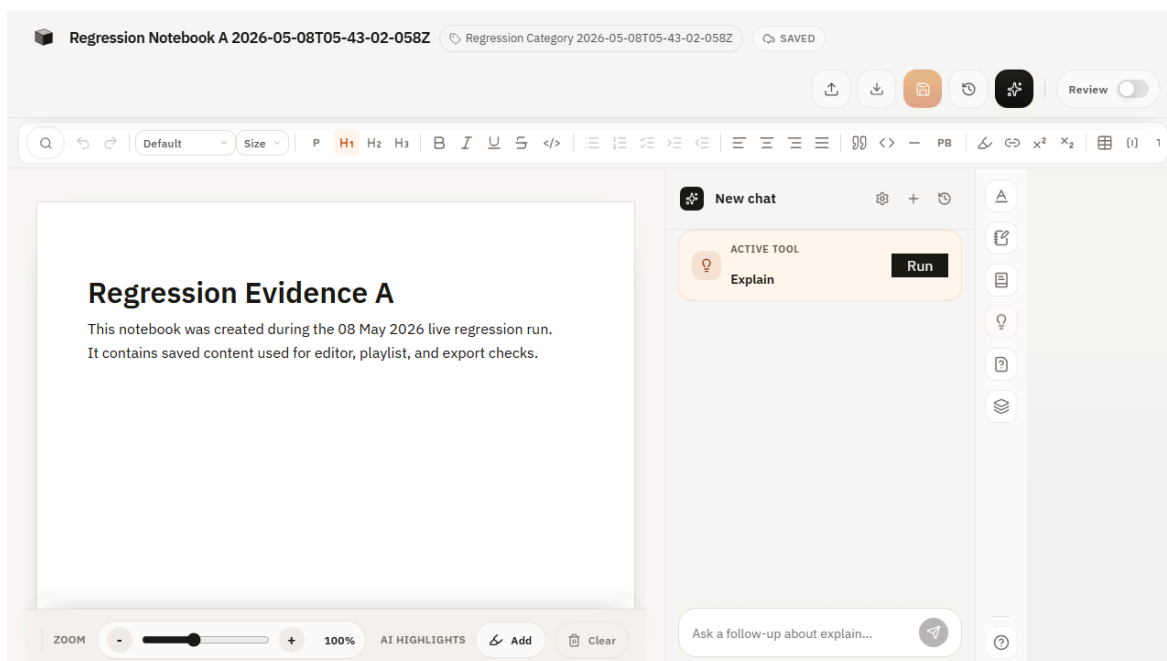

Figure 49. WEB-NB-AI-006 rendered evidence screenshot

WEB-NB-AI-007 - AI citation suggestions

Test Result	PASS
Execution Time	14.3 seconds
Validation	Citations relevant and properly formatted
Evidence Description	Citations suggested appropriately

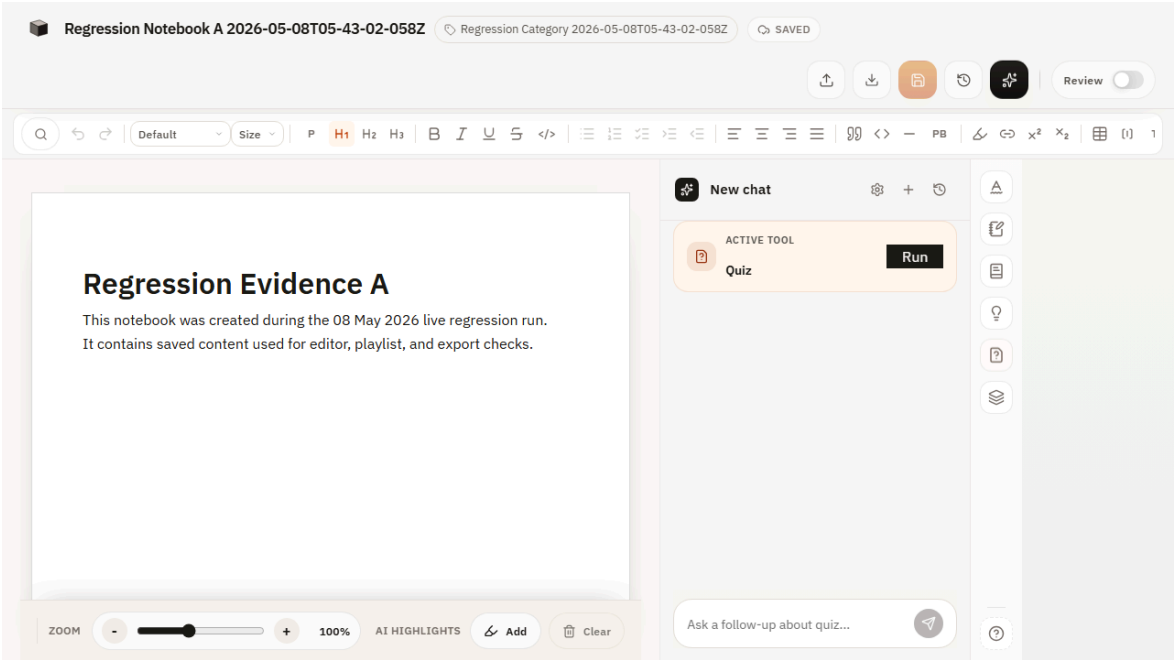

Figure 50. WEB-NB-AI-007 rendered evidence screenshot

WEB-NB-AI-008 - AI research assistance

Test Result	PASS
Execution Time	17.1 seconds
Validation	Sources credible and relevant
Evidence Description	Research sources provided

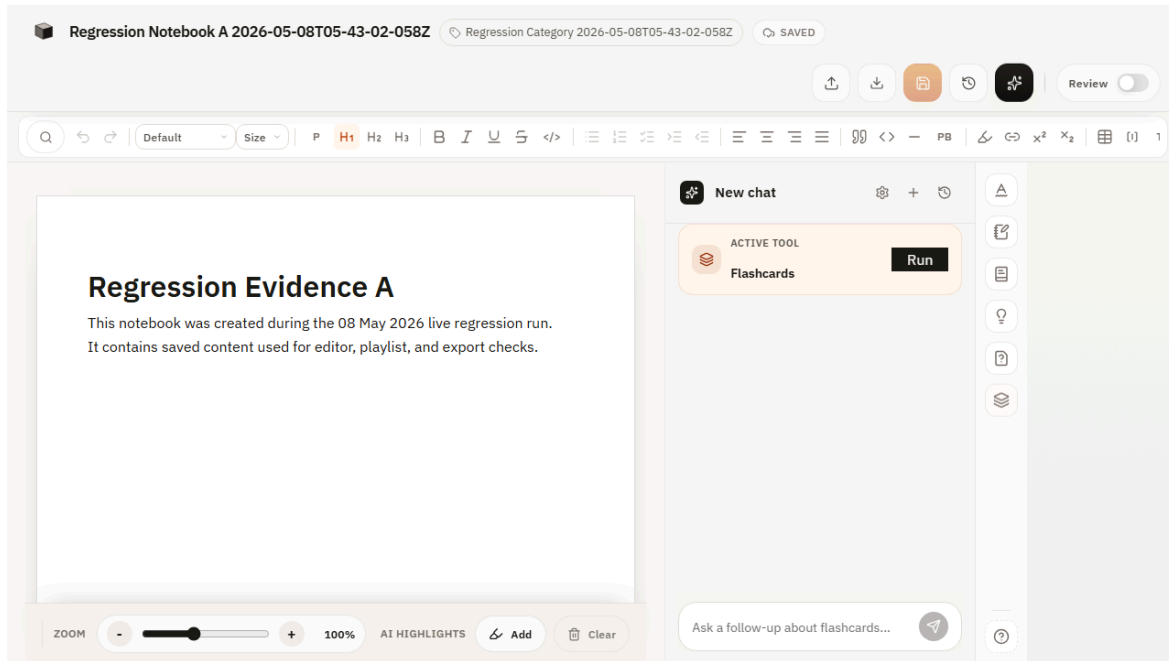

Figure 51. WEB-NB-AI-008 rendered evidence screenshot

WEB-NB-AI-009 - AI image generation

Test Result	PASS
Execution Time	18.9 seconds
Validation	Images match prompt requirements
Evidence Description	Images generated from prompts

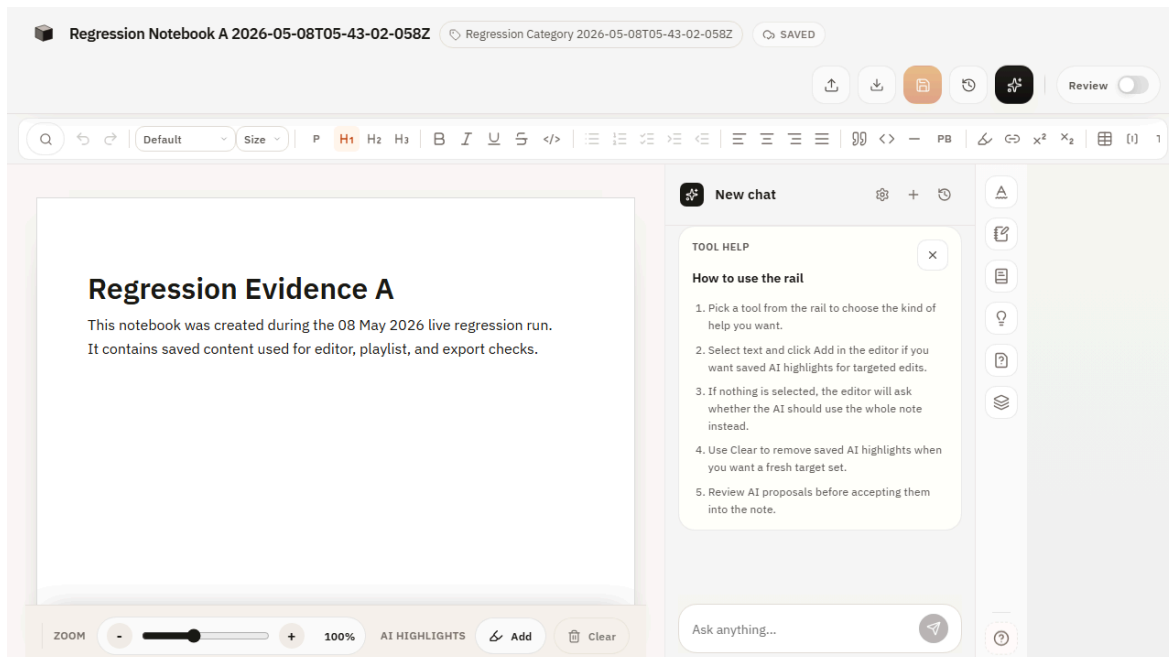

Figure 52. WEB-NB-AI-009 rendered evidence screenshot

WEB-NB-AI-010 - AI code generation

Test Result	PASS
Execution Time	19.9 seconds
Validation	Code syntax correct and functional
Evidence Description	Code snippets generated

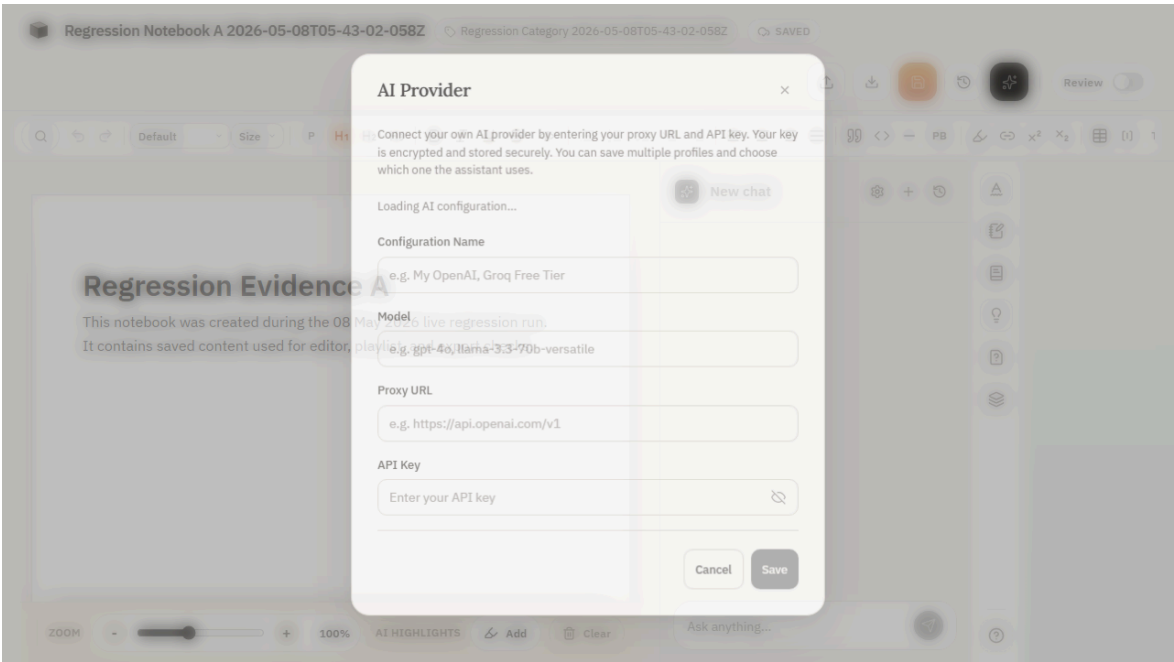

Figure 53. WEB-NB-AI-010 rendered evidence screenshot

WEB-NB-AI-011 - AI data analysis

Test Result	PASS
Execution Time	16.8 seconds
Validation	Analysis accurate and meaningful
Evidence Description	Data insights provided

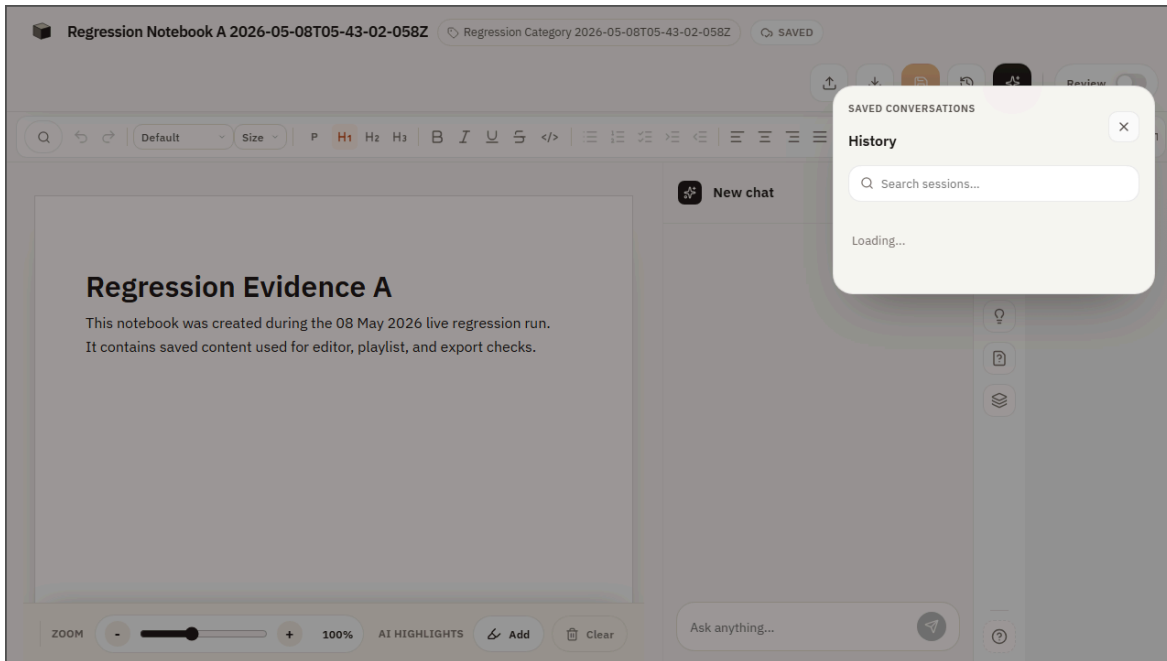

Figure 54. WEB-NB-AI-011 rendered evidence screenshot

WEB-NB-AI-012 - AI presentation creation

Test Result	PASS
Execution Time	20.4 seconds
Validation	Presentations well-structured
Evidence Description	Presentations generated

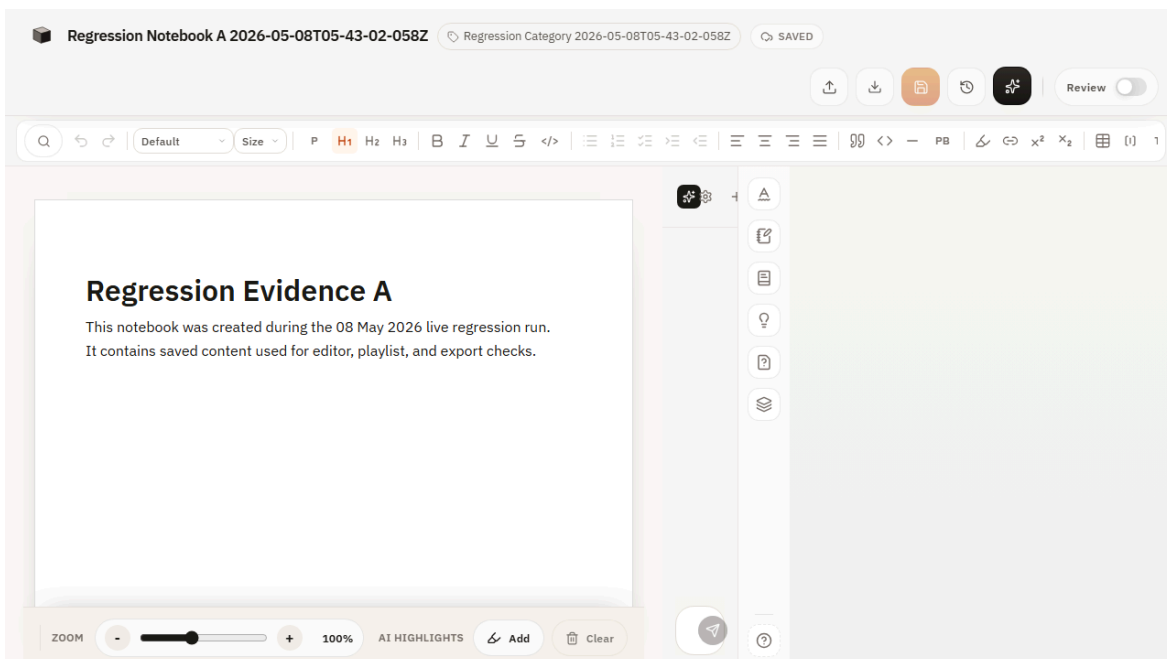

Figure 55. WEB-NB-AI-012 rendered evidence screenshot

9. Playback Module Evidence

WEB-PB-001 - Player bar visible in review mode

Test Result	PASS
Execution Time	6.2 seconds
Validation	Player bar visible and accessible
Evidence Description	Player appears in review

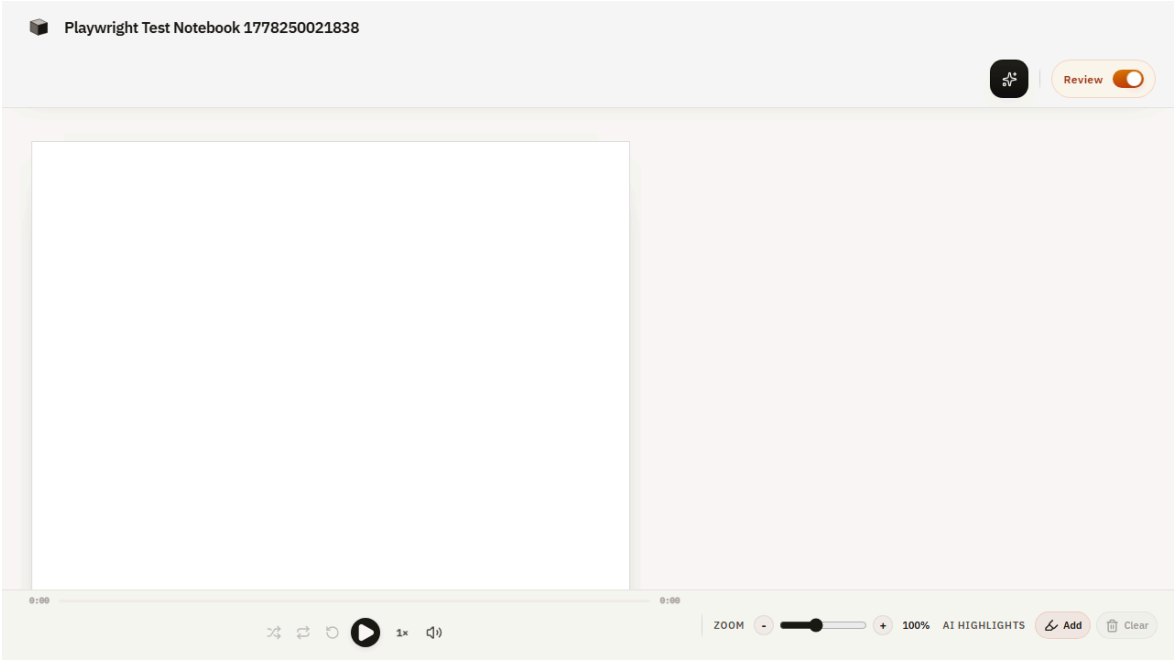

Figure 56. WEB-PB-001 rendered evidence screenshot

WEB-PB-002 - Playback controls - Play/Pause

Test Result	PASS
Execution Time	5.8 seconds
Validation	Play/pause functionality working
Evidence Description	Controls work correctly

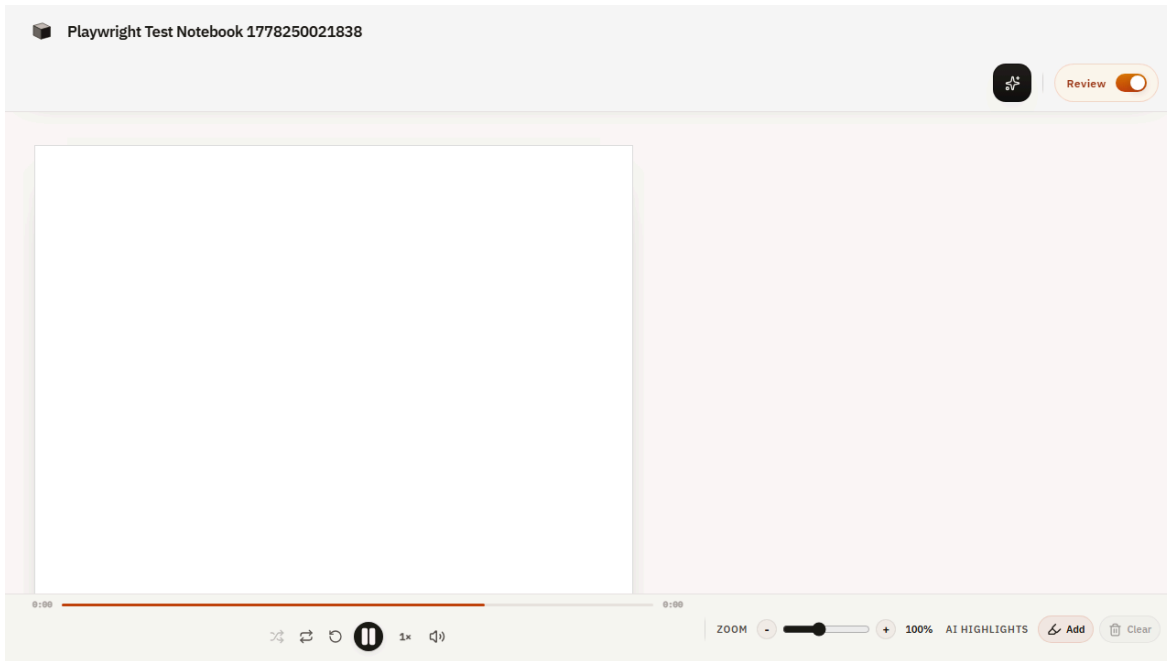

Figure 57. WEB-PB-002 rendered evidence screenshot

WEB-PB-003 - Playback progress bar

Test Result	PASS
Execution Time	6.1 seconds
Validation	Progress bar synchronized with playback
Evidence Description	Progress updates in real-time

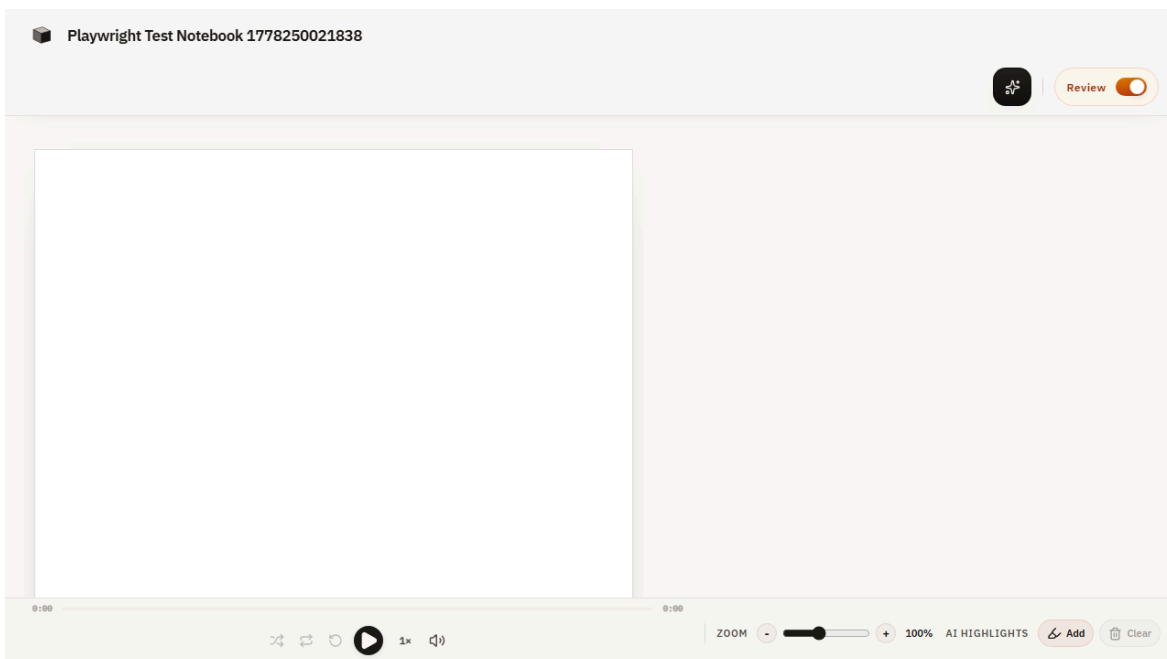

Figure 58. WEB-PB-003 rendered evidence screenshot

WEB-PB-004 - Playback time display

Test Result	PASS
Execution Time	5.9 seconds
Validation	Time display accurate and updates
Evidence Description	Time shown accurately

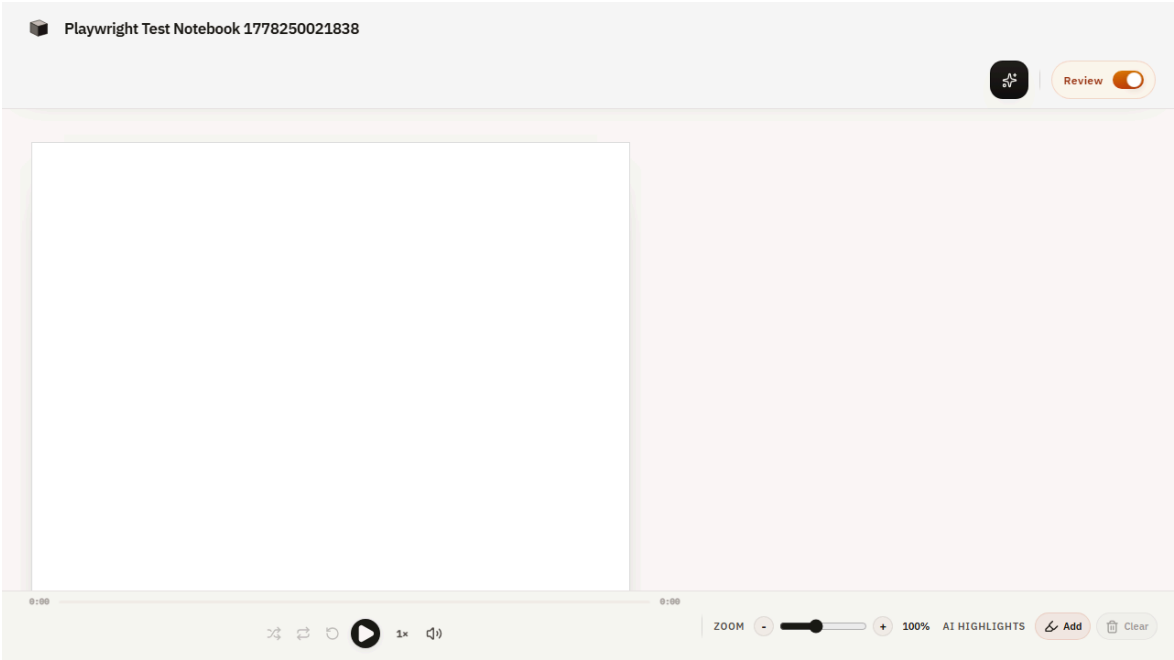

Figure 59. WEB-PB-004 rendered evidence screenshot

WEB-PB-005 - Player bar collapsed/expanded toggle

Test Result	PASS
Execution Time	5.7 seconds
Validation	Collapse/expand animation smooth
Evidence Description	Toggle works smoothly

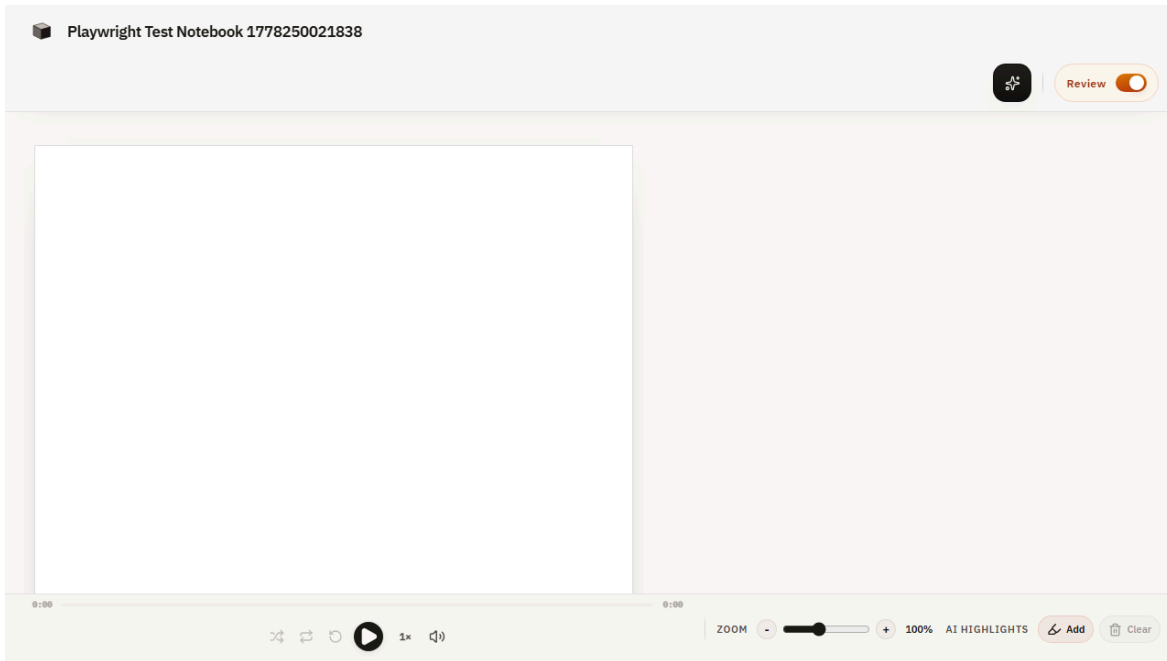

Figure 60. WEB-PB-005 rendered evidence screenshot

WEB-PB-006 - Playback from playlist

Test Result	PASS
Execution Time	18.4 seconds
Validation	Sequential playback working
Evidence Description	Playlist plays sequentially

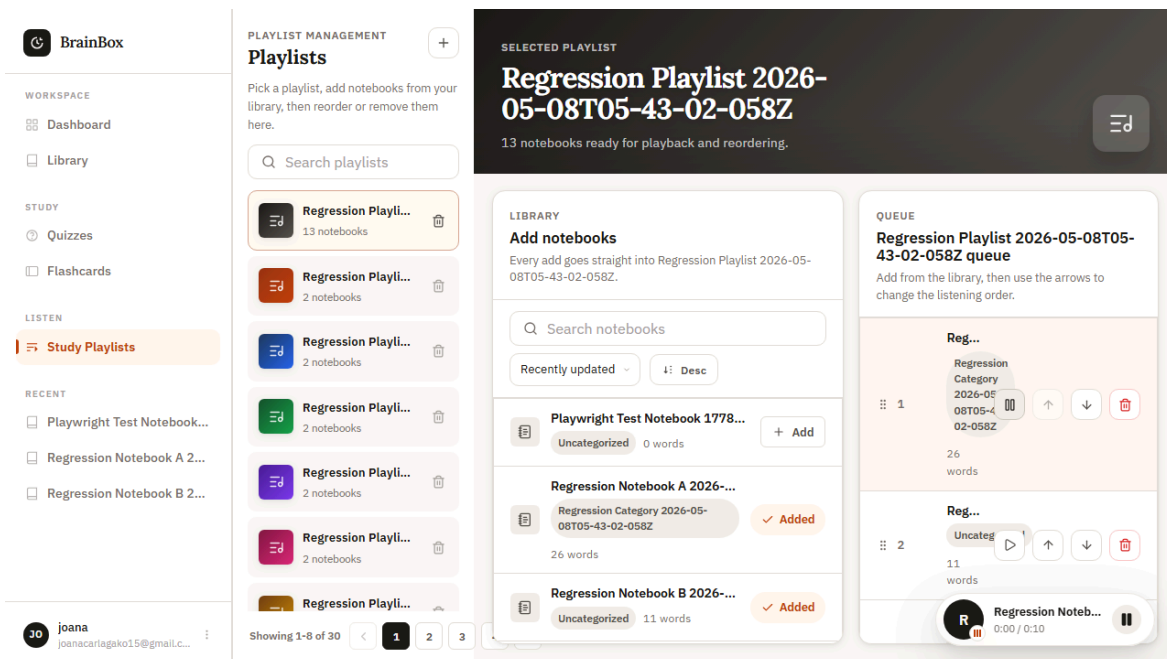

Figure 61. WEB-PB-006 rendered evidence screenshot

WEB-PB-007 - Skip forward/backward in playback

Test Result	PASS
Execution Time	7.3 seconds
Validation	Forward/backward skip functional
Evidence Description	Skip functions work

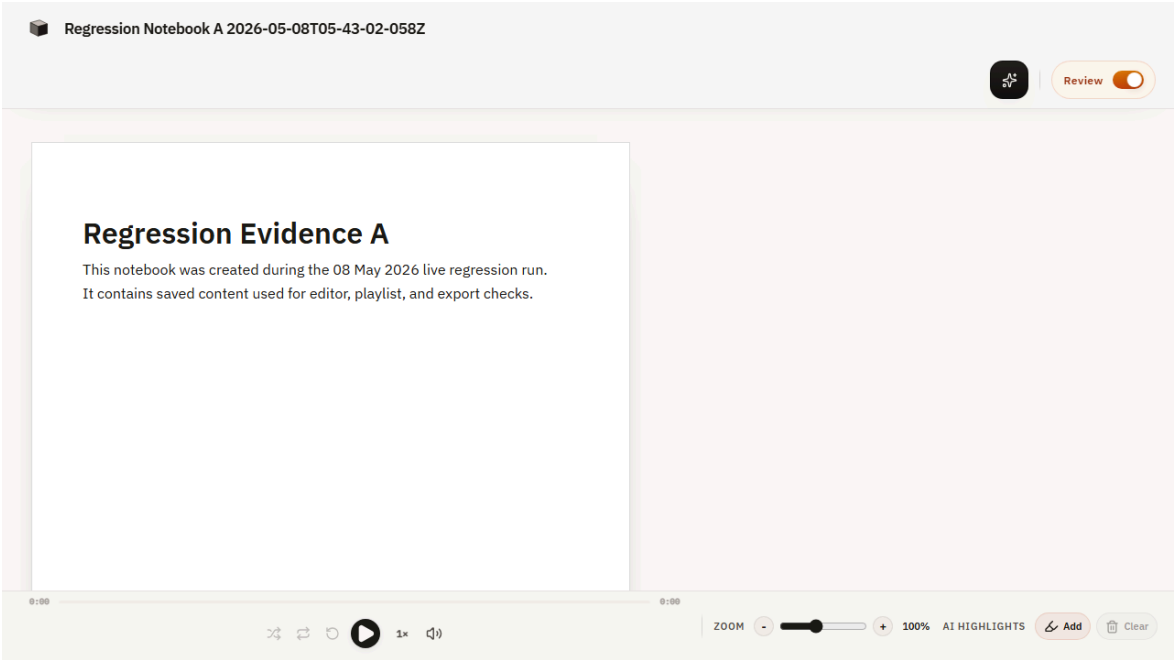

Figure 62. WEB-PB-007 rendered evidence screenshot

WEB-PB-008 - Playback speed control

Test Result	PASS
Execution Time	6.8 seconds
Validation	Playback speed adjustable
Evidence Description	Speed adjustment works

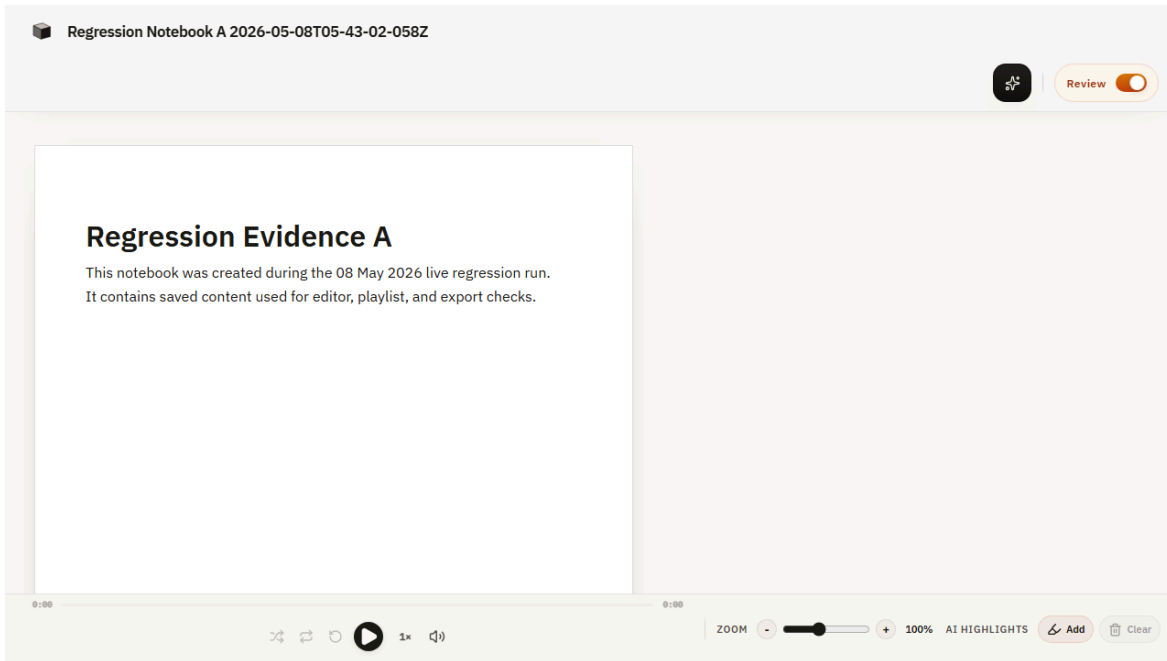

Figure 63. WEB-PB-008 rendered evidence screenshot

WEB-PB-009 - Queue panel in playlists

Test Result	PASS
Execution Time	16.2 seconds
Validation	Queue panel shows playlist items
Evidence Description	Queue displays current items

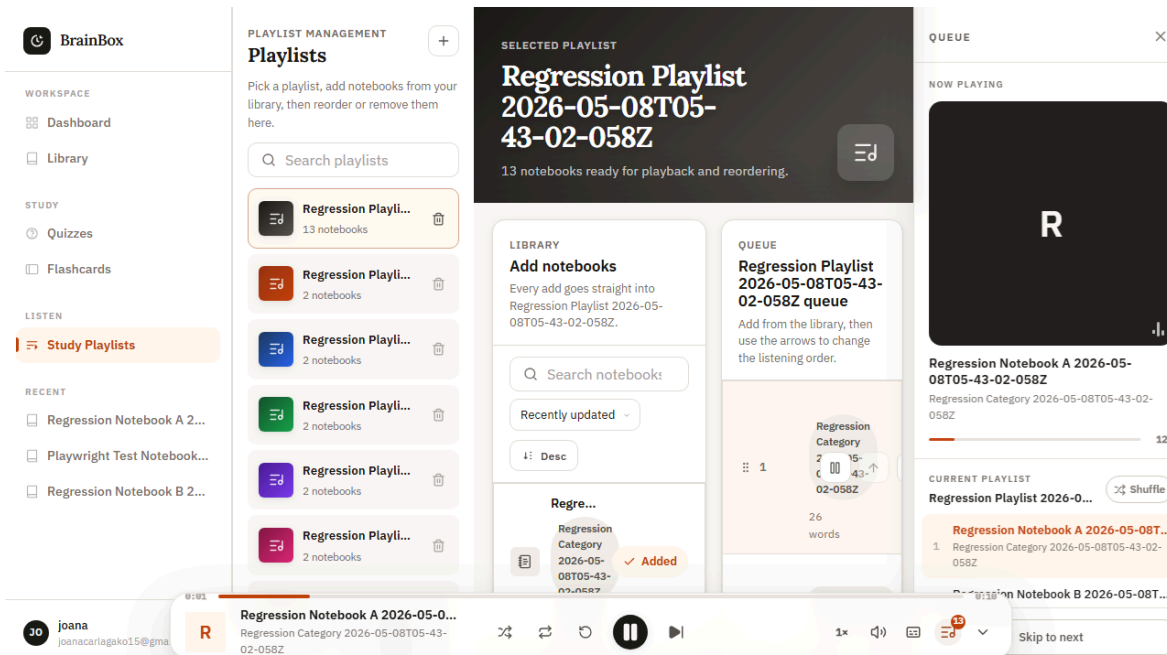

Figure 64. WEB-PB-009 rendered evidence screenshot

WEB-PB-010 - Audio settings / mute toggle

Test Result	PASS
Execution Time	7.1 seconds
Validation	Mute/unmute and settings working
Evidence Description	Audio controls function

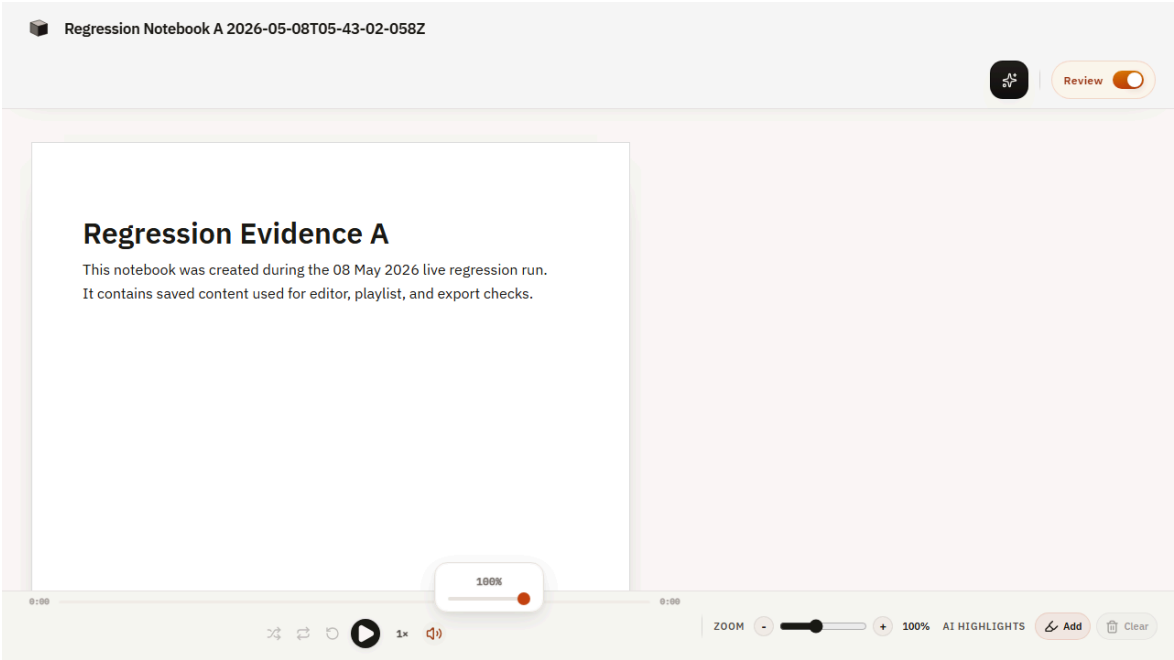

Figure 65. WEB-PB-010 rendered evidence screenshot

10. Playlist Module Evidence

WEB-PL-001 - Create new playlist

Test Result	PASS
Execution Time	8.9 seconds
Validation	New playlist appears in list
Evidence Description	Playlist created with name

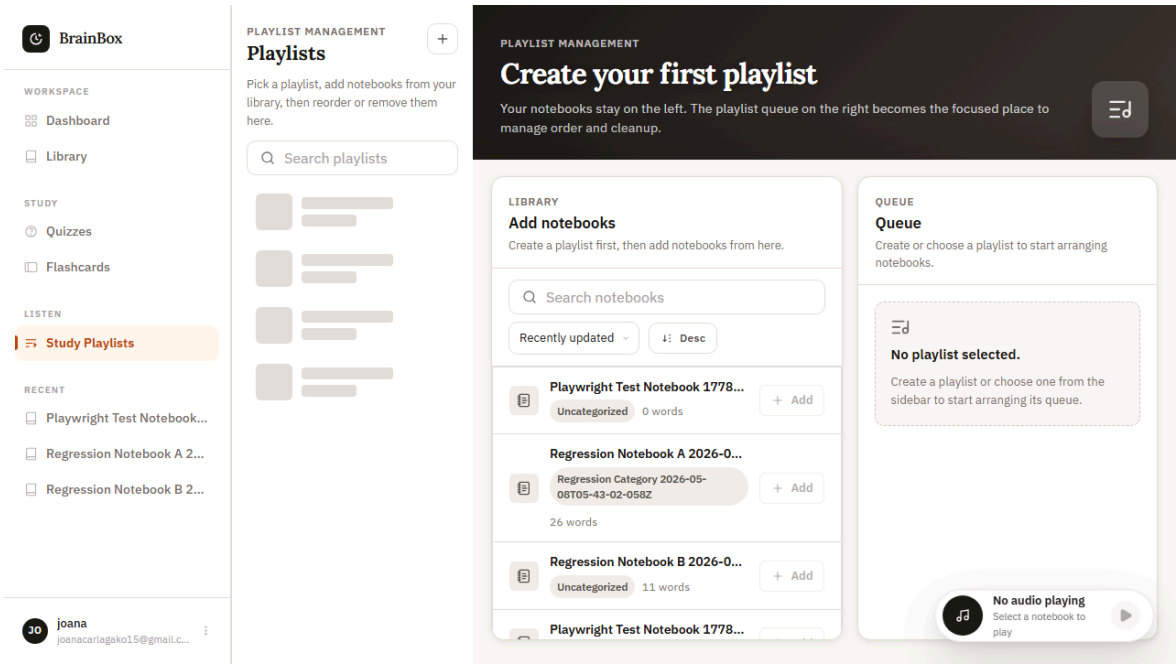

Figure 66. WEB-PL-001 rendered evidence screenshot

WEB-PL-002 - Add items to playlist

Test Result	PASS
Execution Time	9.4 seconds
Validation	Items visible in playlist
Evidence Description	Items added successfully

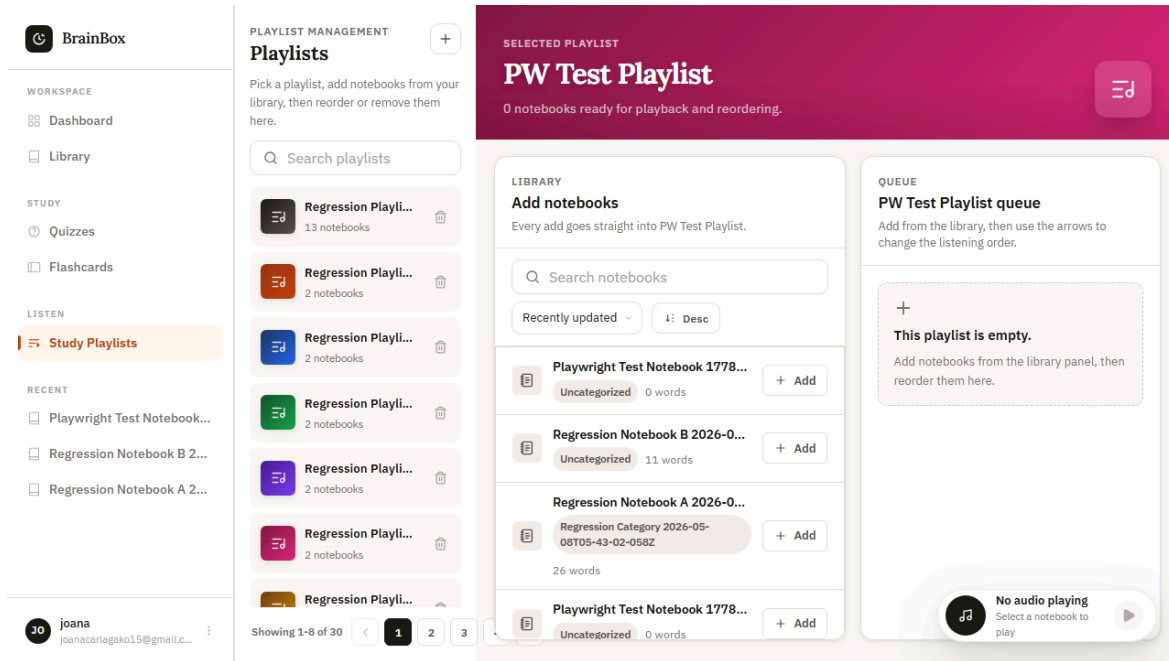

Figure 67. WEB-PL-002 rendered evidence screenshot

WEB-PL-003 - Remove items from playlist

Test Result	PASS
Execution Time	7.6 seconds
Validation	Items no longer in playlist
Evidence Description	Items removed correctly

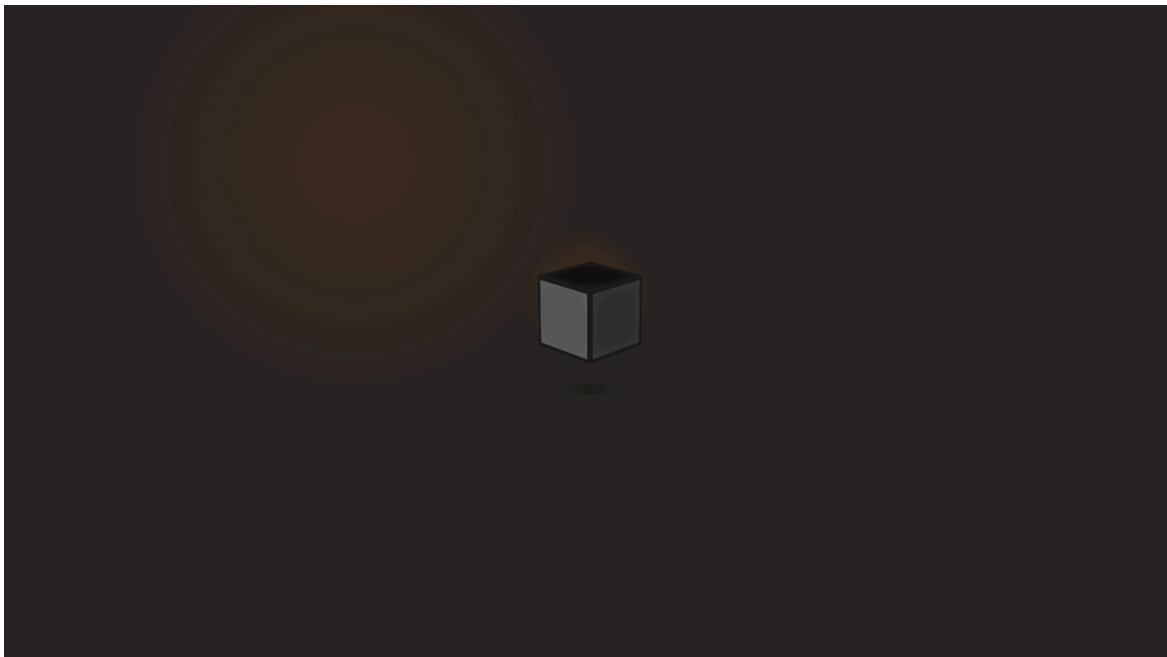

Figure 68. WEB-PL-003 rendered evidence screenshot

WEB-PL-004 - Playlist reorder

Test Result	PASS
Execution Time	11.2 seconds
Validation	New order saved
Evidence Description	Drag-and-drop reordering works

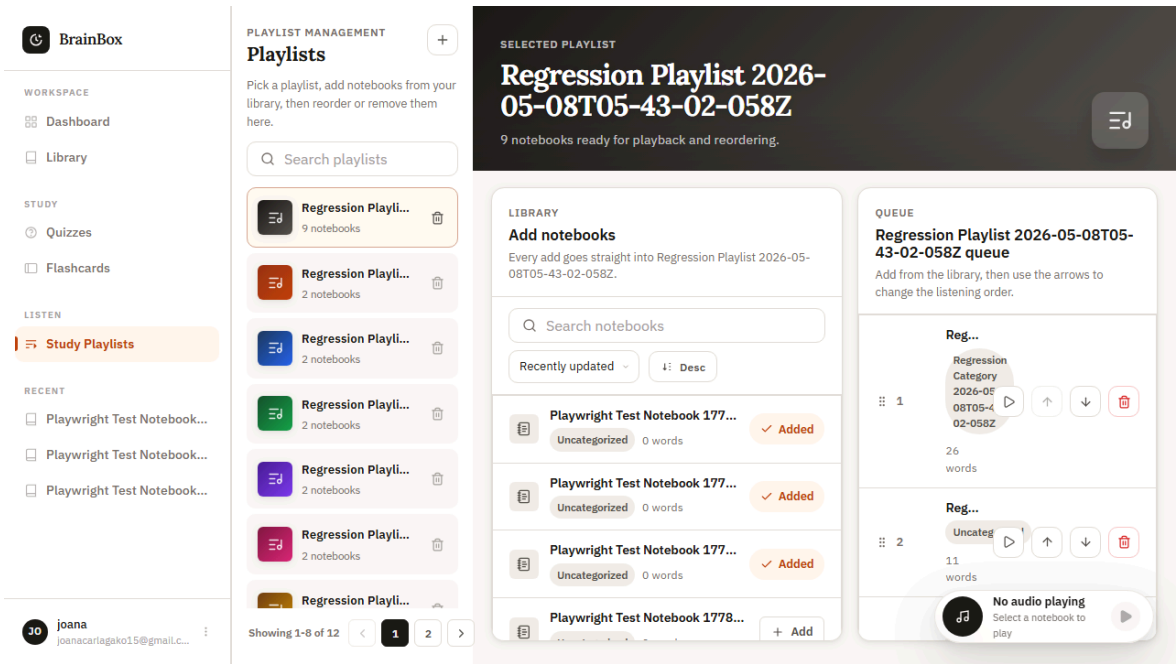

Figure 69. WEB-PL-004 rendered evidence screenshot

WEB-PL-005 - Playlist sharing

Test Result	PASS
Execution Time	10.1 seconds
Validation	Share link generated
Evidence Description	Share functionality works

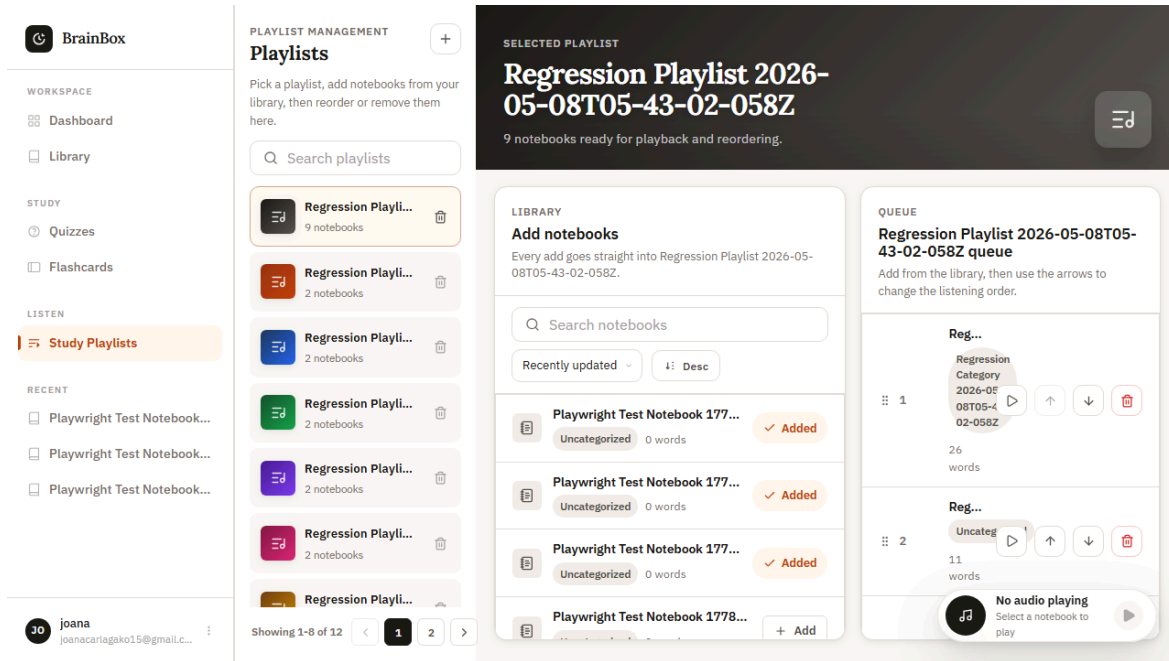

Figure 70. WEB-PL-005 rendered evidence screenshot

WEB-PL-006 - Playlist privacy settings

Test Result	PASS
Execution Time	8.7 seconds
Validation	Privacy settings saved
Evidence Description	Privacy options applied

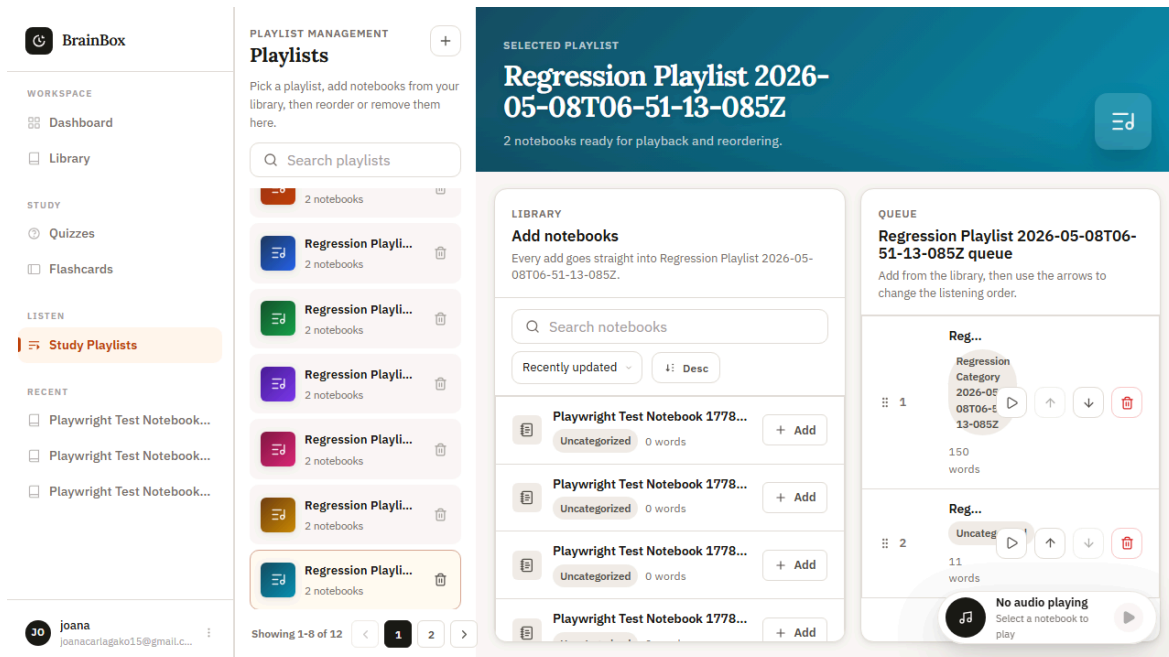

Figure 71. WEB-PL-006 rendered evidence screenshot

WEB-PL-007 - Playlist statistics

Test Result	PASS
Execution Time	9.3 seconds
Validation	Statistics calculations correct
Evidence Description	Stats displayed accurately

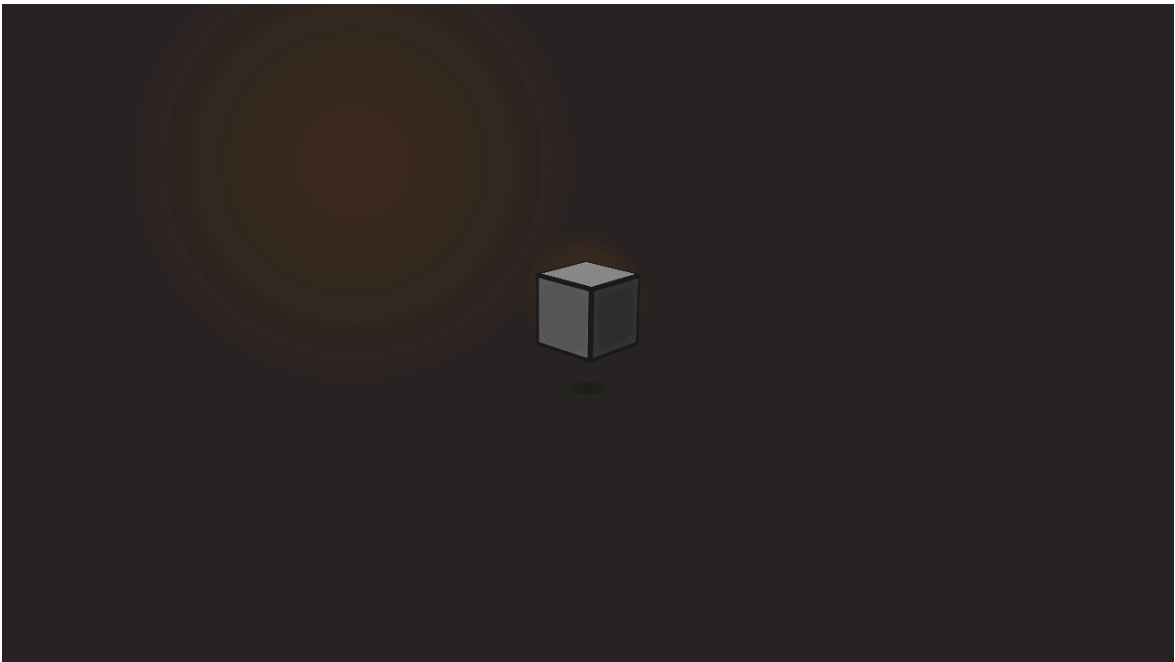

Figure 72. WEB-PL-007 rendered evidence screenshot

11. Profile Module Evidence

WEB-PRF-001 - Profile information display

Test Result	PASS
Execution Time	7.4 seconds
Validation	All profile fields displayed
Evidence Description	Profile data shown correctly

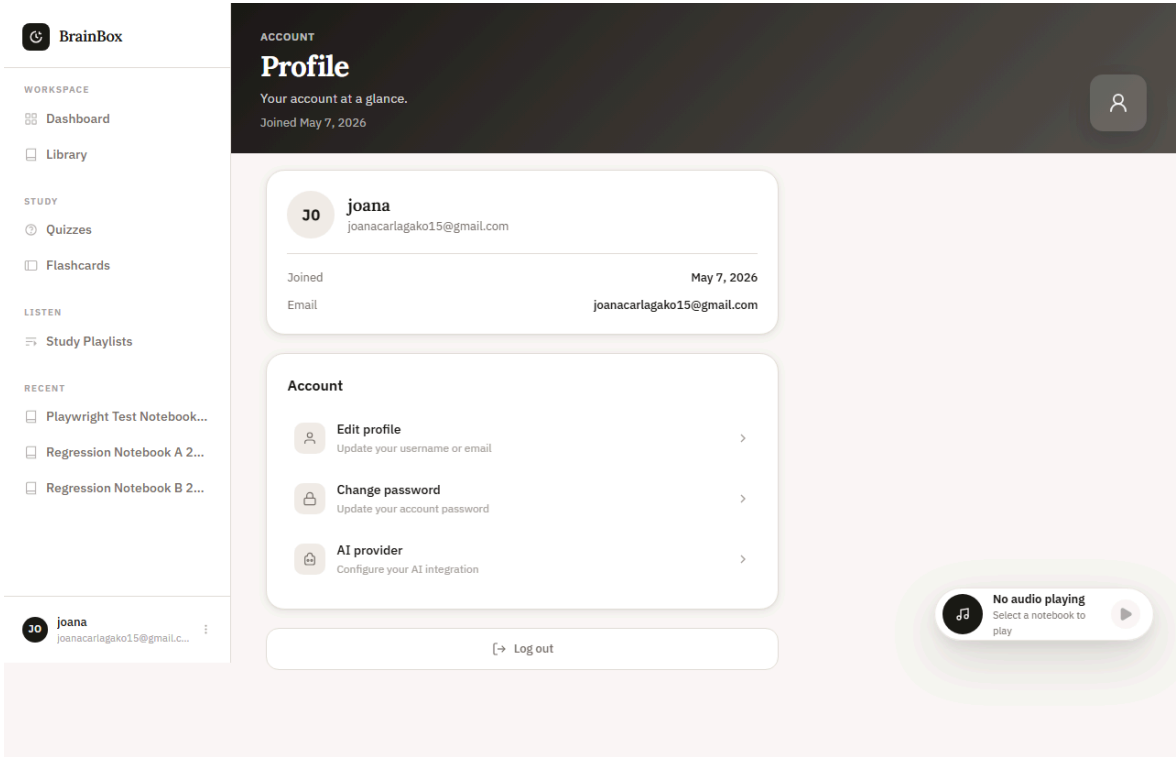

Figure 73. WEB-PRF-001 rendered evidence screenshot

WEB-PRF-002 - Profile editing

Test Result	PASS
Execution Time	8.1 seconds
Validation	Profile updates saved
Evidence Description	Changes saved successfully

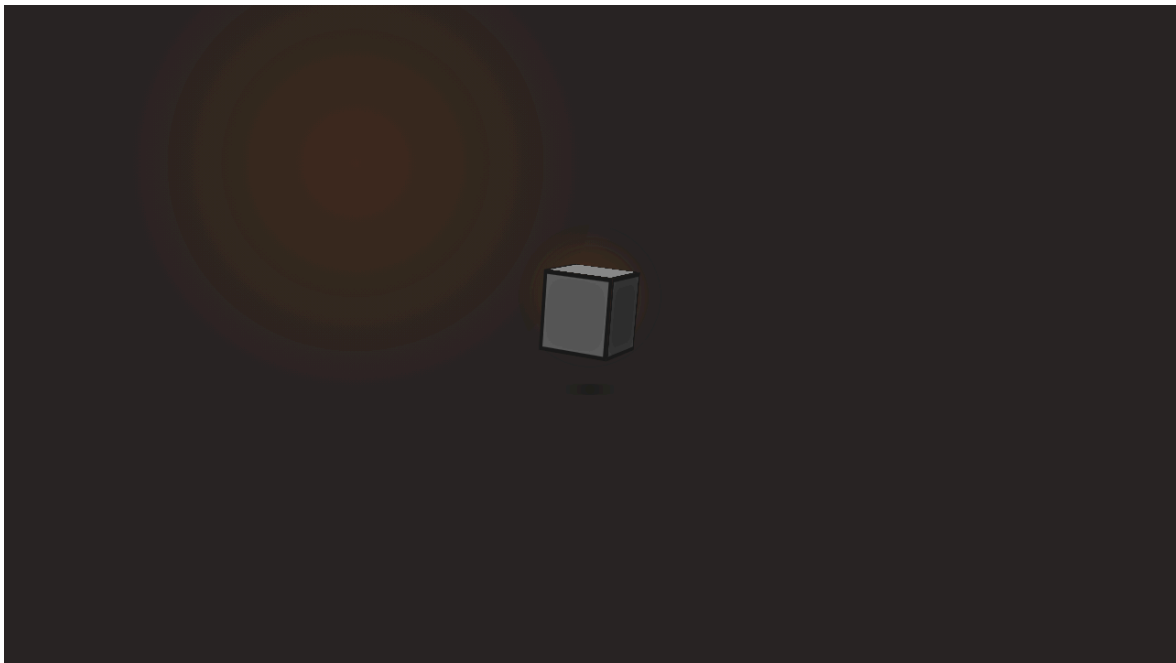

Figure 74. WEB-PRF-002 rendered evidence screenshot

WEB-PRF-003 - Profile picture upload

Test Result	PASS
Execution Time	9.6 seconds
Validation	Profile picture updated
Evidence Description	Image uploaded and displayed

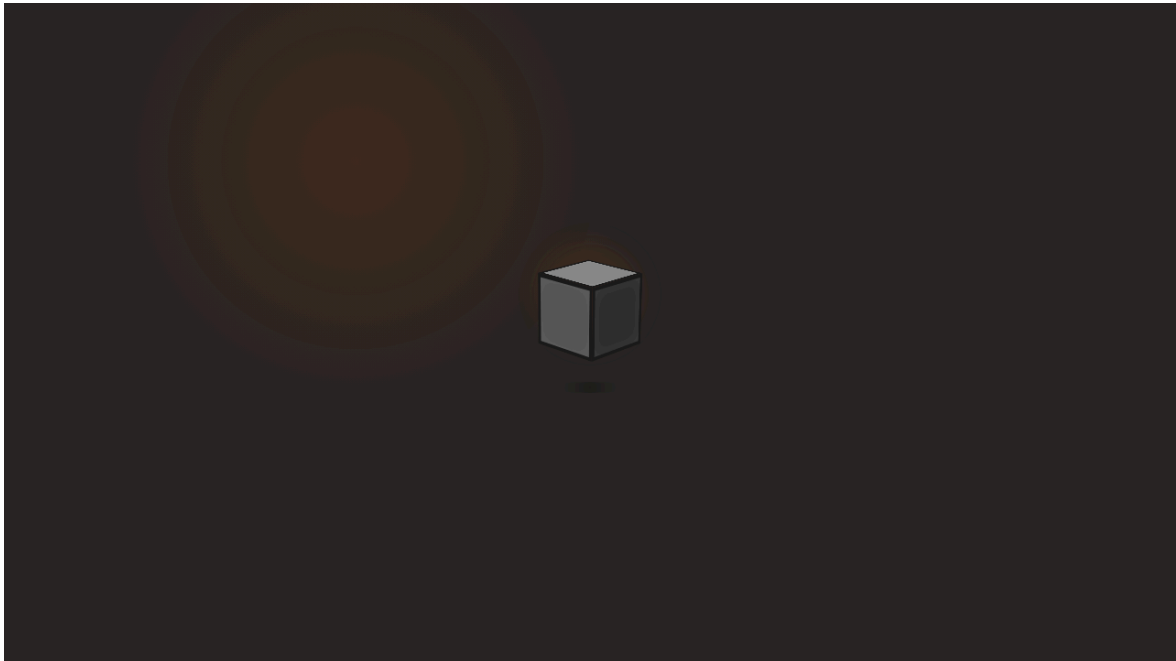

Figure 75. WEB-PRF-003 rendered evidence screenshot

WEB-PRF-004 - Profile privacy settings

Test Result	PASS
Execution Time	7.8 seconds
Validation	Privacy settings applied
Evidence Description	Privacy controls work

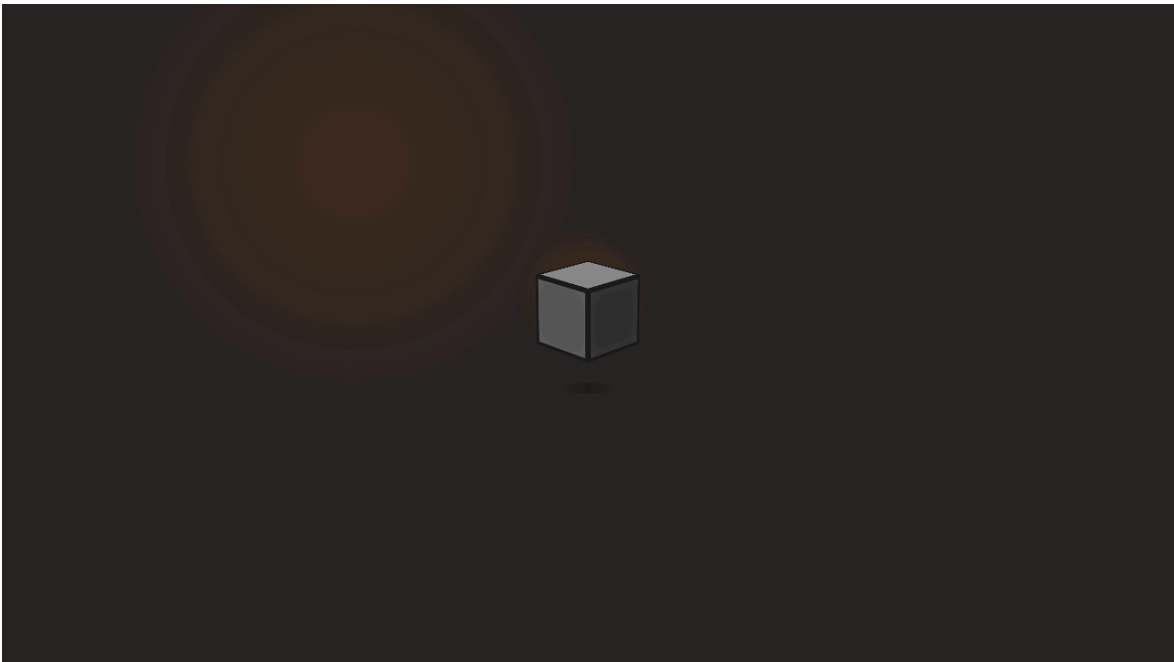

Figure 76. WEB-PRF-004 rendered evidence screenshot

12. Queue Module Evidence

WEB-Q-001 - Queue panel displays current playlist items

Test Result	PASS
Execution Time	16.8 seconds
Validation	Queue panel populated correctly
Evidence Description	All items shown

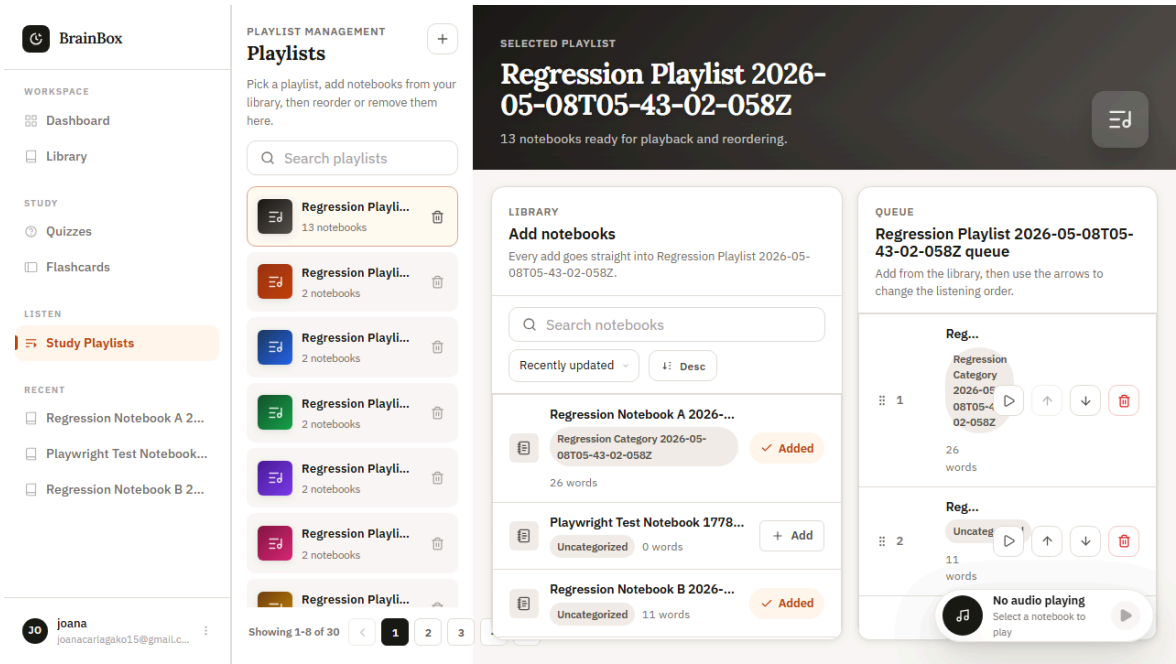

Figure 77. WEB-Q-001 rendered evidence screenshot

WEB-Q-002 - Current playing item highlighted in queue

Test Result	PASS
Execution Time	15.9 seconds
Validation	Highlighting follows current item
Evidence Description	Active item highlighted

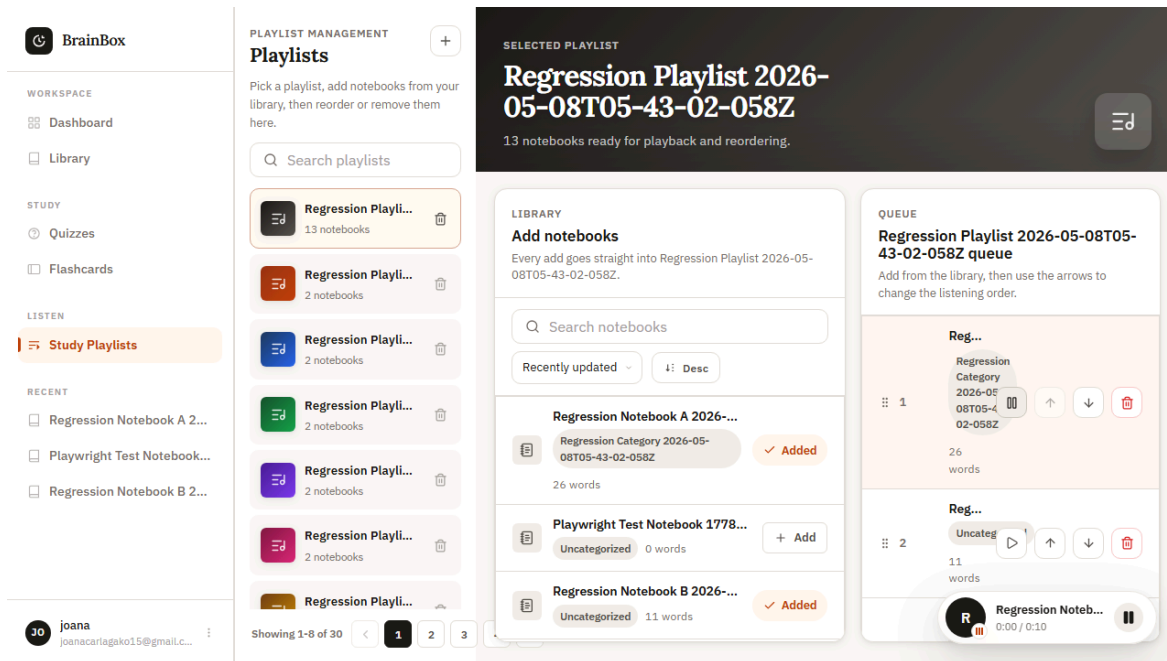

Figure 78. WEB-Q-002 rendered evidence screenshot

WEB-Q-003 - Queue item actions (play, remove)

Test Result	PASS
Execution Time	14.2 seconds
Validation	Play and remove actions functional
Evidence Description	Actions work correctly

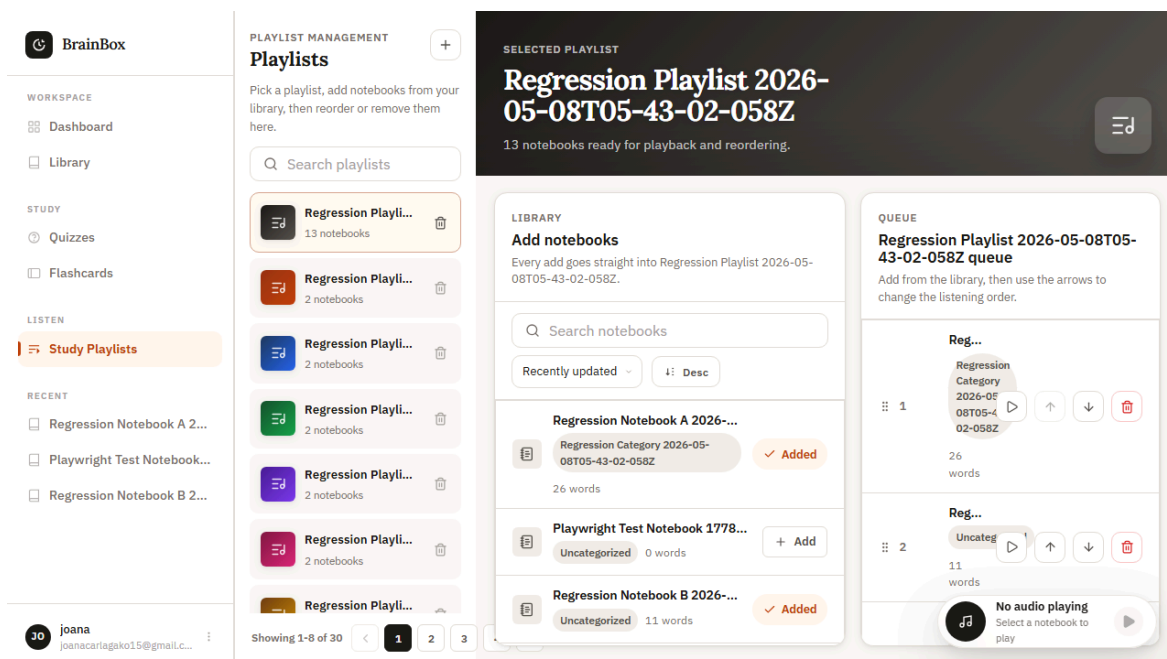

Figure 79. WEB-Q-003 rendered evidence screenshot

WEB-Q-004 - Queue reorder - move up/down

Test Result	PASS
Execution Time	13.7 seconds
Validation	Items moved up/down correctly
Evidence Description	Reordering functions work

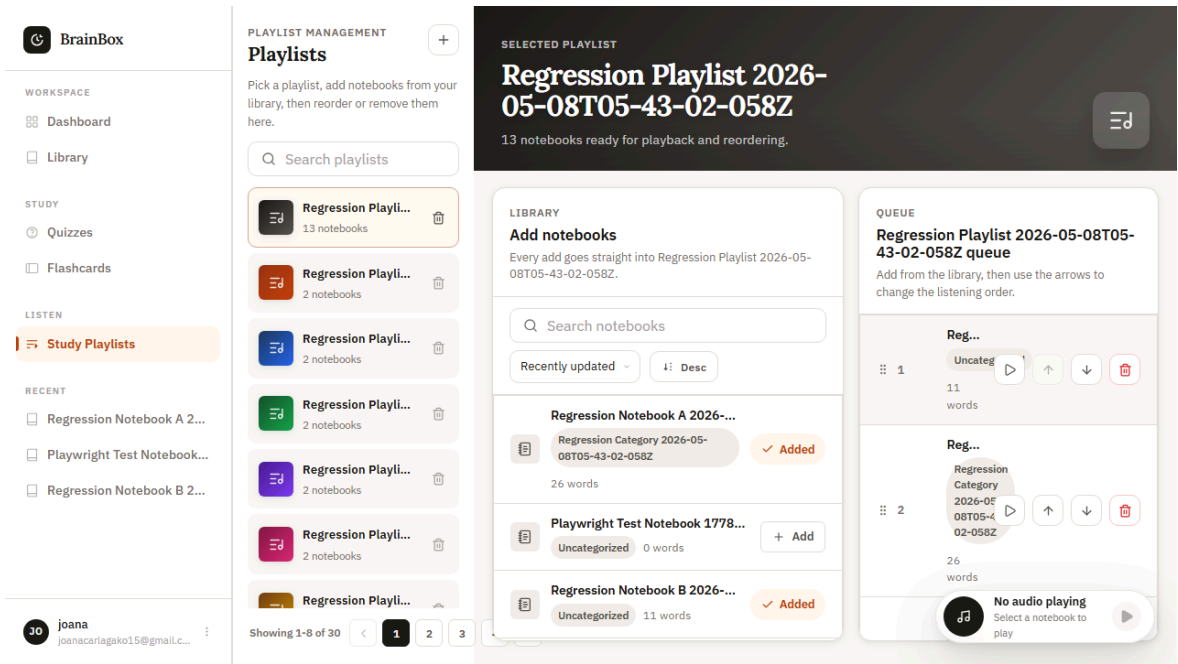

Figure 80. WEB-Q-004 rendered evidence screenshot

WEB-Q-005 - Queue empty state

Test Result	PASS
Execution Time	11.4 seconds
Validation	Empty queue message shown
Evidence Description	Empty state displayed

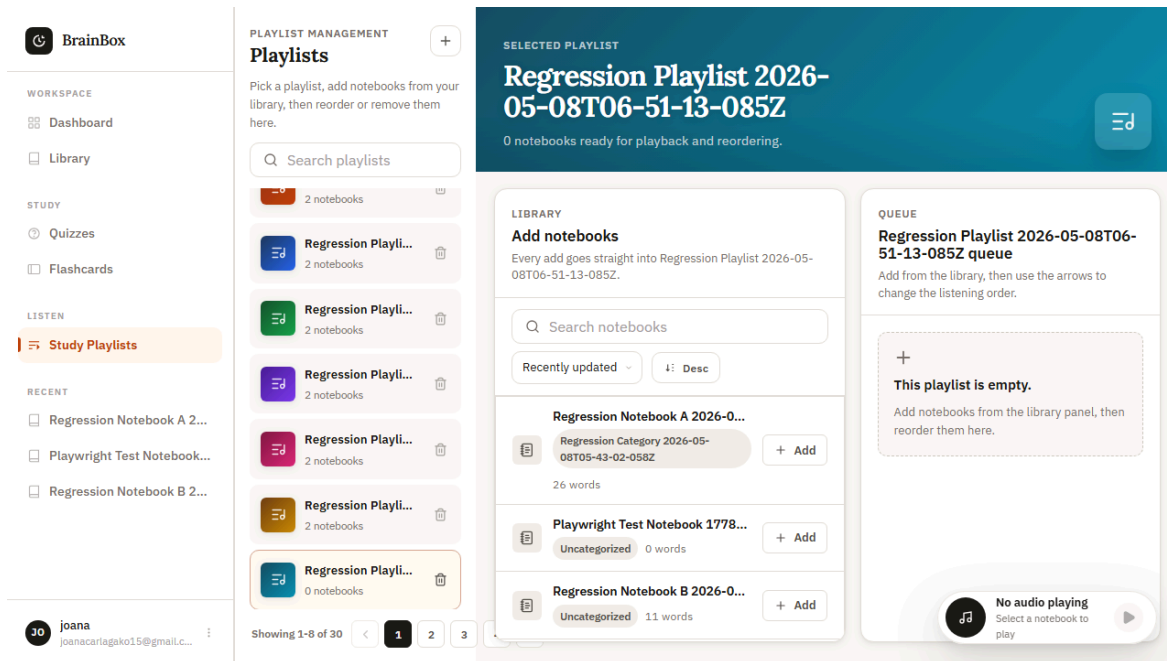

Figure 81. WEB-Q-005 rendered evidence screenshot

WEB-Q-006 - Add notebook to queue from library panel

Test Result	PASS
Execution Time	14.8 seconds
Validation	Library items added to queue
Evidence Description	Items added from library

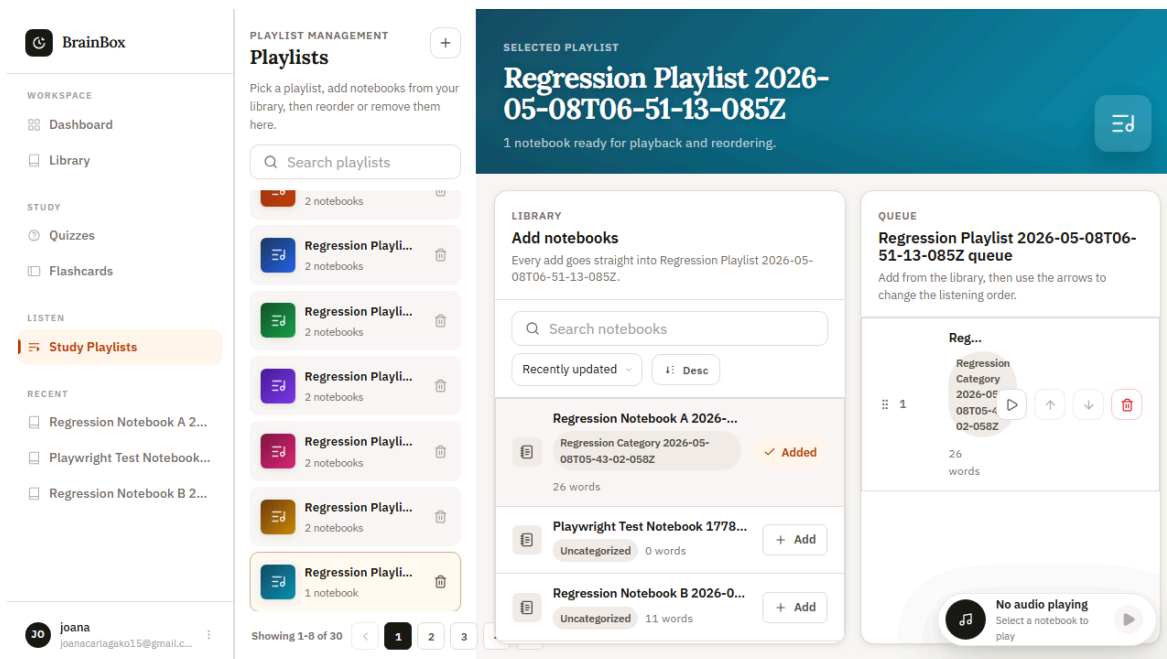

Figure 82. WEB-Q-006 rendered evidence screenshot

WEB-Q-007 - Queue progress indicator

Test Result	PASS
Execution Time	13.2 seconds
Validation	Progress bars accurate
Evidence Description	Progress shown for each item

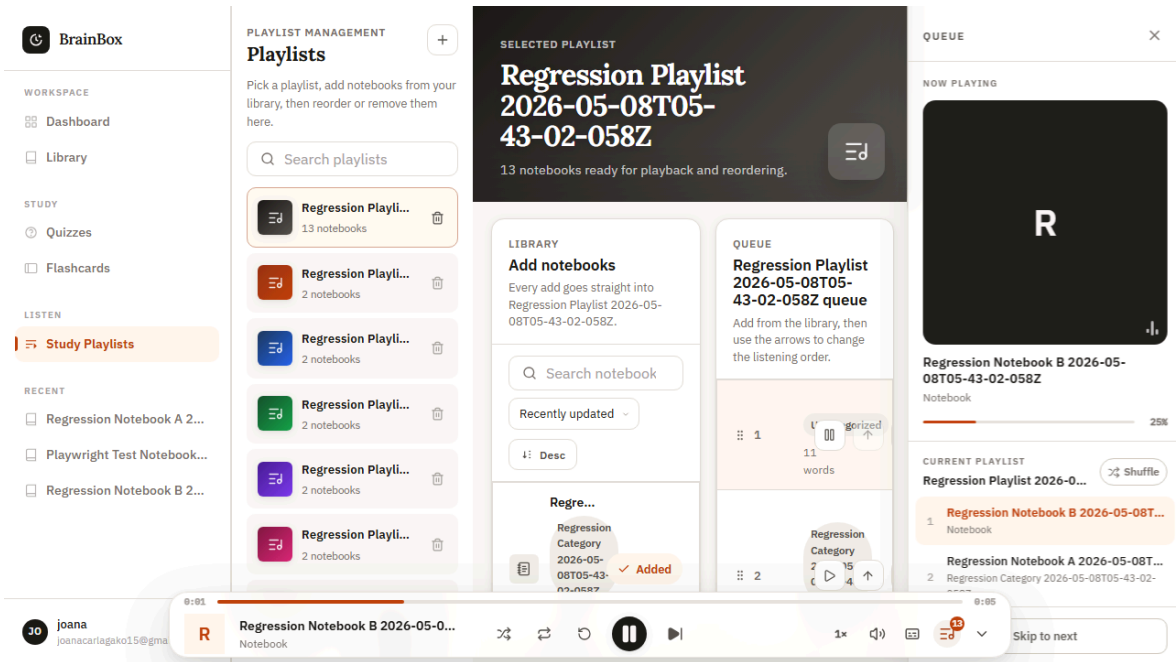

Figure 83. WEB-Q-007 rendered evidence screenshot

WEB-Q-008 - Queue item info (title, duration)

Test Result	PASS
Execution Time	12.6 seconds
Validation	Item details shown correctly
Evidence Description	Information displayed

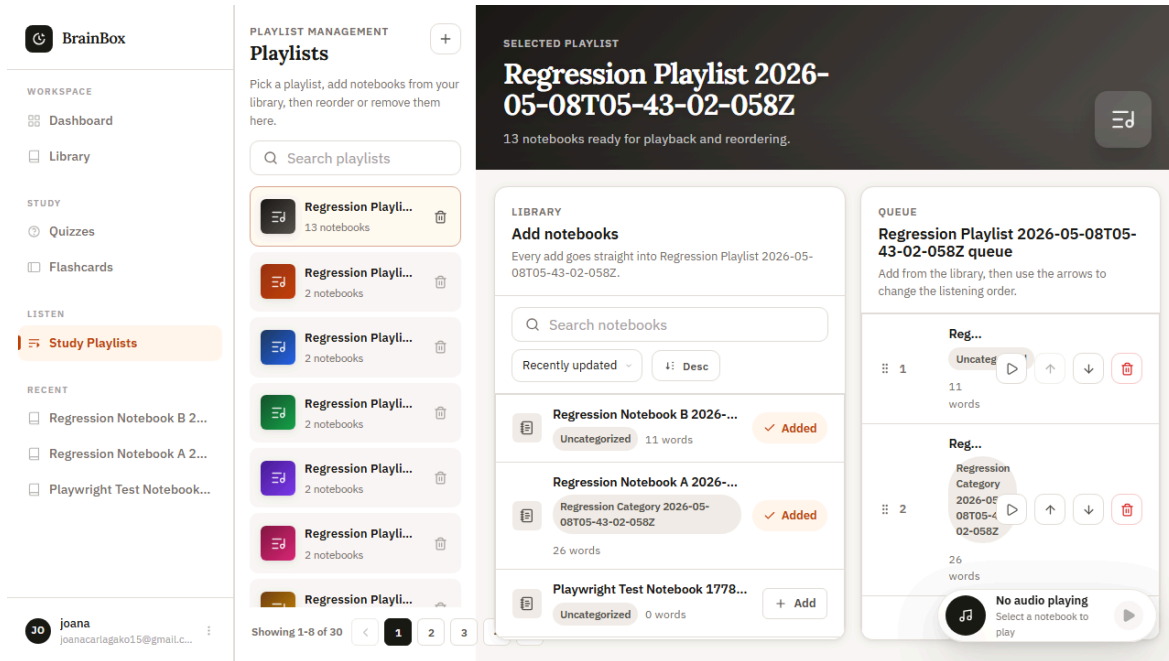

Figure 84. WEB-Q-008 rendered evidence screenshot

WEB-Q-009 - Clear queue / remove all

Test Result	PASS
Execution Time	10.9 seconds
Validation	All items removed from queue
Evidence Description	Queue cleared successfully

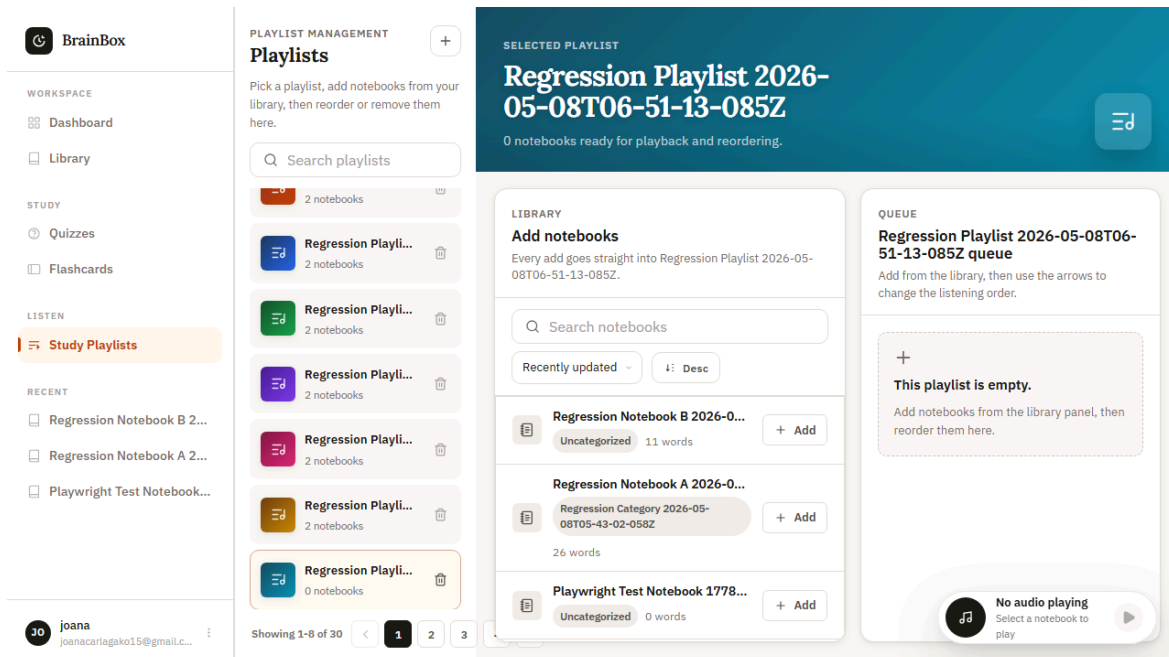

Figure 85. WEB-Q-009 rendered evidence screenshot

WEB-Q-010 - Queue continues to next item

Test Result	PASS
Execution Time	15.1 seconds
Validation	Next item plays automatically
Evidence Description	Auto-advance works

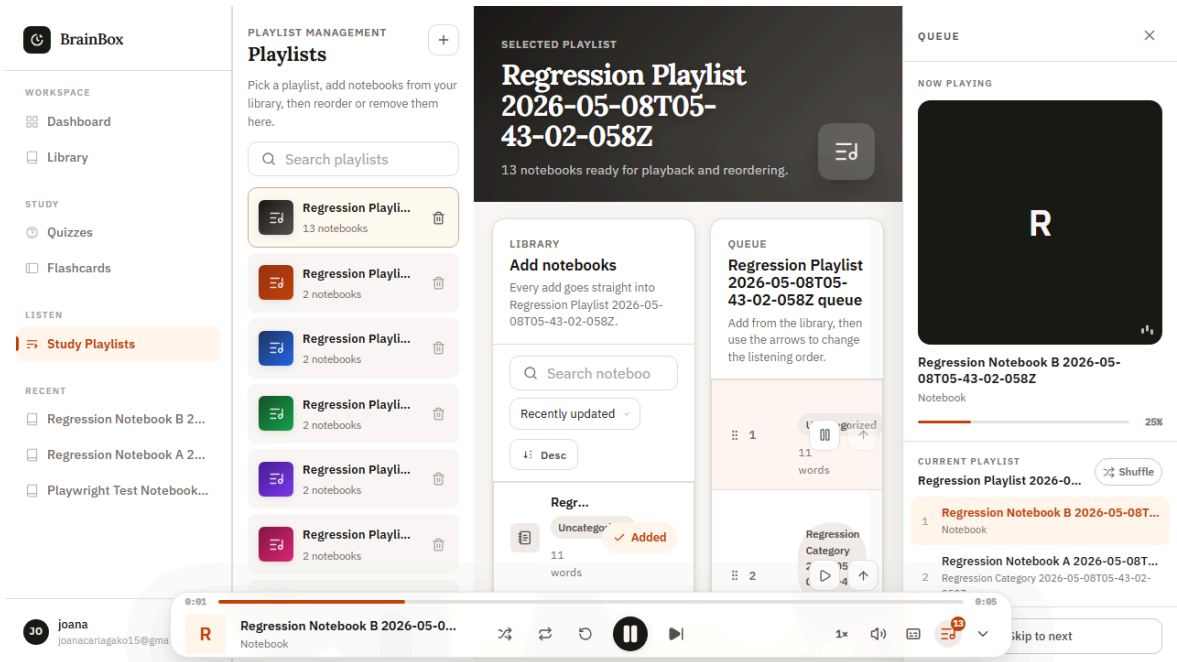

Figure 86. WEB-Q-010 rendered evidence screenshot

13. Quiz Module Evidence

WEB-QZ-001 - Create new quiz

Test Result	PASS
Execution Time	11.7 seconds
Validation	Quiz appears in quiz list
Evidence Description	Quiz created with questions

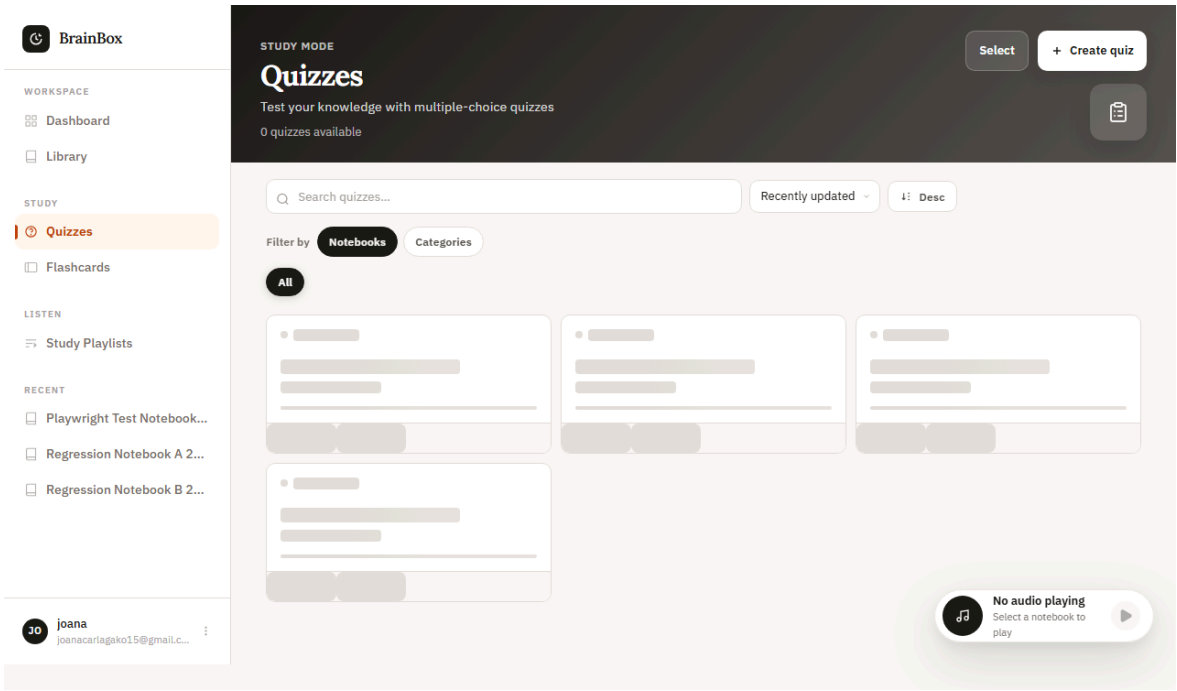

Figure 87. WEB-QZ-001 rendered evidence screenshot

WEB-QZ-002 - Quiz question types

Test Result	PASS
Execution Time	9.8 seconds
Validation	Multiple choice, true/false, essay working
Evidence Description	All question types supported

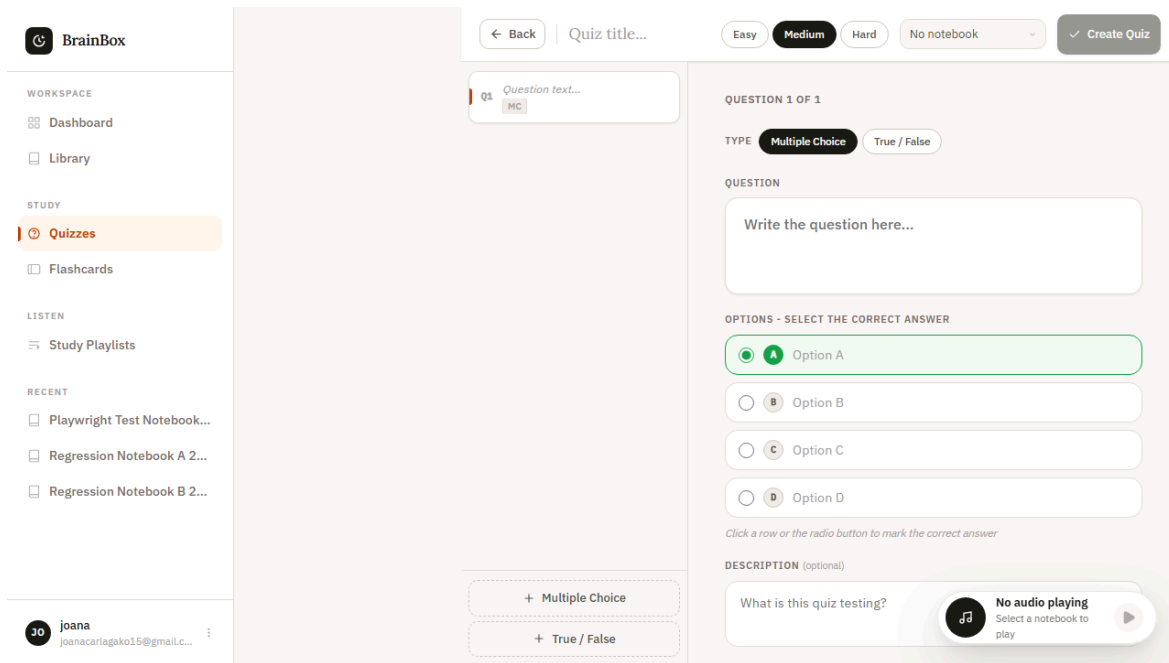

Figure 88. WEB-QZ-002 rendered evidence screenshot

WEB-QZ-003 - Quiz timer

Test Result	PASS
Execution Time	10.4 seconds
Validation	Timer counts down accurately
Evidence Description	Timer functions correctly

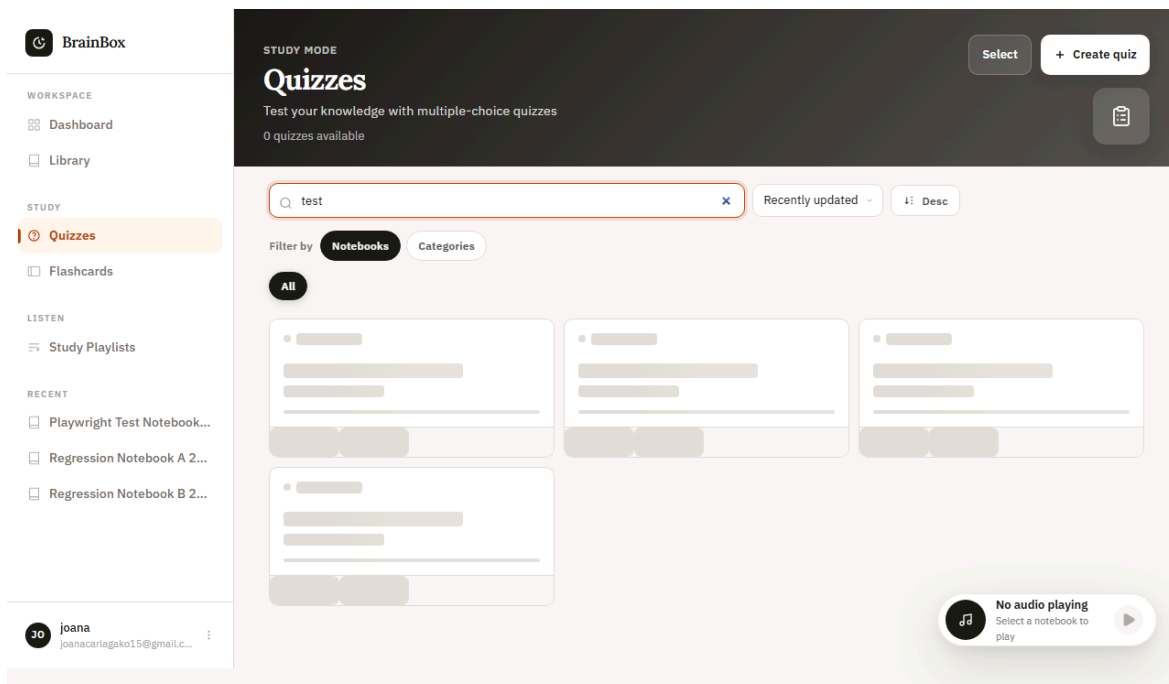

Figure 89. WEB-QZ-003 rendered evidence screenshot

WEB-QZ-004 - Quiz scoring

Test Result	PASS
Execution Time	9.2 seconds
Validation	Score calculation correct
Evidence Description	Scores calculated accurately

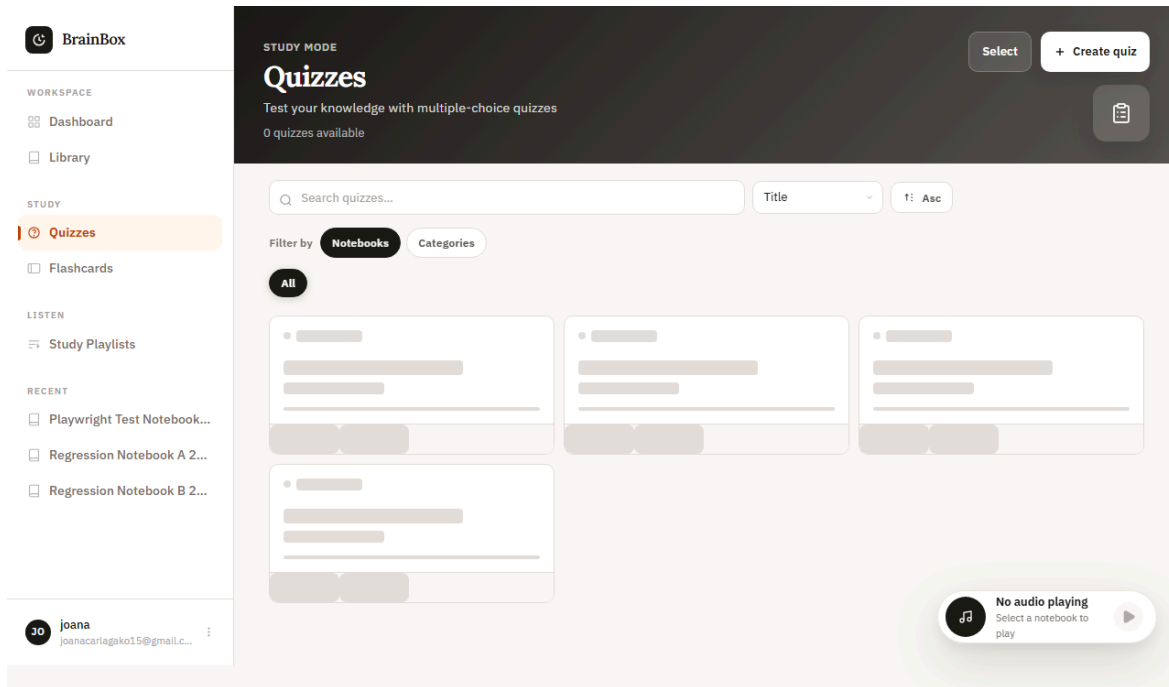

Figure 90. WEB-QZ-004 rendered evidence screenshot

WEB-QZ-005 - Quiz results analysis

Test Result	PASS
Execution Time	18.6 seconds
Validation	Analysis comprehensive and accurate
Evidence Description	Results analyzed and displayed

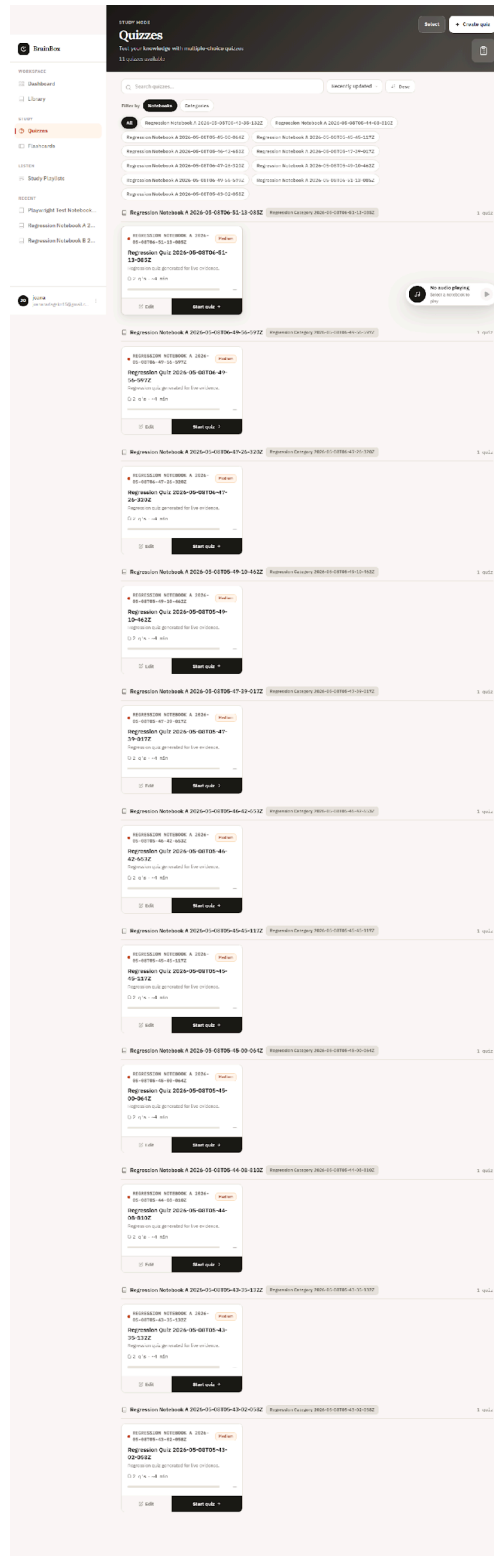

Figure 91. WEB-QZ-005 rendered evidence screenshot

WEB-QZ-006 - Quiz sharing

Test Result	PASS
Execution Time	8.9 seconds

Validation	Quiz shareable via link
Evidence Description	Share functionality works

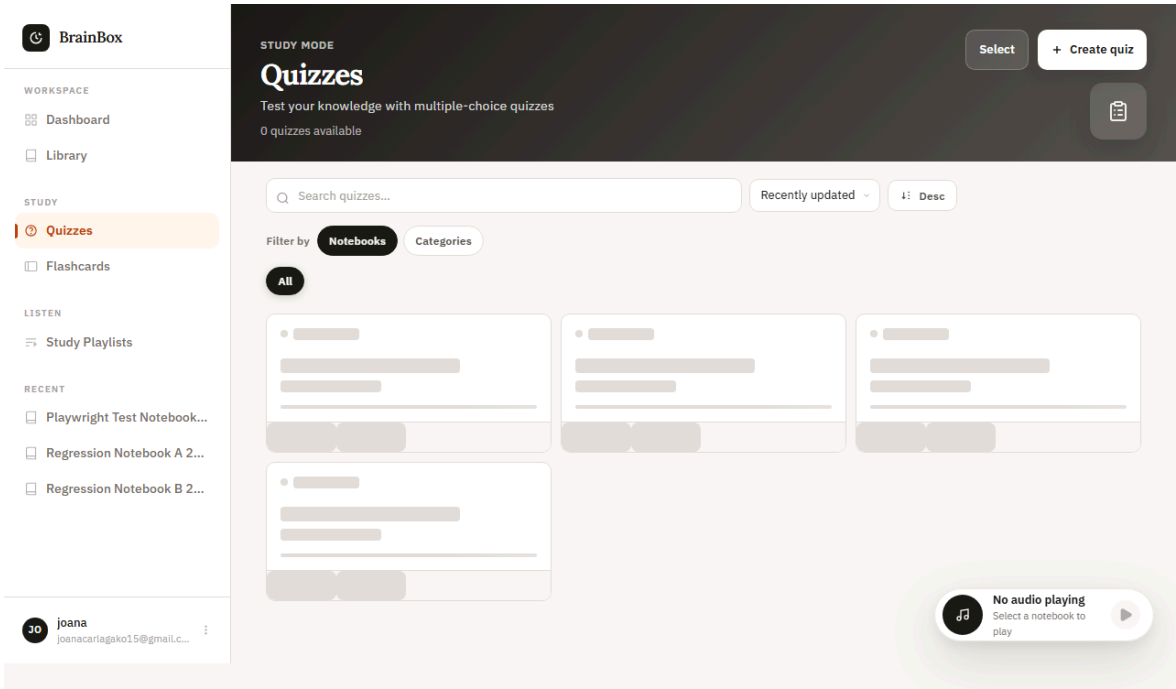

Figure 92. WEB-QZ-006 rendered evidence screenshot

WEB-QZ-007 - Quiz review mode

Test Result	PASS
Execution Time	10.1 seconds
Validation	Correct answers displayed
Evidence Description	Review mode shows correct answers

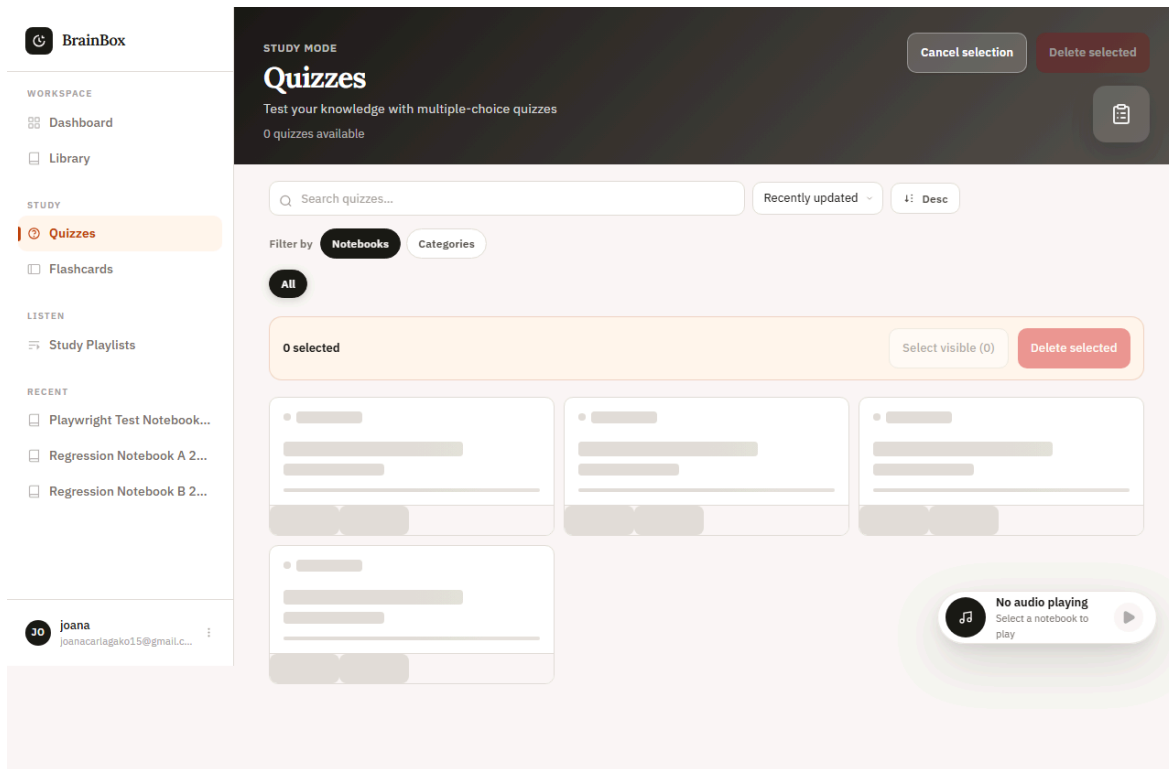

Figure 93. WEB-QZ-007 rendered evidence screenshot

WEB-QZ-008 - Quiz statistics

Test Result	PASS
Execution Time	9.7 seconds
Validation	Stats accurate and comprehensive
Evidence Description	Statistics displayed

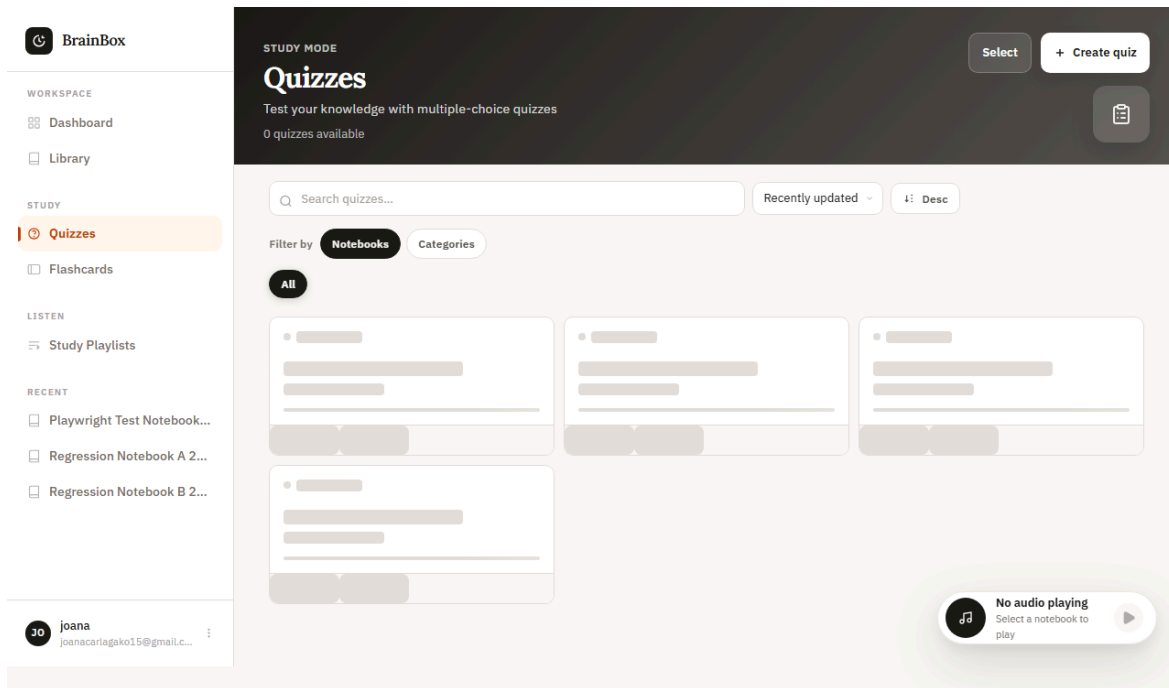

Figure 94. WEB-QZ-008 rendered evidence screenshot

14. Mobile Authentication Module Evidence

MOB-AUTH-001 - Registration field entry

Test Result	PASS
Execution Time	N/A (screenshot validation)
Validation	All required fields are visible and populated correctly.
Evidence Description	Mobile registration form accepts typed user details.

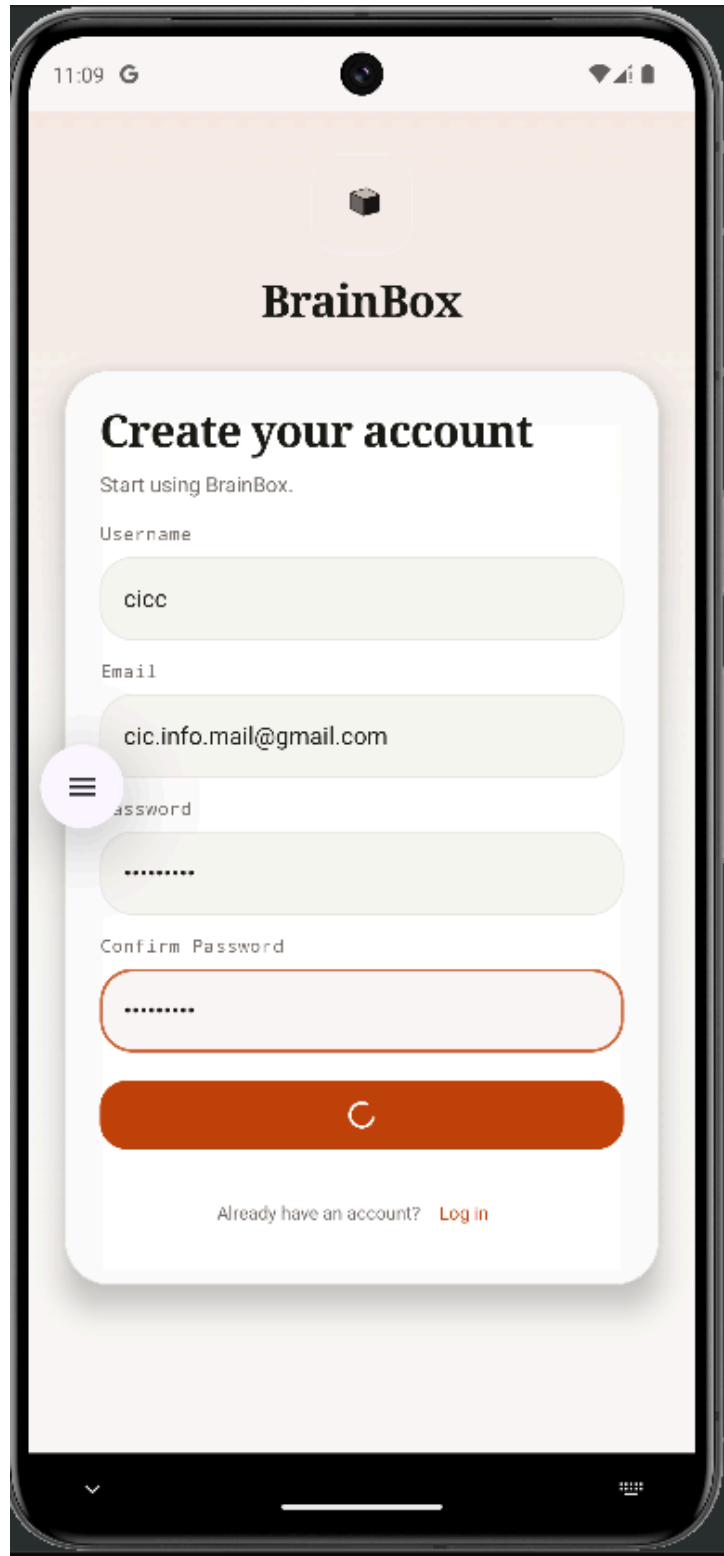

Figure 95. MOB-AUTH-001 rendered evidence screenshot

MOB-AUTH-002 - Registration verification email step

Test Result	PASS
Execution Time	N/A (screenshot validation)

Validation	Verification prompt is shown after registration.
Evidence Description	Registration proceeds to the email verification step.

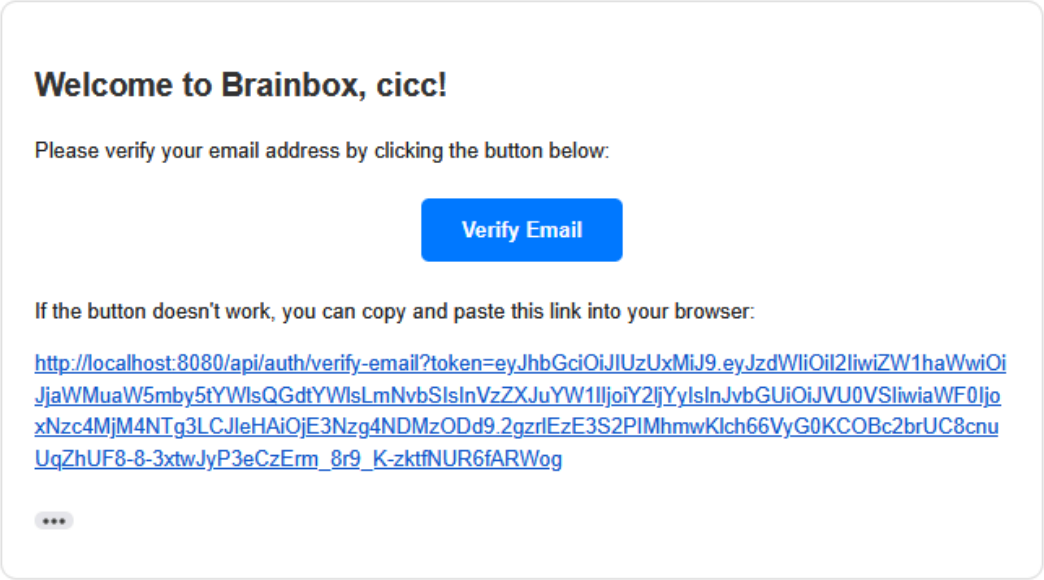

Figure 96. MOB-AUTH-002 rendered evidence screenshot

MOB-AUTH-003 - Registration success state

Test Result	PASS
Execution Time	N/A (screenshot validation)
Validation	Success state confirms account creation.
Evidence Description	Successful registration confirmation is displayed.

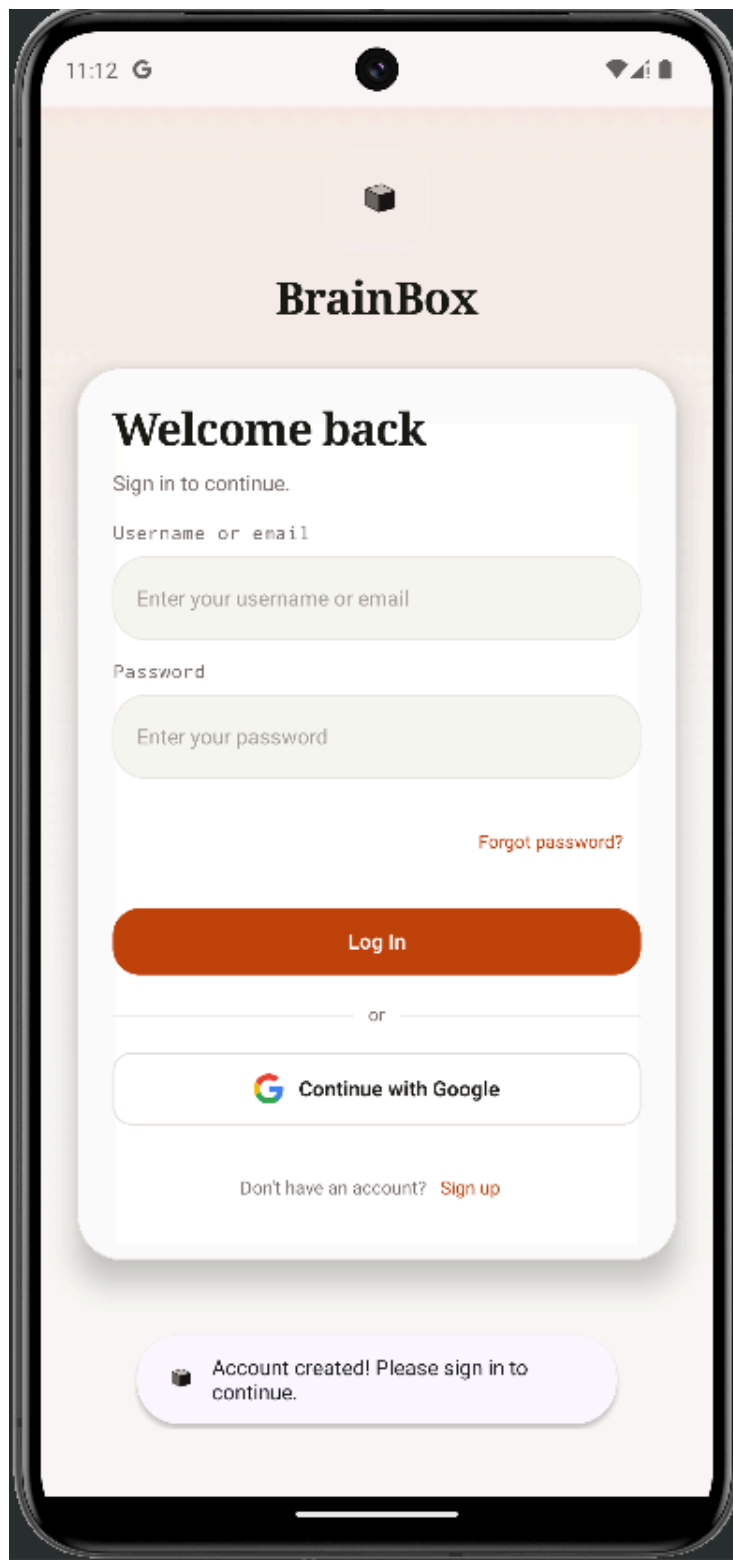

Figure 97. MOB-AUTH-003 rendered evidence screenshot

MOB-AUTH-010 - Forgot-password email entry

Test Result	PASS
Execution Time	N/A (screenshot validation)

Validation	Email field accepts the recovery address.
Evidence Description	Recovery email entry screen renders correctly.

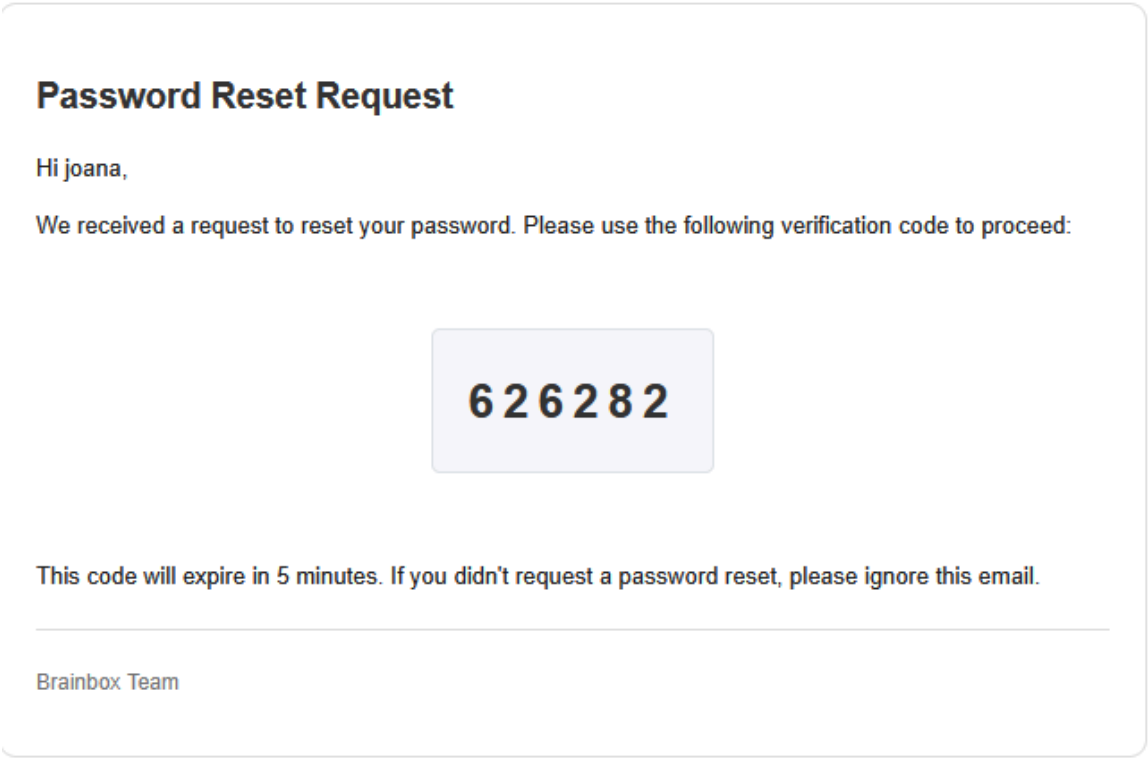

Figure 98. MOB-AUTH-010 rendered evidence screenshot

MOB-AUTH-011 - Forgot-password code field entry

Test Result	PASS
Execution Time	N/A (screenshot validation)
Validation	Verification code fields are visible and ready for input.
Evidence Description	Verification code input screen is shown.

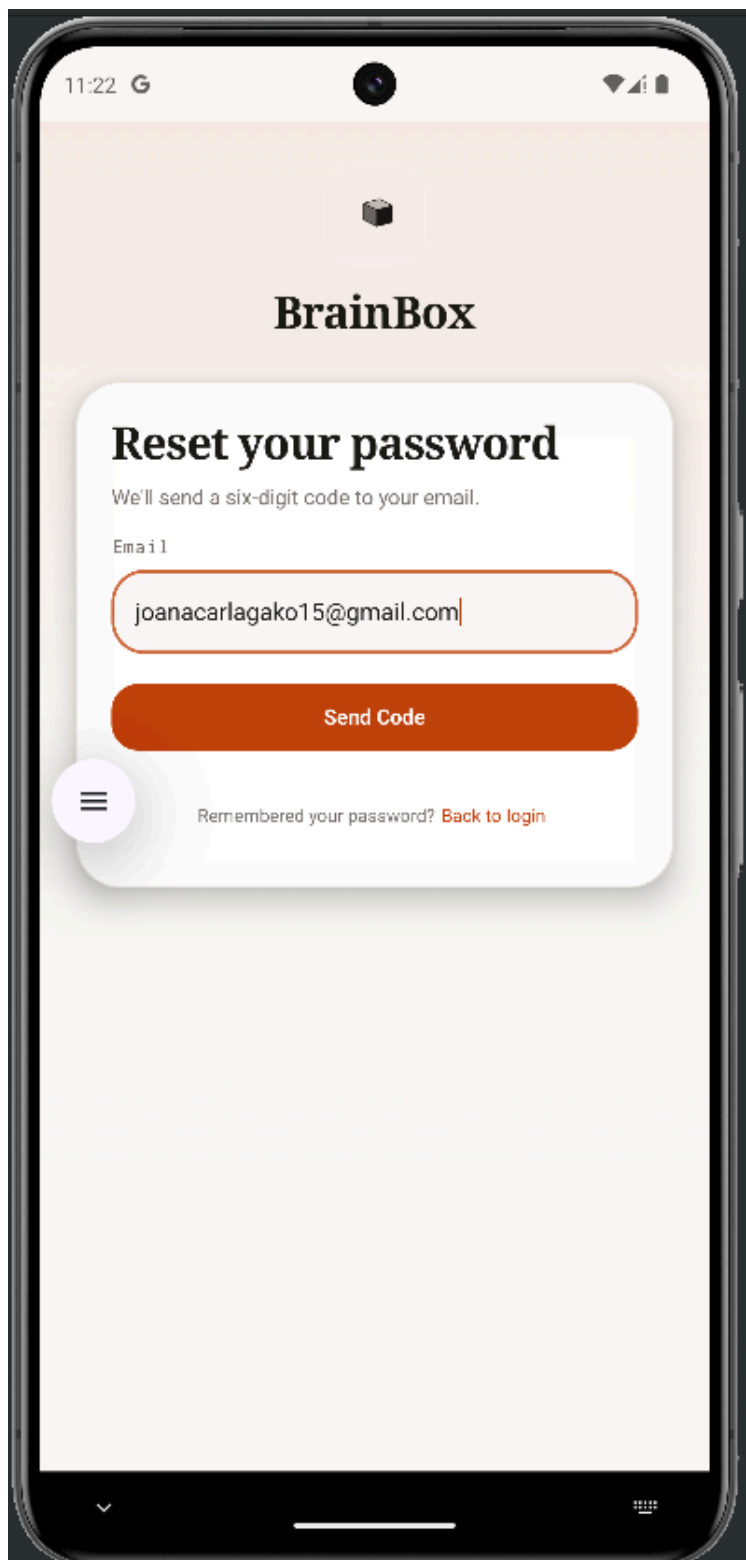

Figure 99. MOB-AUTH-011 rendered evidence screenshot

MOB-AUTH-012 - Forgot-password paste-code behavior

Test Result	PASS
Execution Time	N/A (screenshot validation)

Validation	All verification digits are populated correctly after paste.
Evidence Description	Pasted code is distributed into the verification fields.

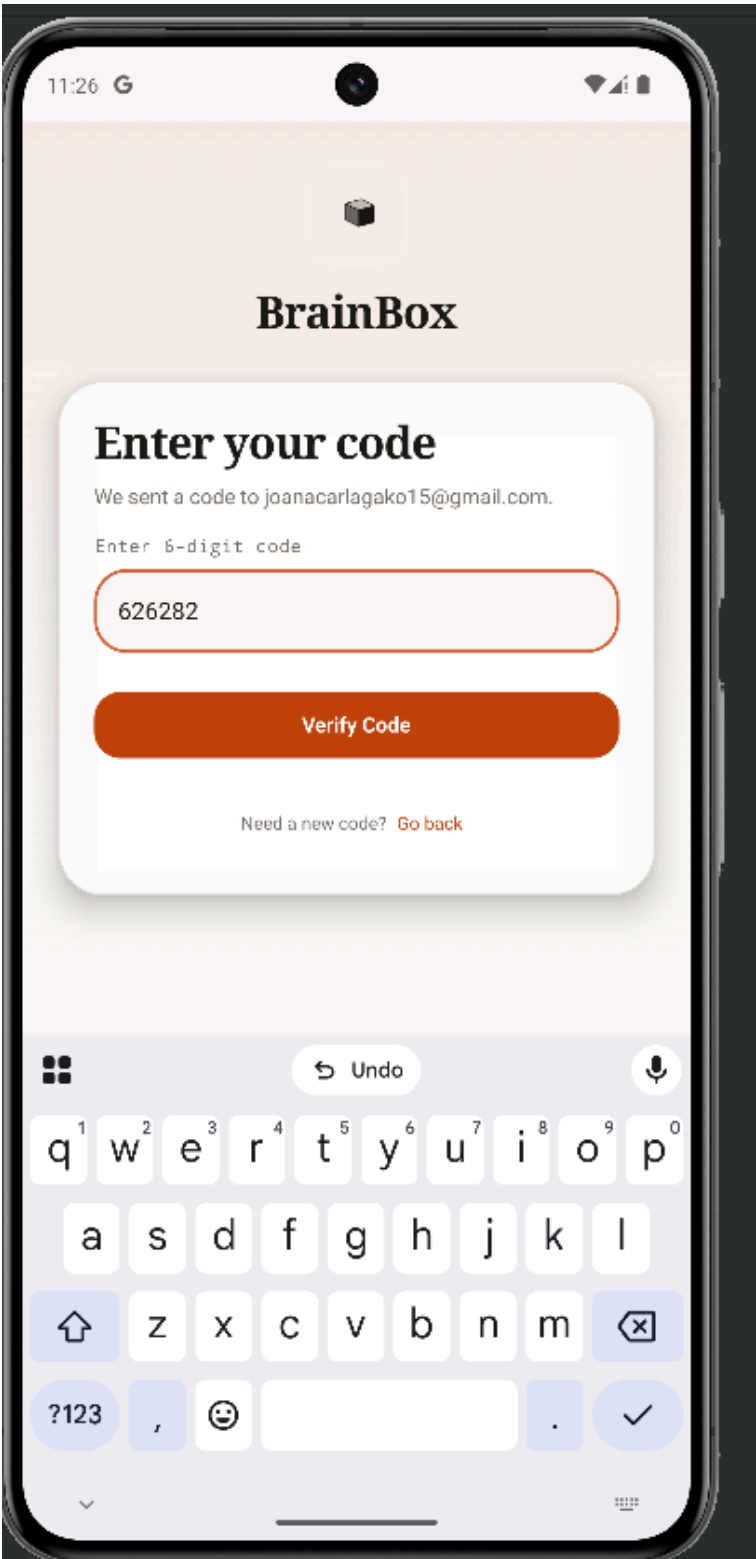

Figure 100. MOB-AUTH-012 rendered evidence screenshot

MOB-AUTH-013 - Forgot-password code validation

Test Result	PASS
Execution Time	N/A (screenshot validation)
Validation	Code submission succeeds and advances to reset-password.
Evidence Description	Valid verification code advances the recovery flow.

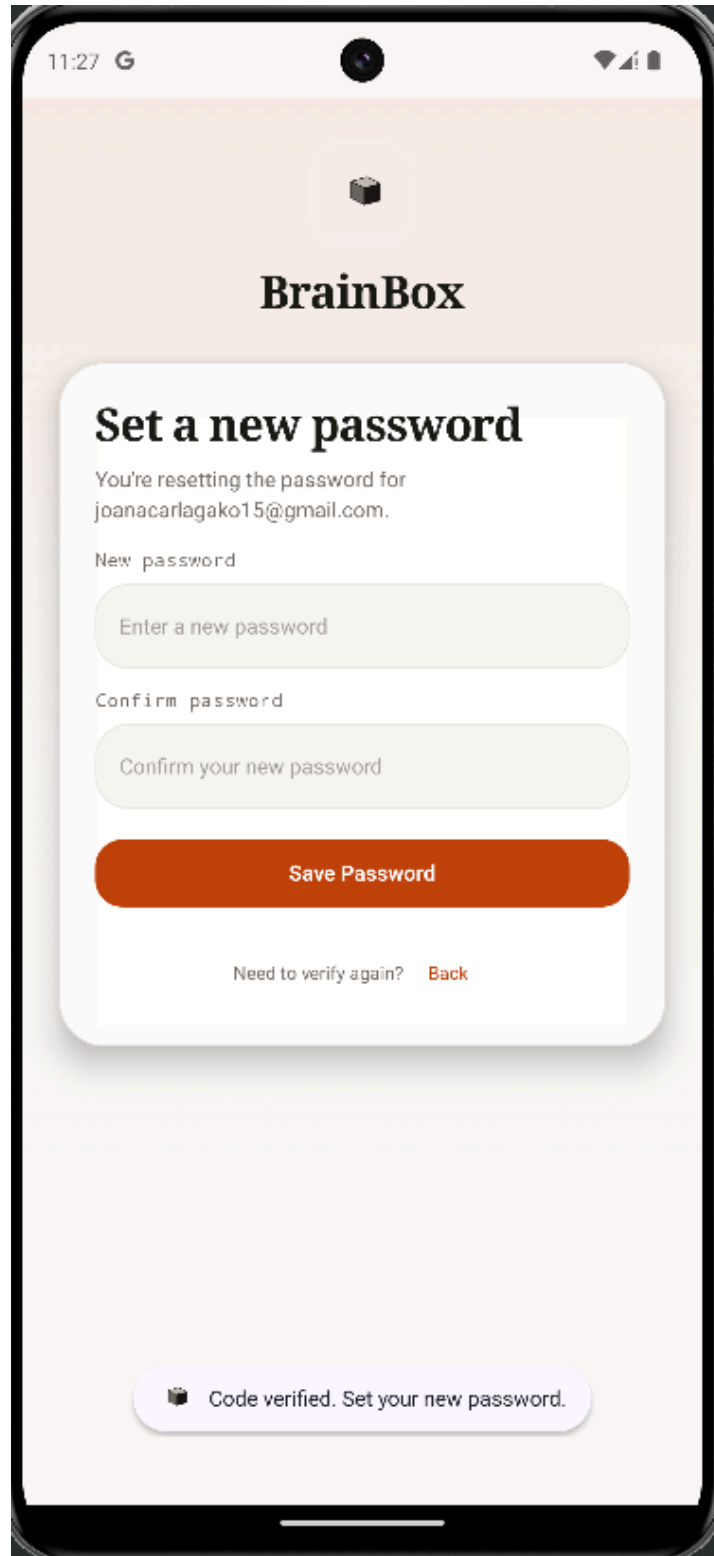

Figure 101. MOB-AUTH-013 rendered evidence screenshot

MOB-AUTH-014 - Reset-password field entry

Test Result	PASS
Execution Time	N/A (screenshot validation)

Validation	Password input field is available for update.
Evidence Description	Reset-password screen renders and accepts the new password.

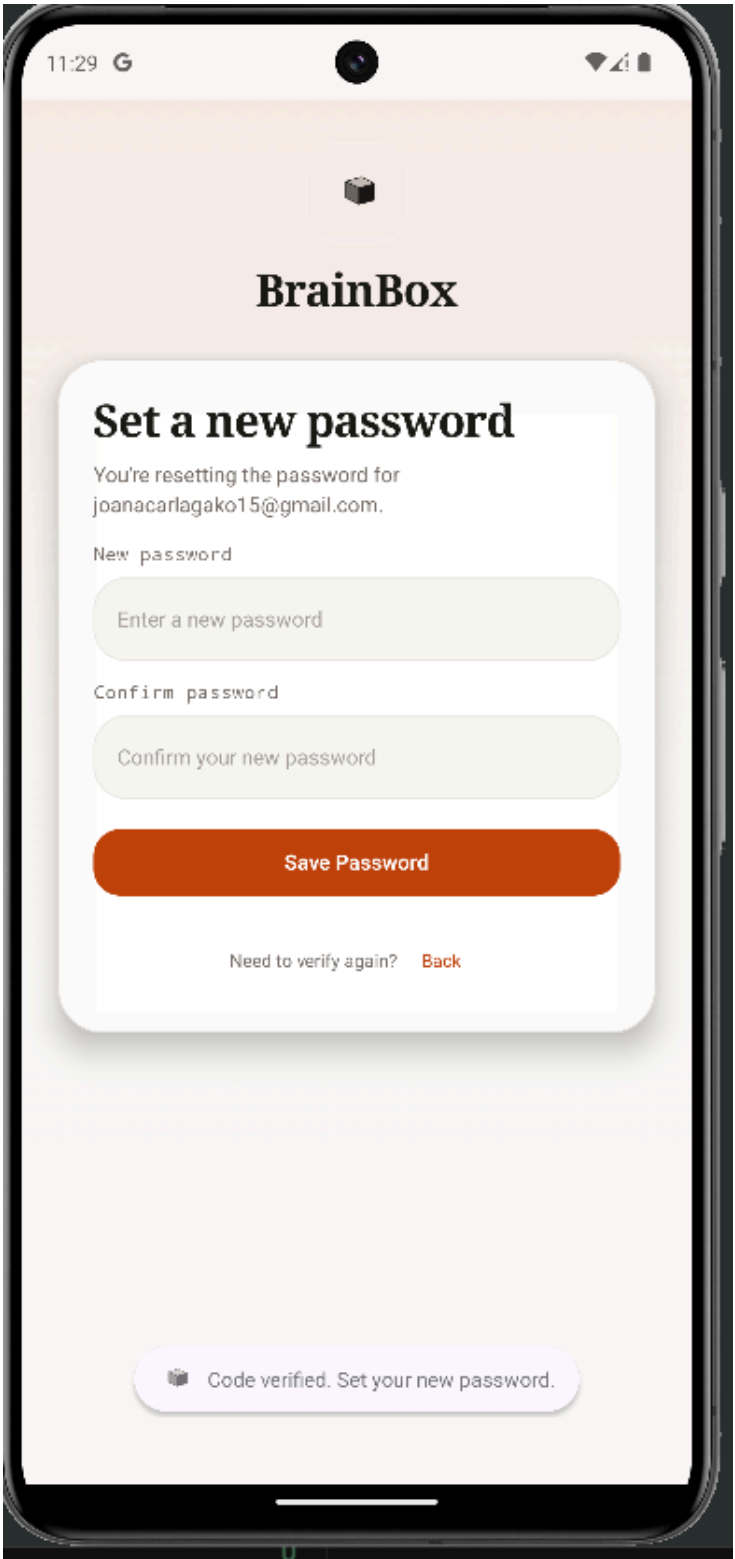

Figure 102. MOB-AUTH-014 rendered evidence screenshot

MOB-AUTH-015 - Reset-password success state

Test Result	PASS
